

# **Earthly Life and Spirit World (Part 2)**

**by Rev. Sun Myung Moon**

## *Table of Contents*

Contents

Preface

Chapter 1 - The Kingdom Of God

Section 1. Understanding The Kingdom Of God

Section 2. Preparation For Going To The Kingdom Of God

Section 3. The Qualifications And Conditions For Entering The Kingdom Of God

Section 4. The Gate Of The Kingdom Of Heaven And Entering The Kingdom Of Heaven

Chapter 2 - The Messiah And The Spiritual World

Section 1. Jesus Christ And The Spiritual World

Section 2. Christ At The Second Advent And The Spiritual World

Section 3. True Parents And The Spiritual World

Section 4. Father And Spirit World

Chapter 3. Entering The Spirit World

Section 1. To Bear The Fruit Of Human Life And The Spirit Self

[Section 2. Judgment And Public Approval](#)

[Section 3. Entering The Spirit World](#)

[Section 4. The Spirit World And Ourselves](#)

Chapter 4 - The Relationship Between Ourselves And Spirits

[Section 1. Spiritual Phenomena And Liberation Of Spirits](#)

[Section 2. Relationship Between People On Earth And Spirits](#)

[Section 3 - Ancestors And Ourselves](#)

[Section 4. The Coming Of The Spiritual New Age](#)

[Section 5. Returning Resurrection And Assistance Of Spirits](#)

## **Section 1. Understanding The Kingdom Of God (Part 1)**

### ***1. The Location Of The Kingdom Of God***

The Kingdom of God, according to the Bible, is in your mind. The Kingdom of God is not at the end of the world as you might expect, but is in your mind. What kind of mind is that? It is not the mind that has elements of death from the fallen world, but the mind that has waves of the grace of life. This is the mind that can extend the grace of life to the world by removing the elements of death.

The Kingdom of God cannot be found in the physical world. The Kingdom of God is not in this world. Accordingly, the starting point of the Kingdom of God is where you make a resolution and practice it. As you find the starting point, you can meet the Kingdom of God.

Therefore, the Kingdom of God does not come at the end of the world, but comes with the starting point united by mind and body. When you weigh something on a scale, you make a balance by using the middle weight. The starting point of the Kingdom of God can be compared to the middle weight of a scale. The middle weight makes a balance by making the scale level, while the starting point of the Kingdom of God should not be at the level place. The purpose of a scale is to become level, but the starting point of the Kingdom of God should be slanted to the right side. It should not be slanted to the left. To be slanted to the right side is the starting point.

So, where does the Kingdom of God come from? It starts from the mind. What kind of mind is that? It is the mind that is victorious over the world. Even if the Kingdom of God comes externally, if your mind is evil and cannot harmonize with it, then you will have nothing to do with the Kingdom of God. Therefore, the foundation to be able to meet the Kingdom of God is not the environment, but yourself. In this sense, the problem is yourself. The foundation to be able to maintain the Kingdom of God is not the environment, but your mind. (46-23)

Where is the Kingdom of God? Although Jesus' disciples did not clean-up their present reality, they were expecting to receive high positions of authority in the world and were dreaming of a happy life in the coming Kingdom of God. Jesus fundamentally destroyed their wrong thinking and taught that the Kingdom of God is in the mind. People who don't create the Kingdom of God within their minds cannot harmonize with the environmental Kingdom of God when it comes. If your mind doesn't make a firm decision, perfect action cannot follow. Firm decision brings firm action.

Therefore, the Kingdom of God begins with an unchanging, absolute mind and perfect action. How does your mind long for goodness? The mind that desires goodness has to unite with historical goodness. The mind has to overcome tremendously difficult circumstances in order to work towards goodness. The mind should be unchanging, and resolved to go the lonely way of struggle even till the end of history. Such a mind has to be united with perfect action. From there, the direction of the Kingdom of God is decided and is started. However, when mind and body are separated, the Kingdom of God is not made.

In this sense, Jesus was not teaching that the unity between mind and body is slanted to the right or to the left. By removing the conditions that cause the slant, as one has subjectivity, one can meet the kingdom. You should understand this clearly.

The Kingdom of God does not originate in others, but comes from yourself. Because you are fallen people, you have to deny yourselves. When you do not create the Kingdom of God in your mind and act accordingly, someone else will create it instead of you. If that happens, then you have to unite with that person in order to reach the Kingdom of God. You have to keep in step with that person. If he goes east, you have to go east. "Although he's doing it this way, I'll do it another way." If you think like that, you cannot enter the Kingdom of God. So, you should not have any criticism. (46-24)

Jesus said that the Kingdom of God is within your mind. What is the Kingdom of God? It is the place centered on God's love. The Kingdom of God is where the bond of God's love is made, and the realm of the universal environment is established. Then, who can live there? They should be people who are harmonized with the essence of God's love. Only such people can go there. What does it mean to be harmonized with the essence of God's love? A person who is centered on himself does not have any value. The one who can invest life and devotion for the sake of his objects can live continuously in the realm of God's love. Historically, great people and saints went such a way. (46-36)

## ***2. Christians And The Kingdom Of God***

Those who are attending today's meeting, please think seriously if you can enter the Kingdom of God or not? Even if you've been attending church for a hundred years, if you still have a self-centered mind, you

will never enter the Kingdom of God. If anybody thinks that Rev. Moon's word is wrong, please die and check its validity. A self-centered person can never enter the Kingdom of God.

You should know which religion is true today. You should know what kind of person is a true person, and what kind of nation is a true nation. (78-118)

The ideal of the Kingdom of God is that, first of all, the Kingdom of God is established on earth through the ideal of love; then it is connected to the spiritual world. However, according to the traditional concept, the Kingdom of God comes from heaven, and the Lord of the Second Advent comes riding on the clouds. This is not the content of the Principle, and also it is not logical. As you know, people today are flying in airplanes, aren't they? (191-112)

When True Father went to the spiritual world, he came to understand that the martyrs who died for the purpose of entering the Kingdom of God did not actually get there. On the other hand, those martyrs who died with a grateful mind did enter the Kingdom of God. "God walked the suffering path to find me; He shed blood. I will go anywhere in order to return God's grace." They went the way of martyrdom with this kind of mind.

For whom did they die? Did they die for their own sake? They died for the sake of heaven and earth. On the other hand, some martyrs thought, "I will die like this in order to enter the Kingdom of God." For whom did these people die? They died for themselves. A fallen person can never enter the Kingdom of God by insisting on himself. (41- 355)

Let's look at how Christians pray. If they are Presbyterian, they try to make God a Presbyterian. If they are Methodist, they try to make God a Methodist. They try to figure out God from their own perspective, despite the fact that God is an infinite and immeasurable Being. How suffocating it feels! How surprising it is that such people oppose Rev. Moon! (laughter) Rev. Moon has been relentlessly blamed and persecuted for forty years by such people, who are less than the eye of a needle.

God also likes humor. Sometimes God says, "Rev. Moon, listen to this prayer of a minister of the church! He is praying for you to die." Then God lets True Father listen to the microphone. It says, "Rev. Moon is the master of evil. . ." so on and so on. Well, let's see who is destroyed! Let's see who fails!

While True Father goes forward measuring the time of the universe according to formal data, all they have is blind faith in order to enter the Kingdom of God. That is miserable. True Father cannot deal directly with such a miserable situation. True Father knows all the secrets of the traditional churches. (147-185)

Those who want to enter the Kingdom of God, please raise your hands! What! Can traditional Christians go to the Kingdom of God? Do you think that because you listened to a Sunday sermon, carrying a Bible, you can enter the Kingdom of God? That is nonsense! The Kingdom of God does not come for such a cheap price. The Bible says, "Love God with your whole mind, life and will! This is the first commandment." Those who do not pass through this commandment cannot enter the Kingdom of God.

What is the second commandment? It is, "Love your neighbor like yourself!" The one who loves God first and loves his neighbor second can be a filial son. Do you understand? (198-259)

Can Christians go to the Kingdom of God just by believing in Jesus? No way! If Jesus himself does not fulfill the ideal of the objective partner, even he cannot go to the Kingdom of God. Can Jesus realize true love alone? Even God could not realize true love by Himself. Therefore, Jesus has to come again. Can he realize true love by coming on the clouds? That's nonsense! With such fake and shameful concepts, Christians are judging that Rev. Moon is a heretic and that they themselves are true. Let's see whether they or Rev. Moon are defeated! Now, the nation that knows the present content will follow Rev. Moon. They will not follow traditional Christianity. Don't you think so? [Yes!] (76-210)

Today's Christians believe they can go to the Kingdom of God just by believing in Jesus. They say that each person goes to the Kingdom of God alone, as an individual. Only a few people say that they want to take their father and mother to the Kingdom of God. In the future, religion should not teach only about individual salvation. If a religion is a true worldwide religion, founded by God, then it must be able to remain universally and finally. The kind of religion all mankind desires is the religion which pursues more than individual salvation. It teaches about the Kingdom of God not only on the individual level, but also on the family and tribal levels. If people humble themselves to that content, then everyone will enter the Kingdom of God together. (41-341)

### ***3. Jesus And Paradise***

People say that by believing in Jesus, one can enter the Kingdom of God, but practically speaking, who can go to the Kingdom of God? According to these people, individuals go there. Until now, there was no religion that taught about salvation of the family. Religions have been teaching only about individual salvation. However, only when the concept of family level salvation emerges can the door of the Kingdom of God be opened. So far, every religion has pursued individual salvation. Thus, the life of celibacy was emphasized to cultivate one's spirituality. The family became a kind of enemy for those going the way of truth. Jesus also said that members of your family are your enemy.

After achieving the pinnacle of the way of truth, a religious person has to hold the authority of the world. Men and women have to attend the blessing ceremony. The Kingdom of God is where sons and daughters get married and receive God's love. That is the Kingdom of God, the place where mankind does not fall and which he originally is to establish.

Did Jesus go to the spiritual world alone or with others? [He went there alone.] Because he went alone, he went to paradise. Paradise is a waiting room to the Kingdom of God. It is not the ideal Kingdom of God. The ideal Kingdom of God is where couples enter together with their family members. Therefore, Jesus has to come again, blessing bridegroom and brides, and taking them to the Kingdom of God. In order to do that, God had Jesus stay in paradise. Therefore, Jesus should come again into the world, making his public inner foundation, and entering the Kingdom of God. In this sense, God's providence is not to be realized without a plan and formula.

In the future, your father and mother will be saved. If a religion can save every family and teach everyone the way of salvation, is it good or not? From that point, the nation can be established. God's nation starts from the family. It cannot be established by the individual. In this sense, Christianity has no nation because Christianity is a religion in which unmarried men and women are gathered. You've seen Catholic priests and nuns, haven't you? In this world there are many Christian countries, but there is no country whose supreme ruler is a priest or member of the clergy.

God's nation and the nations of the world are completely different. Christianity is a spiritual nation. Christianity doesn't have its own country on earth. Because of that, a great number of Christians have been killed so far. If they had had their own country, they would not have been killed. However, because they didn't have their own sovereignty, they became dispersed and were killed as groups. In the future, we should unify all Christianity and find my home, my country, and my world by having the national sovereignty. Christianity should do that. (41-346)

Until now, God has not loved the person who made unity between mind and body. Jesus also has not loved such a person. Therefore, Jesus is still praying in paradise. That is why we should know the love of God, who is trying to embrace our whole mind and body. Only when we become God's children in the realm of God's love can we have dominion over all things. That world is God's restored world, the world of sovereignty, and the garden of rest.

Then, turning our focus to the problem of the individual, what shall we do in this destined restoration? We should seek new thought. The time has come to do that. Sooner or later, the issue of the true way of life and the true view of the universe will be raised as the major problem. (5-49)

Why didn't Jesus go to the Kingdom of God? The Kingdom of God was created by God as His gift, and only living people, who do not fall, can enter it. Only when a person lives according to the original standard can he enter the Kingdom of God. In this sense, Jesus also has to save fallen mankind, and enter there with his children in the position of parents of mankind. However, because Jesus came and went alone, he had no children. That is why he went to paradise, which is like a waiting room to the Kingdom of God. So, Jesus should come again and find his bride.

In the Garden of Eden, Adam and Eve originally were to get married and establish the Kingdom of God. Although the first human ancestors fell, because the Principle remains, which must be fulfilled, Jesus must come again to complete the Principle. Because he went alone, he could not enter the Kingdom of God. That is the same contents as the Bible, which says that Jesus should come again and solve everything on earth. (41-300)

If not for the fall, the Kingdom of God would have been established, where God's only begotten son and daughter got married, made a happy family in God's love, and moved to the Kingdom of God. The Kingdom of God can be entered only by the family unit. Individuals cannot enter. Since Jesus did not make a family, he is waiting in paradise, which is similar to a waiting room. The Kingdom of God cannot be entered by an individual.

In this sense, the Kingdom of God is vacant. Thus, God's providence of restoration has been a sorrowful history. God lost Adam and Eve. This means God lost the whole clan of Adam and Eve. The clan expanded to the people, the nation, and the world. As God lost one man, Adam, God also lost his only begotten son and daughter, God's sons and daughters, God's tribe, God's people, and the Kingdom of God centered on God's kingship. (143-25)

#### ***4. Heaven And The Kingdom Of God***

What is the Kingdom of God? It is where one can take pride in the results of one's life on earth, such as the life of service and the life of attendance. Who can enter the Kingdom of God? It is not the place for those who believe in order to receive a reward. Those who prepare themselves for heartistically attending the Kingdom of God can go there. Even if someone were to die while preparing, if he lived with a heart of attendance, he would go there joyfully. That is the real resurrection. Look at the circumstances of your own life. The inner contents of your life are not visible. How we should live is the important question in our life of attendance. (8-304)

You know that we cannot enter the Kingdom of God without having contents of heart. The Kingdom of God is the nation of original nature, which is to be able to have dominion over the whole. So, those who have some situation cannot enter that nation. Only people who have a deep bond of heart can enter.

Therefore, Christianity is not ultimately the religion for sharing situations but for sharing heart. The purpose of God's providence on earth is to make the foundation to be able to share heart beyond the bond of situation.

What is the fall? The fall is not that people do not share God's situation, but that people do not share God's heart. God, searching for fallen humanity throughout history, has the heart that longs to meet His lost sons and daughters; yet He could not find one person who could share His heart. In this sense, the history of salvation is the history to find one who can share God's heart. You should know that the one who is sent to be such a heartistic person is the messiah.

Before we wish for the Kingdom of God, we have to think of God's heart. Moreover, before thinking of God's heart, we must think about how to conduct our lives. We must have the heart of attendance. The original mind of man longs for a high and valuable being, and respects that. Although humanity is fallen, the original heart of man wants to attend the high and valuable heart of God. Therefore, the person who has not lived the life of attendance centered on heart has nothing to do with the Kingdom of God.

In order to live a life of attendance, preparation for attending is required. After the preparation process, one needs to practice the life of attendance. After the preparation process and living the life of attendance, one can go to the Kingdom of God. The place where people who have attended heartistically go is the Kingdom of God. The place where we can be proud of our preparation for attendance, and where we can be proud of our life of attendance, is the Kingdom of God. You should know this clearly. It is our destiny to go the course that advances the world of this purpose.

From the moment the fallen blood lineage began, up to the present time, there has not been even one day when all mankind attended God with all their heart. Before Adam and Eve fell, they grew according to the principle of creation, but they were not able to attend God centering on the bond of heart. What is God's heart? The one who was supposed to attend God centering on heart fell into the position where he could not attend God.

In other words, God, who should have been lovingly attended, was not attended. This is God's very heart. God's heart is not that there's no one believing in Him, but that there is no one who knows Him. The heart of heaven and earth is that nobody attended God through heart. (8-290)

Today, many religions teach that the Kingdom of God will be established only through their own religion. This is a nonsensical fantasy. Many religions say that the Kingdom of God will be established through their founder's teaching. Let me give an example. Christianity is divided into many denominations. They are exclusive of one another. They usually regard a church outside of their own denomination as heretical or Satanic. If they do this from a position authorized by God, there is no problem. But, if they do it for their own benefit then their motivation is not pure. Accordingly, that kind of denomination will gradually diminish. If today's Unification Church does this, the Unification Church will also have to diminish.

In this sense, the primary issue of religion is not to establish the Kingdom of God. This is not the first purpose. Before the Kingdom of God emerges, a special nation that can inherit the Kingdom of God is needed. God prepared His chosen people to establish such a nation. This idea of a chosen nation proves that God's work to leave a good group was always in the background of history.

When the chosen people emerge from the evil world, God's nation begins to be established. However, in order for God's people to appear, first the children of God's people should appear. Moreover, before a people and a nation are established, the family that can establish God's nation should first emerge. In order to make that family, one man and one woman whom God can guarantee at the risk of His life have to first appear. Then, when such a man and woman appear, has everything been completed? No! Sons and daughters should be born from them.

And then a family that God can guarantee as eternal sons and daughters should emerge. Without that family, a tribe and people cannot be made, and without such a people, a country and the world cannot be made. This is a logical and natural conclusion.

The base that God searches for is the individual. God has been stuck at the level of the individual throughout history. Therefore, the purpose of religion has been the salvation of the individual. However, God's original purpose of salvation was not individual salvation. It was the salvation of the family. In this sense, the foundation for the salvation of the family has to be established before the Kingdom of God on the level of tribe, people, nation, and world can emerge. (47-250)

What is the dividing line between the Kingdom of God and hell? It is not decided by knowledge of the Bible. It is decided through heart and results. In the end, the dividing line between the Kingdom of God and hell is decided by the boundary line of heart and results. (32-231)

## Section 1. Understanding The Kingdom Of God (Part 2)

### 5. Fondness Of The Body For Hell

Adam and Eve were supposed to be God's body. I Corinthians, Chapter 3, says, you don't know that your body is God's temple. The body is similar to a house where God can dwell. However, that house is not like the bodies of today's fallen people. That house is not like the bodies of people who want to be saved simply by believing in Jesus. That house is not like the bodies of people who are just repairing what was broken. Adam and Eve would have grown up as the ideal creative humans, and would have experienced pure, first love in their adolescence. But they failed, and came to be far away from the realm of God's love.

What is hell? It refers to the realm of Satan's love. Satan adores only hatred, jealousy, separation, and destruction. Thus, the realm of Satan is filled with only these things. These characteristics of Satan are expressed in war.

What made God's heart painful? Because Satan came to exist. The fact that Satan's blood lineage was born through love made God's heart painful. The fact that Satan's seed was planted made God's heart resentful. The fact that God saw Satan's family gave God the heart of suffering. The family of God would have lived for billions of years in God's love, but it was destroyed by the appearance of Satan's family. The family centered on Satan spread all over the world. Now the world has about 180 countries. Throughout history, strong tribes absorbed numerous weak tribes and unified them, so the number of countries was reduced to about 180. However, these countries should be united into one according to God's will.

Where did Satan make his base? Satan also knows God. Because God is the owner centering on the original nature of creation, He is on the side of the origin. On the other hand, since Satan [Lucifer] was created through the origin, Satan is on the relative basis.

The original base for humans is the conscience. Whom does the conscience resemble? Because the human conscience resembles God, the human mind is regarded as being on God's side. On the other hand, whom does the human body resemble? Because the body resembles Satan, the body is regarded as being on Satan's side. Do you understand? Why is the mind on God's side? Why is the body on Satan's side? These are not simply casual words of Rev. Moon, given without authority. You should clearly understand this.

How has the conscience been sacrificed? Do you know the situation of the conscience, which has been violated throughout your whole life? The conscience is weary from taking care of you day and night. However, no matter how tired it may be, the conscience prevents the body from behaving in a wrong way. "Haven't you done that enough? You should stop doing it! Shouldn't you listen to my words?" Your conscience says things like that. Therefore, your conscience is the closest thing to you, like your parents, your teachers, and God. The mind itself doesn't need education. Do you understand? However, the body absolutely needs education. Don't you agree?

If you are doing as your body wishes, it is connected to hell. On the other hand, if you do as your mind wants, it is connected to the Kingdom of God. In this sense, the boundary line between the Kingdom of God and hell is yourself. Just as Korea is divided north and south by the 38th parallel, Satan divides and occupies you. By dividing, Satan occupies. Thus, in order to separate from Satan, the left foot should be moved to the south. It is simple. Because of Satan's tactic, every existing being is divided between good and evil. If one were to die without separating good from evil, the 38th parallel of the individual could not be overcome. Then, one could not enter the spiritual world. The 38th parallel of the family and country could not be overcome. Then, how could we go over the 38th parallel of the world and universe? It would be impossible.

You must deplore the fact that your body has become the dance hall of Satan. Your body became Satan's place of love. Your body inherited Satan's blood lineage through his love. Satan's blood has controlled you by the realm of power in order to trample upon your personality. Satan is trying to have dominion over you for millions of years through your blood lineage. Your country cannot remove Satan for you. You have to do it yourself.

What is religion? The historical struggle of religion is fundamentally to defeat the root of sin. However, liberation theologians do not know this. Despite the fact that they are in a position destined for hell, and that they themselves are Satan's ballroom, they are noisily trying to save society for the sake of religion. Crazy people! If Rev. Moon were not here, they would create a big problem. They are like communists.

You should understand the content of what I'm saying. You should hate yourself. You should hate your physical body. "I am a child of the enemy! I myself was born through the love of the enemy's son and daughter. I inherited the blood of Satan, who killed the King and trampled upon the Kingship. I inherited the blood of Satan, who devastated the ideal of love within the heavenly universe!" You should realize that Satan's blood vibrates within your body. You cannot even cut it out with a knife or burn it away with fire. (214-281)

From the viewpoint of the providence of restoration, if you think that the present time is the final will of God then you should ask yourself if you are living every moment seriously. You should not be swept along by environmental conditions regardless of your will. If you failed to live seriously even for one moment, you will be ashamed of yourself before God. Such a moment is a problem. How much do people like you? You should figure out which is more, liking or disliking. "How well do I keep the universal law? How well do I live a life that enables me to be authorized by heaven and earth?" Before your death, when you reflect upon your life, if the percentage of goodness does not exceed 60 percent, you will be sent to hell.

Although your body is limited, your mind should have a history of struggle, in which you were not willing to be limited. You should be able to proclaim, "I am liberated; so, all people should inherit my tradition, before heaven and earth, before history and the present, and before your descendants." If you did not have such a proud moment, you must be sent to hell without mercy. (19-27)

The world is in chaos. How about the spiritual world? Since confused people are living in the spiritual world, the spiritual world also cannot help but be in chaos. For example, a person with a criminal record

of stealing cannot just drop his bad habits. When such a person goes to the spiritual world, he naturally wants to get something without making effort. Since such a person cannot be treated properly in the spiritual world, hell was formed.

God did not make hell. Hell was formed. For example, do people build their house after making a garbage can? [No!] After building the house, while they are living in it, the garbage can comes out. (laughter) Hell is the same. Traditional Christians do not know their root. They are saying, "We are fine even though we don't know our root. Everything will be fine if only we are fine." When such satisfied people go to the spiritual world, where shall they go? They must go to hell. People who do not go through the root have to go down to the bottom. They cannot be welcomed. (148-28)

If you are living a false life, when will you clean it out? Don't you have such a mind? If your left eye loses its sight, you will have to remove it or cure it. Likewise, you should discern good from evil in your life. If there is a God, then God must teach a method for correcting one's mind. That is why religion emerged.

God did not make hell because of jealousy or envy. Since many false people appeared in history, God could not help but make hell as the warehouse to manage them. Do people build their house after first making a trash can? For instance, if you bought cabbage to make kimchi, but while making it discovered the outer leaves eaten by worms, you would dump it into a garbage can. The fall was committed by the human progenitors. Therefore, in order to indemnify that and remove the sin, persons who have the qualification of True Parents should emerge. You must understand this clearly. (20-118)

Who is the highest grandfather in the universe? It is God. Who is the final descendant? In the future, he will unite the world and cosmos into one. Both the first one, God, and the final descendant have to be connected. How can they be connected? That is the family. It is not the country. In entering the Kingdom of God, nobody can have a special privilege. No matter what country you are in, such as America, Korea, or an under-developed country, no special privilege will be given to you. In the Kingdom of God, only the model family is authorized. Centering on the organization of the major family, the model family has to connect the past, the present, and the future. This is the formula to unify the whole world. The warehouse where the fruits of such families are stored is the Kingdom of God. These families are the best and highest.

Because people who lived in this world had no condition for God to save them, they were sent to hell. Even though insects were eating them and worms were attached, God had such people stored in order to feed even pigs. That very place is hell and paradise. Thus, from the viewpoint of the Unification Church, the Kingdom of God is vacant. (135-118)

In the spiritual world, all people are staying in various stages of hell. Why do they stay there? It is because they did not practice filial piety, as filial sons and daughters, centering on the order of love. It is because they did not fulfill their mission, as loyal patriots, centering on the country. It is because, although someone was supposed to be a saint centering on the world, he did not reach that stage.

Humans have to go the right way on earth. What is the right way? There should be the right way on the level of individual, family, tribe, people, nation, world, universe, and even God. Such a singular way should exist. What is that way? It is the original way of love. (147-183)

In the spiritual world, when you cannot correspond to the power of love, a strong reaction comes against you. Nobody tells you to go to hell. Do you understand? Therefore, the Bible says, "Love your enemy!" True love has influence on the enemy. If you overcome the first, second, third, and fourth difficult situation centering on love, the enemy will disappear. Because love has such great power, Jesus also said, "Love your enemy!" Christians today think "enemy" refers to an individual enemy, but there is no enemy before God. Then, who is the enemy? The enemy is the one who violates the law of love, which has infinite value. Who is Satan before God? Satan is an adulterer before God. That is a very tragic and sad fact.

True Father is called a heretic because he disclosed what he recognized in the spiritual world. People say Rev. Moon is the king of heresy who is trying to destroy Christianity. They are wishing that Rev. Moon would die. However, while True Father is still alive, some of them have already died. Why is this so? It is because of the Will of God. True Father still has a lot of things to do. (121-173)

Let's suppose you have a son who committed murder and was sentenced to death. When your son goes to his execution, are you going to say, "It is good for you to die. Sa-yo-na-ra! Good-bye." Are there such parents? Upon seeing your son's death, do you say, "I hate you! I don't want to see you any more. At last we can be separated."

If such tragic deaths were to continue forever, do you think any parent could just watch without doing something? You would try to do everything possible in order to liberate your son, don't you agree? Loving parents will continuously try to save their son, even at the risk of their lives. Are there any parents who will say, "That's enough, let's stop trying." Although it may take eternity to save their son, they will forever try.

In this sense, God is a miserable God. As long as the door to hell is closing, God is anxiously trying to liberate his children. That is to fulfill the responsibility of heavenly Parents. God cannot say, "Let me eliminate everything." Because of His parental heart, God has to liberate even hell.

Keeping in mind such a Heavenly Father, are you going to follow your wife if she says, "Honey! Let our son stay there forever! You are struggling too much. You've done enough! Please turn away from him!" When we consider this situation, how miserable it is!

If your son comes to know your heart, he will repent thousands of times for his wrong behavior. Do you understand what I am saying? If there is such a father and mother, the son will repent to the death. Because of the parents, the way to liberate the son can be made. Will anyone accuse the parents because they tried to liberate and embrace their son when he repented? Therefore, Satan cannot accuse God, who loves mankind and tries to save him. If someone goes to God and unites with him, Satan cannot say, "You can't stand in such a position." Not even Satan can accuse the one who is

standing in the perfect position before God. On the contrary, Satan naturally surrenders before such a person. There is no rule preventing forgiveness for the one who repents through the love of parents.

The Unification Church has to liberate hell through this kind of heart. That is the way of a true filial child, isn't it? Therefore, the Unification Church can say, "We will liberate even hell." Why? Because God has such a heart. Reflecting upon your life, have you been a dutiful child? Do you have the contents of life to become a filial son or daughter? Your answer has to be "no". Everybody is less than a dutiful child. All of you are not dutiful. (62-51)

If your beloved parents and relatives do not believe the Unification Church, they will go to hell. Are you sure about this! They will have to go to hell. If your elder brother, younger brother, mother, father, or relatives do not believe the Unification Church, they will all go to hell. Do you firmly believe that or not? [We believe it!] You don't seem to be that certain. Once someone is drawn into hell, he can never escape. In spite of this, you are not feeling substantially the fact that your family and relatives will go to hell. You are just being optimistic. However, let's think seriously that your beloved parents are really going to hell. If your parents were to go to prison in their lifetime, you would be really anxious to release them through all possible means. How much more desperate it is if your parents and relatives go to eternal hell.

You don't know anything yet. You don't know whether there really is a hell or not. You don't know what the Divine Principle means to you. Do you really know or not? It must be vague to you. You can understand clearly if you die. However, once you die, it is too late.

Nowadays, many spiritual persons, who came to understand about the Unification Church after they died, are leading people to the church. During their lifetimes, they opposed their son or daughter attending the Unification Church, but in the spiritual world, they began to understand about the church. So, they are coming to this world spiritually, and are eager to lead people to the church. If they don't do this, they cannot be resurrected. Do you understand? If you oppose your son attending the Unification Church, you cannot advance in the spiritual world.

Therefore, spiritual persons want to descend to this world. They devote themselves to God and receive special permission, in the name of their good ancestors, to come to this world. They appear before their sons and daughters and testify about the Unification Church. However, without a special condition, spiritual persons cannot come here. When they recognize in the spiritual world what the Unification Church is, how amazed they are! Do you not know this?

The Unification Church is not where you just come and go without any meaning. If you separate yourself from the church, it will be lost forever. When the door is closed, nobody opens the door eternally. When the door is opened, nobody can close it forever. Because what is tied on the earth should be solved on earth, you should solve by your self what you tie. This is a problem. Therefore, when you evangelize, you don't need to go to another place. (34,266)

## ***6. People In Hell Also Long For The Kingdom Of God***

Suppose there is a dying person who says, "The Principle of the Unification Church is certainly good. I can go to the Kingdom of God. Although I did not fulfill True Father's words completely, my mind was really trying to fulfill them. So please regard me as having established the proper indemnity conditions!" Then God will try to put him into the Kingdom of God because God is fair. (laughter)

Where did God try to put him? Because the person tried to go to the Kingdom of God, God put him where he wanted to be. Do you understand? God rewarded him according to his actions. God put him where he tried to go. However, one cannot go everywhere one wishes. Because one receives his reward according to his actions on earth, his destination can be beneath paradise or even in hell. Even people in hell want to go to the Kingdom of God. Such horrible things are happening every second, minute, and hour, but you don't feel it substantially. This is the human situation. (57- 265)

### ***7. The Kingdom Of God On Earth And In Heaven***

In order for the individual to rest, the resting realm of the family has to be established. That is, the fence on the family level has to be made. Isn't that so? In order for the family to rest, the fence on the tribal level has to be made. If there is no fence, the family or tribe will always be invaded. Then, in order for the people to rest, the fence on the national level has to be made. In order for the nation to rest, the fence on the world level has to be established. In this sense, only after establishing the worldwide fence, can the nation rest. In order for the world to rest, the fence of unification between the spiritual world and physical world has to be established. After that, the Kingdom of God on earth can be realized, which God's love can spread all over the world. Through that process, the Kingdom of God on earth is established automatically. Do you follow? [Yes] (68-20)

The place where we want to live is the heavenly nation. Are there any borders in the heavenly nation? [No!] Does the heavenly nation have two languages? [No!] Is there segregation? [No!] What is the heavenly nation? Because all people were born from God's bosom, all are in the same brotherhood. Centering on God, all humans are brothers because they are sons and daughters of God. Centering on the Kingdom of God on earth, all humans are people of the Kingdom of God.

Three elements are needed to establish a country: first is sovereignty, second is people, and third is land. Did this world become the place that God rules over? [No!] Did all the earth become God's country? Did the world become God's nation of people? Though you talk about the Kingdom of God, God's nation cannot be established until the world is united into one. Because world unity is not yet established, and Cain and Abel still remain, the history of struggle continues. Therefore, we cannot rest in this situation. We don't want to live in the process of restoration, but in the Kingdom of God.

We have to establish God's nation. Our living place can be prepared only when God's nation is established. In order to prepare our living place, we must fight, investing our utmost effort. If we do not establish God's nation, our descendants will be pitiful people. We should not be the ancestors who leave such a burden to our descendants. (66-281)

Jesus is dwelling in paradise, isn't he? [Yes!] He cannot enter the Kingdom of God. In order to enter the Kingdom, a person must go the course where he can receive God's love directly. In order to receive

God's love directly, one needs to have the qualification of God's son or daughter, who does not need a savior. Moreover, when such people, who received God's love directly, go to the spiritual world, the ideal Kingdom of God in heaven can be realized.

Such an ideal world was not established by Jesus' blood lineage. Therefore, Jesus has to come again and establish it. Otherwise, you cannot enter the Kingdom of God. Where is the condition made to open the door of the Kingdom of God? It is made on the earth. Therefore, Jesus left on earth the key to the Kingdom of God. So today, centering on the Unification Church and your families, the history of restoration is being developed on earth. Moreover, since Jesus and his 12 disciples did not make their families, in order to indemnify that, 70 tribes and 120 tribes have to be restored. If that is done, the door to the Kingdom of God will be opened. (160-89)

Six thousand years ago, God was waiting to celebrate the wedding banquet of Adam and Eve after they became mature. But the ideal of the True Parents centering on Adam and Eve was destroyed because they became false parents. However, the ideal of the True Parents, which was lost 6000 years ago, could have been restored by the marriage of Jesus and his bride. Isn't that so?

Then, are the sons and daughters of the True Parents true children or false children? [They are true children!] From them, the true family can emerge. The true children of the True Parents will multiply true families and expand to the true tribe, true people, true nation, and true world. That world will create the life of the Kingdom of God on the level of the individual, family, tribe, people, nation, and world. Then this world can become the Kingdom of God. After living the life of the Kingdom of God on earth, when you go to the spiritual world, your life will be connected to the life of the Kingdom of God in heaven. This is the general survey of God's providence.

All people were born from Satan's blood lineage. They are different from God's blood lineage. Therefore, in Romans, Chapter 8, it says, "We call God 'Father' in the name of the adopted son." They can call God "Father" through a bridge like Jesus. Otherwise, they cannot directly call God "Father" because the blood lineage is different.

Only Jesus had the bond of the direct blood lineage of God. Thus he was called the only begotten son. None of you are the only begotten son. Then, who are you? You are the failed sons and failed daughters. You are sons and daughters who would have failed. (160-44)

The Lord of the Second Advent will not establish the new ideal realm within the Kingdom of God, but at the bottom of paradise and hell. At the place connected to the bottom of hell, he will find Cain and Abel, and create the realm of God's new family. This will be expanded to the realm of a new tribe, new people, new country, and new world of God. Through the establishment of this ideal worldwide realm, all people of the world will be restored. That world will unify all people through restoration by indemnity centered on Cain and Abel. God's hope and Will can be realized by replacing the empty spiritual world with the new organized world of unification on earth.

Thus Jesus said that "Whatever you tie on earth, shall be tied in heaven, and whatever you solve on earth, shall be solved in heaven." Is it possible to establish the Kingdom of God in heaven without

establishing the Kingdom of God on earth? [No!] The Kingdom of God in heaven can never be realized without establishing the Kingdom of God on earth. (143-30)

You should not think you are entitled to go to the Kingdom of God in heaven. Instead, you have to first establish the Kingdom of God on earth. But before that, you yourself must be a member of the Kingdom of God on earth. In order to become such a person, you have to make unity of heart to the degree that you can say confidently, "Father's mind is mine and my mind is Father's mind." Accordingly, you should be the person representing God's mind and True Father's mind as well as the mind of the ancestors. If you are doing so, all historical problems can be solved on earth. (3-295)

### ***8. The Right Viewpoint For The Kingdom Of God***

How much are you united with God at the most serious position in front of God's enormous Will and historical hope? Do you have absolute faith centering on God's Will?

No matter how strong a storm and wind may come, even if you are destroyed and dying, you should have absolute faith, saying, "This faith is absolute. Even though I was wrong, only this Will is absolutely right." If your faith is different from morning to evening, and if you lose the Kingdom of God, how foolish you are!

If there is a way to go to the Kingdom of God, what is it? The way to the Kingdom of God does not appear at the self-centered place. If you feel that you are far away from that nation, you have to deny yourself completely. Only when you deny yourself can the desire to enter the Kingdom of God remain. However, if without denying yourself, you try to make the environment applied to yourself, you cannot make a relationship with the Kingdom of God.

It is obvious that the Kingdom of God starts from yourself. Even if the physical Kingdom of God is established, if you don't become a person who fits into that nation, you will have nothing to do with it.

What is the Kingdom of God? It is the place to go after overcoming Satan. It is not the place you go to just by overcoming yourself today. The Kingdom of God cannot be within our present social environment, the realm of the fallen world, nor the habitual environmental realm. Because Satan has occupied and dwelled in this habitual environment, you can see the Kingdom of God only after overcoming this realm of Satan's. The Kingdom of God will be established at the place opposite to Satan's world. Is that correct? If it's not correct, it could not really be the Kingdom of God. Although that world may have the name Kingdom of God, it would be nothing but a deception to the environment.

Therefore, the Kingdom of God can be established from the position of subjugating Satan, denying everything related to Satan, and removing it. The Kingdom of God comes close to you when you remove the negative historic relic of Satan, and when you deny all the contents of Satan's lifestyle. Without removing these satanic contents, the contents of the Kingdom of God cannot be provided to you.

The Kingdom of God is such a valuable thing. Although the Kingdom of God is described as the absolute standard, people today seem confused about it. Most people are expecting the Kingdom from an extremely self-centered position. Only when you overcome your circumstances with absolute faith can

the Kingdom of God emerge. However, that cannot be the origin of God's Kingdom. Based on the individual's foundation of subjugating Satan, the Kingdom of God can be realized. Therefore, the Kingdom of God is not established simply by obediently following God's will. It cannot be realized only with faith. Since Satan always tries to destroy us, that nation can be fulfilled only by us getting victory in the battle. However, in the battle against Satan, sovereignty is necessary. There should be people of the nation. If the level is country, a large number of families in the country have to make the whole organization for the sake of one purpose. Then, people of that nation should be able to harmonize with their leader, centering on God. without any conflict.

One may be able to feel, in one's mind, the Kingdom of God at the place where one is ready for death, but that is not the actual, substantial Kingdom of God. Although a great amount of martyrdom and suffering has taken place throughout the past 2000 years, the Kingdom of God is not yet realized on earth. In this sense, the Kingdom of God is not to be established in such an easy way.

When we consider the phrase "The Kingdom of God starts from myself," if the word "myself" were omitted, it would create a serious situation. The Bible says, "Love the Lord your God with all your mind, will and heart." However, the word "Lord" does not have a simple meaning. The fundamental meaning of the word "Lord" can be recognized substantially only at the place that has absolute contents, which cannot be forgotten eternally. The Kingdom of God does not come by believing in the Lord God, but by loving Him. God's Will is fulfilled not by believing in God, but by loving Him.

In this sense, you should recognize how immature your faith is and how far away it is from the Principle. Even though some of you are attending this meeting for the first time, someone will receive consolation and feel joy centered on himself. However, though the Kingdom of God may exist in your own mind and God feels joy from you, it does not mean that the Kingdom of God has been established on earth. It may be an individual Kingdom of God, but it's not the whole Kingdom of God. From this viewpoint, what God desires is not the individual Kingdom of God. God does not feel joy seeing that. Can we say that because a man feels joy, the nation is established? God tried to fulfill the whole Kingdom of God by unifying all the nations horizontally. Consequently, God sent the Messiah, Jesus, to this world and could not but have him sacrificed. (46-74)

## **Earthly Life and Spirit World (Part 2)**

**by Rev. Sun Myung Moon**

### **Section 2. Preparation For Going To The Kingdom Of God**

#### ***1. The Base Of The Kingdom Of God***

In this world, nobody can pull out God's life and love. The closer we are to the truth, the more we are absorbed into it. That truth will become the center, which nobody can take by force. Even if the earth falls into chaos millions of times and the universe is suddenly destroyed, if you have the truth as your

mind's center, you will never be changed or shaken.

However, if you are not prepared to receive the truth, no matter how correct the truth may appear you will not recognize it. No matter if true life appears, you will not know it. No matter if true love appears, you will not know it. From this viewpoint, if today's Christians are looking for real truth, true life, and true love, they should deny themselves and establish a new center in their mind.

When new continents were being discovered, it seemed the earth was expanding, but now the earth seems to be getting smaller and smaller. In other words, when civilization was not developed, the world seemed huge, but as history and civilization developed, the world seemed to become gradually smaller. In this sense, the ideal world will be the universal time when everything is directly related to everyone. Therefore, it is necessary that the love and life of the heavenly nation be completed in one's mind and within oneself.

Because truth, life, and love are like one family, love and life should necessarily follow truth. Life and truth should necessarily follow love. In the same way, love and truth should necessarily follow life.

Why are truth, love, and life always connected to one another? As you know, in order for one being to exist, there should be above and below, front and back, and right and left, centering on that being. No existing being can escape from the realm of the number three. This is the basic structure of any existing being. These three elements make the unified form. But if the force proceeds in the reverse way, a different action of the force occurs. Accordingly, God is the origin of love, life, and truth, but after the fall, when those three did not make a balance, God could not work providentially. (2-133)

---

The disciples of Jesus thought that when Jesus became King of Israel, having dominion over the Roman Empire, they would also receive high positions. However, that is not the essential problem. First of all, one has to make the heavenly nation within one's mind and make unity between one's physical body and God, centering on one's mind. This is the greatest problem. The Kingdom of God starts from oneself.

Therefore, the base of the heavenly nation is one's mind. Do you want the world to become good without you! You probably want the world to become good together with you. Do you want to join the place of death? You probably don't want that. Even people at the age of 70 or 80 may not want to join the place of death. Here, you grandmother! Do you want to join the place of death or not? Although, because of old age, they don't have long to live, they still probably don't like the place of death. Why is this so? When people are getting old, they may become miserable and therefore say that they want to die. However, most people tend to say that they, with their wrinkled face, would like to see such and such things before their death. What does this mean? It means they don't want to die. This is a problem because they may be thinking everything is meaningless without themselves in the world. (47-273)

---

Where is the base of the Kingdom of God? A great number of Christians believe that they can go to that heavenly nation by believing in Jesus. Then, where is the base of the Kingdom of God? When Peter asked, "Where is the Kingdom of God?" Jesus answered that it is not in heaven but in your mind. Then, what is the base of your mind? Can a sad mind be the base of your mind? Can a proud mind be the base of the Kingdom of God? Can a mind that denies society be the base of your mind? These are not the foundations we are expecting and not the foundations that God can approve.

In this situation, the person seeking the base of the Kingdom of God cannot help being more solitary than anyone else. Why is this so? Because God is solitary, the person has to be solitary. Because God has taken the history of conquest, that person has to also go that way.

Then, if humankind always repents, feeling sad and shedding tears because heaven and earth are filled with sadness, can that be the base of the Kingdom of God? That alone cannot be the base of God's Kingdom. Even when you serve the church, expecting the time of new joy, you have to determine to resolve the problem of evil in this world.

Without such an attitude and determination, the base of the heavenly nation cannot be made. This is an obvious fact.

Where is the base of the Kingdom of God? Some people confidently assert that because they have a certain social position, the Kingdom of God starts from them. If good and evil start together, their opinion might be right. However, good and evil cannot start together. When evil goes east, good has to go west. When evil stops, good has to move. Moreover, when evil has desire, good must have no desire. Good and evil are opposite.

In this sense, when God comes to this world, who would be the most desirable one to make a bond with God? The heavenly nation starts from the place where God abandoned all hope for mankind. Therefore, people who are satisfied with their present lives cannot be true religious persons.

When you are confronted by the sorrowful fate of life and death, and when you sink into despair and distress, losing the meaning of your existence, you should not be excessively attached to your past. On the contrary, you should seek new value at the place of self-denial. In this process, the base of true goodness can start.

From this point, is there anybody who can confidently say that his personality is the base of the heavenly nation? [Nobody] Nobody can insist that his family is the base of that nation. No tribe can insist that God must recognize that tribe because of the historical good achievements of its ancestors. The people, nation, and some thoughts or theories are the same. This is a tragedy.

Therefore, while the one who wants to die will live, the one who wants to live will die. What does that mean? The one who wants to live for one thousand years can realize such a dream only when he makes effort to detach himself from the evil world for one thousand years. The one who wants to live for ten thousand years can find the base of his wish only when he gratefully sacrifices himself for ten thousand years.

Likewise, the one seeking eternal life, happiness, and the Kingdom of God must overcome the present difficulties centering on the eternal, and must be able to endure sacrifice. Only when one takes such an attitude can the eternal base emerge. (47-247)

## ***2. The Standard To Go To The Kingdom Of God***

What is the standard to go to the Kingdom of God? It is to love God more than one's own child. Without loving God more, one cannot leave the realm of Satan. Therefore, if one does not love God more than one's wife or husband, one cannot enter the Kingdom of God. Fallen people are in the situation to leave the realm of Satan and stay in the edge of the realm. In other words, they have not left Satan's realm completely. Therefore, one should not love one's father and mother more than God. (41-299)

r the Kingdom of God? First of all, it should be the one who is in accord with God's mind. How much does one agree with God's mind? If God works towards the eternal purpose, one should harmonize with God's mind centering on eternity. Is that right or not? If the accordance lasts only for about ten years, real accordance cannot be made. The accordance with God has to last eternally. How can it be eternal? One should be the child who can agree with God's mind and love God eternally. In order to be such a child, one should not become an object of sadness. The Kingdom of God is to be in eternity.

Then, one should be in accord with God's body. The body has a direction. It manifests some direction. While the mind represents the central point of every direction, the body manifests a direction. In order to be God's child, when God's body goes east, one must go east with God. If God likes a warm thing, but Jesus likes a cold one, is that the right attitude? When God wants to laugh and talk, if Jesus wants to sleep, is that right? Everything that is manifested through the body should be in accordance with God's mind. That is not enough. When God wants to be amiable, one should not be hot-tempered. When God is amiable, one should also be amiable. The internal and external should be matched. If they are matched, then mind and body will always go together. If God exists, one should do what God likes. If Jesus is God's son, Jesus also has to do what God likes. (47-257)

Although you may want to enter the Kingdom of God, you can never go there without sacrificing your life. If you have been to the Kingdom of God, you will know that nobody is there who did not sacrifice their lives. The essence of the life of faith is manifested so. (37-250)

## ***3. The Starting Point Of The Kingdom Of God***

Where does the Kingdom of God start? Without liberating God's sorrow, mankind cannot enter God's Kingdom. Since mankind has made a history of sorrow since the fall, all the bonds of that sorrowful history should be found in order to be restored. All the bonds of the six-thousand-year history since Adam and Eve have to be found. It is the Principle of the Unification Church that teaches about such a God of sorrow.

People in the secular world are trying to escape from the world of sorrow. While the secular world tries to escape sorrow, the Principle has a fundamental motivation to undergo the world of sorrow.

The original human is different from people in the secular world. The more one knows God's sorrow, the more one gains strength in the Unification Church. Once you know the tragic situation of God, that becomes the source of explosive power to resolve it. This is the great strength of the Unification Church.

#### ***4. The Essence Of The Kingdom Of God***

What kind of world is the Kingdom of God? Because the Kingdom of God is the original world, the individual, family, and tribe cannot go there because of Satan's accusations. Therefore, members of the Unification Church have to unite their family, relatives, and tribe into one, centering on God. In other words, three generations should become one. In Adam's family, Adam was the first generation, Cain and Abel were the second generation, and the children of Cain and Abel were the third generation. These three generations were supposed to unite. Centering on God, God was the first generation, Adam and Eve were the second generation, and Cain and Abel were the third generation. (21-54)

Because the Kingdom of God is the world where people live for the sake of others, it will never perish only if it keeps the principle of living unselfishly. In other words, if people only wish to be treated well, the Kingdom of God would perish. Don't you agree?

The Kingdom of God is the world filled with love. The essence of love is to live for the sake of others. Thus it is different from the love of the secular world. Therefore, religion teaches to live for the sake of others, that is, to be obedient, to serve, and to sacrifice. The secular world has no such teachings. These elements are somehow practiced by groups like beggars, who know nothing. However, that was God's secret strategy to have Satan's side receive good fortune, even though they were not aware of the higher purpose -- heavenly law. How wonderful yet miserable God is to have developed such a strategy for thousands of years! (46-42)

#### ***5. The Meaning Of The Kingdom Of God***

Did you find your original homeland? [No, we didn't.] Since you lost the original homeland, you lost the original home country. The home country is the Kingdom of God on earth. Earth is to become the actual home country. What is the home country? The home country is to be the Kingdom of God on earth as well as the Kingdom of God in heaven.

Three major elements are required to establish a country: sovereignty, land, and people. In this world, is there a sovereignty over which God can have dominion? [No!] Did mankind allow itself to be governed by God? [No!] Therefore, we don't have our country. This world is not where the original human can live.

Thus, the desire of mankind is to console God and establish God's country, but that has been continuing endlessly. Also, your conscience pushes you to make a better world. Although you might have done good works for a stranger once, that cannot satisfy goodness. Your conscience pushes you again and again. Even though you did good works thousands of times a day, your conscience will

continuously push you. Doesn't it do so? [Yes, it does!] Such a conscience may seem like a fool. The conscience pushes us because the mind wants individual goodness to accumulate rapidly and expand to goodness on the world level.

Therefore, goodness does not stay down. It pushes you forcibly. "You have to give goodness to three billion people thousands of times a day, and you have to give it again." It will speak like this. If there are no more people to give to, you have to give goodness to the mountains, the sea, and heaven and earth. The mind is trying to give goodness like that. Why? Because what the mind has desired throughout mankind's long history has not been fulfilled yet. (155-26)

### **Section 3. The Qualifications And Conditions For Entering The Kingdom Of God (Part 1)**

#### ***1. The Qualifications For Entering Tim Kingdom Of God***

##### **1) Necessity of Suffering**

What remains forever is the suffering of a public life. If, when you go to the spiritual world after undergoing the suffering of a public life on earth, you cannot enter the Kingdom of God, you can complain to True Father. Those who receive persecution for the sake of the nation, the world, and the cosmos are wise men. (19-30)

What kind of tradition are you going to leave in this country? We are within the realm our enemy was occupying, because the man who took responsibility for the country got captured by the enemy. However, that man should not be given preferential treatment. If he is treated well, unity cannot be made. Do you understand what True Father is saying? The more miserable the responsible person's death, the more closely united the relationship between that man and us becomes. Don't you think so? Conversely, the more the enemy country loves the responsible person, the more our unity with him becomes vague. Even in killing him, he has to be killed in the most miserable way, by amputating his arms and legs, and by extracting his eyes. If that is done, the group that is bonded to him comes to be completely united. Don't you think so? That is the only method.

What can create unity between the spiritual world and us? That is for us to encounter difficulties. The harder a time you have, the more the spiritual world unites with you. Despite the fact that the Unification Church and the spiritual world are in a relationship of father and son, and a brotherhood relation, if we endure a lot of suffering, the spiritual world will completely unite with us.

Therefore, we are mobilized directly and are battling with Satan. If we do not encounter difficulties, the spiritual world will not work actively. In this sense, God unfolds His strategy through Satan. God lets us have an extremely hard time. Sometimes He lets us be killed. Death itself is a tragedy, but it can create the reaction of unity. Isn't that what happens? (49-108)

What kind of example should we leave on earth? Filial son? Loyal subject? Even though you become a filial son or loyal subject, or if you leave your name in the history of your country, that does not give you real meaning. This is because a filial son and loyal subject in the fallen world do not have the original heavenly standard. Accordingly, in order to reach the original heavenly standard, one has to

be the most filial son among filial sons, the most loyal subject among loyal subjects, and the most exemplary woman among exemplary women. When is that time? Now is the time.

Therefore, those who want to enter the Kingdom of God should live miserably and die miserably. Are these good words or bad words? [Good words!] Then, are the words: "Go out and desperately lead people to the church!" good or bad words? [Good ones!] Then, why don't you go out and work hard? You should die for the sake of others. If you die for the sake of others, the world, and the universe, you will be treated as the subject of the great universe.

The most valuable things are the creation, humans, and God. Those who sacrificed, risking their lives to embrace the world from the position of goodness, are essentially sacrificing for the sake of those three things. Therefore, God has to compensate them with something more valuable than those three things. Because Jesus had such a viewpoint, he proclaimed, "Members of your family are your enemy," and "He who seeks to die shall live, while he who seeks to live shall die." Otherwise, people cannot go to the Kingdom of God. Thus, Jesus' proclamation was the most wonderful news. Do you understand? It was the most magnificent, valuable, and absolute gospel.

Thus, the Unification Church does not teach that one should live a rich and comfortable life. Even though you may live a miserable and poor life, and die in a tragic situation, your sacrificial life will be resurrected at the time of blossom. Every holy person will gather together and adore you before your holy life. What kind of life do you want to create? True Father is going to let the members of the Unification Church have an extremely hard time, and make you filial children and loyal subjects. Do you feel good or not? [Good!] How shall True Father treat people who are not willing to go such a way? In the relation between father and child, brother and brother, teacher and disciple, one should say firmly, "Father, please cut off my bone! Elder brother, please cut off my bone! Teacher, please cut off my bone!" It is true love to make some one overcome his present difficulties by kicking him with your foot.

Therefore, the first commandment is: "Love the Lord your God with all your heart, with all your soul, and with all your mind!" Then, "You shall love your neighbor as yourself!" Who is your neighbor? The people of the world are your neighbors and brothers. You have to invest your mind, will, and life for the sake of the people of the world. If you stake your life, that is your best. Because Rev. Moon made such a resolution, Rev. Moon passed the age of 50, but he still has a long way to go. Rev. Moon never hesitates to go that way.

In order to realize the hope of tomorrow and become a manager of the world, Rev. Moon goes that way of death, devoting himself and shedding tears with his whole will and effort. Thus, True Father has to find one standard from which everything can be united. This is the major thought of the Unification Church. This is the way of adventure. We are now undergoing the path of a bloody fight.

What do you think of this way? Is it good or not? The foundation that was established at the price of one's life will be a model for mankind, and will be the foundation for the happiness of the world's people. All people will regard that base as the starting point of harmony, and will make the world united. The one who feels responsible for the history of the universe at such a place of hope, is never

a small-minded man. Don't you agree? You should understand this well. (49-303)

He who begins the way of truth must go the way of death until he dies. In order to pay the indemnity, which would normally have to be paid after death, one has to go that way during his lifetime. This is to reduce the period of indemnity, which would have to be paid for billions of years after death, by suffering on earth. Accordingly, the way of truth is to indemnify on earth the suffering course that would have had to be paid eternally. (31-320)

God gives blessing to people who endure difficulties for the sake of God's Will. Where do you receive the blessing? In the spiritual world. You come to receive the highest blessing in the spiritual world. The blessing is found in prison. Therefore, the day to enter prison is the day of hope. The day your hands are handcuffed is also a day of hope.

When True Father went to prison with a grateful mind, everything was prepared to welcome him. Everybody was waiting to receive True Father's teachings. If I felt hungry, someone brought food. That cannot be compared to Elijah's miracle, who received food from ravens. I let communists bring food through the spiritual world. (103-207)

## 2) The Necessity of Love

What will you ride to get to the Kingdom of God? You cannot go there by jet. You can go there by riding the track of love. When True Father says this, do you feel it substantially? [Yes!] The line of love does not become thin when it is pulled, like an elastic band. On the contrary, the more the line of love is pulled, the thicker it becomes. That gives two kinds of benefits in one action.

In this sense, to encounter the most difficulties for the sake of God's will is a secret method to occupy the world. Do you understand? [King of suffering!] The king of suffering. When True Father uses this kind of world, you may actually feel that. What will the king of suffering become in the spiritual world? He will be the one who can take God's glory alone. Religious people today say, "Let's go to the Kingdom of God!" But can people go there with no qualifications? People should meet that nation first on earth. In order to meet that nation, one has to go through the law of love. You should pray that all of you go through the law of love.

When you come to have many children, you should feel the additional cross to love the Kingdom of God more. The reason many children are sent to your family is because your family has to carry many crosses. Your family has many responsibilities for the sake of that nation. Upon knowing this, you should fulfill your responsibility completely. Such a family can have a great descendant who can inherit heavenly fortune. (32-232)

How can you go to the Kingdom of God? You have to be crazy for God's love. You have to love God more than Adam and Eve did, more than Peter, James and John did. You must love Jesus more than Peter, James and John did. Without that, the relative realm of true love cannot be restored, from which God can love you. Only when that is restored will everything be fulfilled.

You should not worry about money. You should not worry about children even if you don't have any.

You should go that way continuously. When you go continuously, you may feel that you are diminishing, but rather you are going higher and higher. The Unification Church becomes bigger and bigger by being persecuted. Don't you think so? In a family of ten, the one who is opposed by the others, and continuously endures for the sake of the common purpose, can become the lord of that family. That person can be the Lord of the heavenly nation. (142-289)

You must be able to embrace children of all five races, and embrace their grandchildren. So, you must be able to love people of the world with God's true love, and you must be the lord of the family as true parents. Only when you become true parents centered on God's true love, and represent the family standard of true love, can you enter the Kingdom of God.

In order to enter the Kingdom of God, one has to be united with the true God and the true love of True Parents. Those who have lived in the relationship of God's blood lineage can go to the Kingdom of God, but until now, nobody has lived such a life. Therefore, the Kingdom of God is vacant. (176-210)

The way to the Kingdom of God is opened by loving your brothers like God. You are trying to follow True Father. With such a mind, let your brothers follow True Father. From this viewpoint, the one who teaches the highest, quickest and best way to go to the Kingdom of God is neither God nor True Father, but your brother. (66-125)

Then, to what kind of Kingdom of God are you going? Are you going to the world Kingdom or the individual Kingdom? [The world Kingdom!] Because True Father is very greedy, in order to hold the line of love to be able to enter the world Kingdom of God, he has been going this way, enduring persecution for 40 years by going beyond the individual, the line of family, tribe, people, nation and world.

Where do we go after that? We have to go find the nation. Because we found the world level line of love and there is no bigger place, we have to go back to our hometown. Because we received the blessing, we have to help poor people in our hometown. Because we found the line of love of the world, where do we go? We came in order to save the country. (143-141)

### 3) We Must Have Results

Only the ideal of the establishment of the Kingdom of God on earth and in heaven has been close to us, and only the way of happiness to secure glory and prosperity remains before us. Until now, the way to advance happiness and the ideal was blocked by various walls. Servant and servant, subject and object were blocked. Numerous walls were blocking the spiritual as well as the physical world, but True Father opened them all. True Father made the foundation so that the spiritual world can freely settle on earth.

In the past, a person who prayed and devoted himself could meet the deceased founder of a religion only for a short time, and then had to separate, because the religious leader had to return to the spirit world. However, now is the time when all spirit persons can descend to earth, centering on the realm

of religion. Thus, if you are not able to substantially move the past, present, and future, you cannot enter the Kingdom of God. You should know this.

The time of the past was the period of angels and good spirit persons who had gone to the spiritual world. The present time is the period of parents. And the future will be the period of God. Therefore, those who are not able to mobilize the spiritual world, parents, and God, cannot enter the Kingdom of God. This is the same situation as when the angels and God helped Adam and Eve. Afterwards, Adam and Eve were supposed to move the universe. Only those people who can move these three worlds centering on God can enter the Kingdom of God, which is the original world. (161-199)

What must you do in order to enter that nation? What is the condition to enter that nation? You have to love God more than your own children. You have to love the Lord more than your own husband or wife. You have to love the Holy Spirit more than your own body. That is the unity of trinity. (?-100)

Then, who can live in the heavenly nation? Sons and daughters who bring joy to God can live there. However, after the fall, multitudes of fallen people lived throughout human history. Out of these fallen people, do you think people who gave joy to God were born or not! [They were not born.] (43-23)

You might hope to go to the Kingdom of God by believing in the Unification Church, but if you did not bring results on earth, even if you were allowed into that nation, you would feel ashamed of yourself. We are not the group that wants to go to the Kingdom of God just by having faith, like traditional Christians. We are the group which tries to establish the Kingdom of God with all our heart and effort. We cannot forgive the people who try to oppose and prevent that.

In order to go this way, you have to invest all your mind and body as well as all your belongings. And you must take responsibility not only for the fate of the country, but for the destiny of Asia. You should understand that now is such a time. (22-226)

#### 4) Living for the Sake of Others

If you are fifty years old and you lived for the sake of the universe and heavenly law for over 25 years, you can go to the Kingdom of God. You can go beyond the boundary line to be able to stay in a better realm of the spiritual world. But people who live their whole life centered on themselves go to the original homeland of evil -- hell -- regardless of their feelings. This has to be true. You have to recognize your situation and reflect on your past. You should make effort to live for the sake of the whole, the country, the world, heaven and earth, and God, during the rest of your lifetime. If you do so, it follows that you will march forward to the ideal world in heaven. (78-119)

You may not know much about the spiritual world, but True Father is an expert. I have experienced the spiritual world more than anyone else has. The spiritual world is my special major field. What is the origin of the spiritual world? The world which is composed of the principle-living for the sake of others- must be the Kingdom of God that mankind is expecting. That is our original homeland.

We are destined to go there regardless of our will. That is our way of life. We are going the way of a

traveler. What can be a problem in your life? Whether you are living more for the sake of others or for yourself. If you lived more for the sake of others, you will go to the Kingdom of God. If the opposite is true, you will go to hell. You may be unable to believe this fundamental formula now, in your present situation, but when you die you will come to understand.

God has worked providentially to save mankind through religion. Therefore, the higher the dimension of a religion, the more that religion teaches higher contents which are in accord with the principle of the original homeland. Therefore, many high religions could not help but teach the idea of sacrifice and service.

Because God has been working providentially behind religion to match the world to the original world, we cannot deny that God is working within human history. Accordingly, a religion that is living for the sake of others will develop, while a religion which tries to take the subjective position, centered on itself, will decline. (74-51)

What is the Kingdom of God? You should know with certainty what the Kingdom of God is. It is the world of love. It is the world of living for the sake of the center, God. (98-35)

## ***2. The Standard To Be Able To Enter The Kingdom Of God***

### **1) Our Position**

God is our Parent; then why did He create us? God's creation of humankind started from the place participating in love. Humans started from God's mind, growing up in God's bosom of love, becoming mature in God's bosom, and making the family which can connect with the love of the world. Through that, they come to return to God's bosom of love as mature persons. This is the way to live. Due to the fall, this was fundamentally destroyed. The relationship between God and humankind was completely severed. No matter how people try to return to God, they cannot. Furthermore, God is also the same. Such a big gap was made. The wall and boundary line were made.

What kind of wall is it? That wall prevents humans from going to their Parent, God. What is that wall? This is the problem. That wall, which even God could not handle, must be raised as the most important problem for religious people.

That wall divided the individual's mind and body. That wall, with various historical contents, also came between husband and wife. That wall was made in the family, tribe, people, nation, world, and all of the spiritual world and physical world. That wall was made between heaven and hell. Although God dwells in the glorious place called heaven, without removing that wall, humans on earth can never go over the summit of the wall, the surrounded boundary line.

This is the tragedy of human life on earth. How can we overcome this tragedy? Despite the fact that humans are meant to live attending God as their Parent and be led by Him, they don't even know if God exists. Humans came to radically insist that God does not exist. Furthermore, they proclaimed that God is dead. You are living in this kind of tragic environment that is demanding, "Let's remove God from human society!" Who made such a world -- God or humans? That is the problem. This is not

what humans want. Then, who made it? Who raised this environment? (135-267) )

## 2) When You Cannot Enter the Kingdom of God

True Father himself is worried about the Unification Church. What should be our motivation: God's Will or our own will? The self should not become the motivation. However, in many cases, the motivation is derived from the self instead of from God's Will.

While God's Will asks us to go the way of suffering, the self tries to betray it. They are opposite positions. While God's Will asks us to go right, the self tries to go left. You try to excuse yourself by saying, "I had a harder time than anyone else since joining the Unification Church."

The one who makes excuses for himself cannot enter the Kingdom of God. The position of absolute faith is not a place to excuse oneself. There is nothing to say. The Kingdom of God is where one cannot be proud of one's achievements. What you call a hundred percent might be just one percent from God's viewpoint. What you think is a hundred may be just one from God's viewpoint. Therefore, the one who is centered on himself cannot enter the Kingdom of God.

From where does the Kingdom of God start? It starts from absolute faith. Absolute faith means to not insist on one's opinion. It is the place to deny oneself absolutely. Without denying oneself absolutely, absolute faith cannot emerge. If you follow the secular environment, and at the same time, try to pursue the life of faith then the life of absolute faith cannot emerge.

Most people live their routine daily lives saying, "I am fine in God's eyes." However, regarding the fundamental problem, living a routine life in this fallen world cannot bring us to the Kingdom of God. Such a person cannot be fine before God. Without having a certain objective standard authorizing oneself, one cannot have the absolute standard of faith. Because there is no absolute standard of faith, the Kingdom of God, which would be established after surmounting absolute faith, cannot emerge. Why is this so? Because Satan stays in that place. (46-79)

Historically, those called by God were usually over the age of fifty or sixty. Most of them were getting old, and were close to their own funeral day. God was working with these old people in the past, but he knew that in the future He would work with the young generation. So, in the background of His providence, God was concerned about how to develop the providential history with that young generation. God has walked the providential way of history having such contents.

Old age passes over the prime of life, the prime of life over youth, youth over childhood, and childhood over infancy. Through that course, you should be born again, or you will not be able to enter the Kingdom of God. You should be pure and innocent like a child. That's why Jesus said to Nicodemus, "You must be born again." If you are not born again, you cannot enter the Kingdom of God. Therefore, God developed the history of salvation from the mother's womb as the highest history of salvation. How tragic it is! (20-95)

## 3) Our Life to Enter the Kingdom of God

If two-thirds of your life of seventy or eighty years is sorrowful, how shall you handle that period? You should make that period a joyful life centering on God. You should make your life the Kingdom of God. The Kingdom of God is where one gives, and gives again. God also has to give. Parents have to give to their children. The parental mind is to want to give, and give again when you have something better to give. (34-141)

You are now fighting. You are shooting a gun centering on you whole life. Before meeting the world, your mind and body are fighting each other. How can you make peace? Which side will win -- mind or body? How about you? Which side will be victorious, your mind or your body? You should be a person who can say, "My mind definitely wins over my body." The one whose mind wins over his body is on the good side, while the one whose body defeats his mind is on the evil side.

Then, what is the secret method for the mind to defeat the body in this struggle? Or conversely, what is the method by which the body defeats the mind? This is the problem. What can solve this struggle? This is important. What is the essential element to establish goodness for people living in this evil world? What is the essential element to establish evil? By knowing this, let's add or remove some elements. This essential element is very simple. (36-61)

If there is a great man and a great woman in history, can the man say that he wants to receive God's blessing alone? Can a woman say that she wants to receive God's blessing alone? [No!] You have to think of God's Will as absolute and go through all the conditions that are raised as the hope of mankind. By doing this, you can be qualified to receive God's blessing. In the Kingdom of God on earth in the future, the way must be found for husband and wife to be welcomed and respected worldwide. This is the way of life in the Kingdom of God on earth. Can you do that? (162-69)

You alone cannot go the way of goodness. The world should be occupied by good or evil. When good occupies the world, it is the way of life, but when evil occupies the world, it is the way of destruction. This world is running the way of life and death.

The individual is the result of history. The family, nation, and world are the results of history. However, out of these results, how many are good results? In the individual, how many good results do you have? What percentage of good results do you have in your living environment? What percentage do results of goodness have in your personality? That is the problem.

Looking at our surroundings, we see that the whole environment is surrounded by evil elements. The way of evil does not need to be taught. Everybody can go that way without education, because history started from an evil base. Do we need to be taught how to be bad? Because humans fell by themselves, human society educates people to act according to their conscience centering on human morality. What is the center of education? Although people are educated according to goodness and conscience, how many are able to fit that education? Evil things can be done without education; everybody can get 100 points.

In this environment, our conscience is always telling us to be a good person. Although your mind always stimulates you to be good, did you actually become a good person? If we think about this

problem, our whole life is continual lamentation. Today is lamentation, tomorrow is lamentation, this year is lamentation. Youth is lamentation, the time of middle age is also lamentation, old age is lamentation, and one dies with lamentation. In other words, one's whole life may be filled with evil.

This is the present reality. Because humans were born from an evil base, they are struggling in evil and go toward evil. This has been the way throughout all human history. When we consider today's religion, what about the Unification Church? Does it teach people to be evil? If so, then the Unification Church is not needed. Evil does not need to be taught. (36-56)

#### 4) Ourselves and the Kingdom of God

Before his death, Jesus said, "Father! If it is possible, please let this cup pass from me. But please do not do as I wish, but as the Father wishes." Before his death, he did not protest to God, but offered himself for the sake of God's Will. Jesus' attitude brought him to the closest position to God forever. Before such a person, even God cannot do as He wishes. The one who opposes such a person will be destroyed. God treats such a person directly. Therefore, what the right hand is doing should not be known by the left hand.

If you lend money to someone and remember it with added interest, you cannot be an owner of the Kingdom of God. One has to forget about the money he lent. When parents raise children, do they remember how much money they used for the children? The parents' mind is to give and forget. Moreover, after giving and forgetting, they are also anxious to give something better. Because the love of parents is eternal, the person who has no parents is called an orphan, and nobody wants to be an orphan. (36-85)

Do you know about the spiritual world? The Kingdom of God is where people go who live for the sake of others. The one who lives centered on himself can never go there; he will go to hell. No matter how great a priest he is, where will he go after death?

Our Unification Church tries to save our enemy and even communists. Communists try to cut off the heads of the Unification Church members. That is the difference. So, what kind of thought should have dominion over the world? [God!] You must be stronger than the communists. Do you understand? You should not be evil like communists. If we become strong, centered on love, living for the sake of others, it will be enough to save the world.

Are you the people who live in the Kingdom of God, or are you the people who are going to the Kingdom of God? [We are going to the Kingdom of God!] When? [Now!] When is "now?" How long will "now" last? Will it finish today or will it take ten years, or a hundred years? While you are doing that, what will you do if you die? Therefore, you should be engrafted. You should be cut off and engrafted. (91-173)

Finally, what kind of world are you going to? Are you going to hell or to the Kingdom of God? [Kingdom of God] On the way there, are you going to be a person who says, "Father, please help me!" or are you going to be a person who says, "Welcome, True Father!" Which person are you? That is to

be or not to be. After marriage, you say, "We will live a happy life." When True Father says to live well, it means becoming an unchanging couple. In order to be an unchanging couple, you should go to the world of easily-separated couples and take instructions, and you should not separate wherever you may go. You should reach such a trained standard. (129-182)

### **Section 3. The Qualifications And Conditions For Entering The Kingdom Of God (Part 2)**

#### ***3. The Four Position Foundation And The Kingdom Of Heaven And Earth***

##### **1) The Family Can Enter into the Kingdom of Heaven**

If I have only worked for the family level until now, why have I been persecuted? I have confidence that if my father, mother, clan and all my relatives are gathered in one place, then I can deeply touch them all through God's word. Surely, I have confidence that I can bring all my clan and relatives to God's will. I was not able to do that because it was not God's will. Jesus was expelled by his own relatives because he was not able to do it.

But, you who live in the environment of this era, can touch your parents and relatives by expressing your sincere heart, by shedding tears.

In a sense, you have a better situation than mine. Now is the time for you to touch your parents and relatives, whoever among them does not accept God's word, by shedding tears and other means. It is difficult to face your elder brother, but you can tell your younger brother to come to the Unification Church and say "My brother, are you going to believe it or not?" Even if you have to be forceful with him. Although you entered this kind of time, if you do not fulfill your responsibility, you cannot face God. From now on, Father also cannot relate with this kind of person. Do you understand? [Yes.] If you do not fulfill this, you cannot enter the Kingdom of Heaven. You can only enter the Kingdom of Heaven after you have established your family. (21-66)

The Unification Church teaches that salvation absolutely cannot come to you as an individual alone. Is that right? Individually, you cannot enter into the Kingdom of Heaven. You cannot enter alone. That is the Principle. In the Garden of Eden, both Adam and Eve were able to enter the Kingdom of Heaven. Can the husband enter the Kingdom of Heaven alone? Doesn't the wife have to go to the Kingdom of Heaven too? You cannot enter the Kingdom of Heaven without the unity of husband and wife, and family unity. That is the ideal. Do you think it is good if a father goes to hell and the mother goes to the Kingdom of Heaven? That cannot be the Kingdom of Heaven. You must enter the Kingdom of Heaven as a couple and as a family, and not only the family, but all the relatives and the whole nation. (50-63)

From where does the Kingdom of Heaven start? It starts when you deny the root of all your innate heartfelt feelings. So, the person who is living according to the way of truth lives a single life. But, there are some difficult problems here. In the future, the Second Coming who comes again can solve these problems easily. Until then, you have to face these difficulties alone.

There is no way to achieve individual salvation. In order to save mankind, we have to save the family.

To open the way to give salvation as a whole family, the Messiah is coming again to the earth. Nowadays, Christians believe that they can go to the Kingdom of Heaven if they believe in Jesus. They are indulging in individualism. Originally, you cannot enter the Kingdom of Heaven alone. Do you think Adam and Eve were able to enter the Kingdom of Heaven or not if they had stayed in the realm of God's love without falling? If it had happened, there would have been no such thing as hell.

How can we then go to the Kingdom of Heaven? This is the place we go as a family, with children whose parents as a couple gave birth to them. This is the place to go as a clan with sons and daughters and grandchildren. One step ahead, this is the place for the entire nation to go. That is why this place becomes a heavenly nation. The Kingdom of Heaven is forming in this way today. Today, Christians are trying to go to the Kingdom of Heaven by themselves, but the Kingdom of Heaven is not the place for individuals. They absolutely cannot enter as individuals. (41-300)

Centered on the individual, if you say, "Here is the Kingdom of Heaven. Here is the Kingdom of heaven," how much will Heavenly Father feel suffocated? So, do you think you like this way? Do you? Don't you? When Heavenly Father looks at the human world or the religious world, will he feel suffocated or not? Heavenly Father will say "Oh dear!" (96-71)

What standard do you as a Unificationist have to attain? You have to be better than Buddha, or Jesus or Confucius. Until now, the purpose of religion was individual salvation, but the purpose of the Unification Church is family salvation, rather than individual salvation. This is the difference between Unification Church and other religions. In order to receive salvation, you need to save the family. You cannot go alone to the Kingdom of Heaven.

The Unification Church view of salvation is not that only the husband goes to the Kingdom of Heaven and the wife goes to hell. Both have to go together. Also, we cannot go to the Kingdom of Heaven while letting our father and mother go to hell. We cannot let our father and mother go to hell. We are going to the Kingdom of Heaven with our sons and daughters and parents together.

The Unification Church is on a different level of teaching from any other religion as it shows the way to go to the Kingdom of Heaven with the family, all of the clan together, whom we love. That is why the Unification Church emphasizes the family while other religions emphasize the single way of life. We are going this family centered way living for the sake of God and the world. This is the way for Unification Church members to go. From now on, you have to clearly understand how to live your life. (34-359)

What is happiness? As I mentioned before, our original nature strives to go forward to future happiness. Who can be the greatest source of happiness in your family? For the husband? [Wife] For the wife, who is it? [Husband] For the parents, it is the children. For the children, it is their parents. From this foundation, it is possible to establish the Kingdom of Heaven.

Imagine how lonely and miserable Jesus was when he could not say that the Kingdom of Heaven is in the family. Instead he said that it is in you. You have a family, and you can even sing with happiness. At some time, you could be thankful and happy even if you were to commit suicide together by

drowning in the river and become fish bait while your body is floating in the water. Even if the whole society and nation were to come against you, you could throw them off as if you were taking off your shoes. Isn't that right? For the human being, there is a way to lead this kind of life.

Jesus, the savior, as the only son of God, came to save this world by bringing the Kingdom of Heaven on Earth. He said, "The Kingdom of Heaven is within you," without even fulfilling his dream, which is the basis of the environment of the Kingdom of Heaven. He was crucified after wandering around for almost three years keeping to himself the idea of fulfilling the restoration of the Kingdom of Heaven. How lonely and miserable Jesus was!

Then was the Kingdom which Jesus wished for only the Kingdom of Heaven in his mind? When could the Kingdom of Heaven be established beyond the Kingdom of Heaven in his mind? It was not possible. It was also not possible to build the Kingdom of Heaven beyond the family to the society and nation. How about the Kingdom of Heaven on the world level, and the Kingdom of Heaven in the spiritual world?

When we think this way, the savior as the Messiah has the responsibility to liberate the entire spiritual world and heavenly Father through saving mankind. It would only be possible for him to do this by going through all these stages. When you think about his situation, how lonely and miserable he was. The fact that Jesus was crucified on the cross was not a big thing compared to this. It was not a big deal.

If I collapse, I cannot face heavenly Father because I failed to establish the ideal of the Kingdom of Heaven and the ideal society. I cannot hide myself. Who can understand Jesus' shameful heart which cannot be removed even if he were to die a hundred times? (120-48)

You cannot enter the Kingdom of Heaven alone, the place which is the Kingdom of Heaven. You cannot enter the Kingdom of Heaven alone. Is that right? You can enter the gate of the Kingdom of Heaven after you establish the ideal of a spouse. For a fallen man to enter the Kingdom of heaven, you have to go through the history of restoration, or the history of resurrection, or the history of recreation. To give the Blessing to you is to open wide the gate of the Kingdom of Heaven. Entering the Kingdom of Heaven on Earth is up to you. What is the meaning of giving you the Blessing? What does the word Blessing mean? Through the Blessing, the closed gate of the Kingdom of Heaven is opened in front of you.

You cannot enter alone even though the gate is open. The family enters. Do you understand? I am saying that you can enter with your sons and daughters. What we mean by the family is the historical family as a result of accumulated merit, so heavenly Father's six-thousand years of restoration history went through the first Adam, the second Adam and the third Adam's era. Therefore, you can enter as a family. (152-240)

## 2) Jesus and His Family

Who is the most saintly of all the saints in history? [Jesus.] You said it is Jesus. What did Jesus say? Are

you just saying this? Didn't we talk before about the definition of a true person? Then let's find out whether Jesus was a true person or not. Jesus said that God is his Father. Didn't he say that? [Yes.] He said true life is to become God's son, and Jesus was longing for the position of God's son, wasn't he? [Yes.] Also, he said "I am the only son of God." Because he is the only son of God, he can receive all of God's love, right? [He can receive everything.] Did he take the position to receive God's love or not? [Yes, he did.]

Next, Jesus said, "God and I are one body," From this point, Jesus is not only in the position of the son of God, but he prepared himself internally and externally. And then he said "I am the bridegroom, you are the bride." He connected himself with God as well as with mankind in a relationship like that between bride and bridegroom. And he said "You are my brothers." Isn't that right?

From this point, we have to understand what Jesus was wishing for. What did both God and mankind desire? It is the religion which shows the eternal standard of love to live forever centered on God, that should be Christianity. Isn't that the reason why God wants to find man to fulfill this? It was also man's desire. There is no other desire above this. Jesus strove to establish his family but he was crucified without its fulfillment, leaving the concept of bride and bridegroom behind him.

So, after Jesus comes back again, he will conduct the banquet of the Lamb. This refers to the appearance of the ideal family in which God can dwell. And then, Jesus can enter into the position of True Parents. In the position of True Parents, he has to establish true children and true brothers and sisters. Centered on this, true families, true tribes and a true race have to be established, and finally a new race and new nation have to emerge. Now, we can make a clear conclusion. Jesus has to come again to realize this. Do you understand? [Yes.] (39-344)

### 3) Four Position Foundation and the Kingdom of Heaven

We need to understand that our husband and children, our mother and father, and grandparents are the three angels to guide us to the Kingdom of Heaven. Grandparents, and spouses, and sons and daughters, are the three angels. We have to understand that they are the representatives of the three angels, because they exist as pairs. So, the father and mother have to learn from their grandparents, and from their sons and daughters. Do you understand? The husband has to learn from the wife, and the wife has to learn from the husband. This is the family tradition.

What is marriage? Marriage is for women to learn what they do not know about men. Men have to learn what they do not know about women. You have to understand this. Marriage is the program to learn about the opposite sex. We have to understand that marriage means you are going to this kind of school. So you each have to achieve 100 points. The husband likes this and the wife likes this too. You have to achieve 100 points. It would be good if I could tell you more details and talk until I could totally convince you of this, but I don't have time now.

The reason we give birth to our sons and daughters and live for them is to learn how to love the world. Sons and daughters can connect us to the world and the future. If we don't have sons and daughters, we cannot be connected to the future. We have to understand that God gave us sons and

daughters as the source of education to connect us to the future world. And then our ancestors, and grandmother and grandfather are the source of education about the spiritual world. If we take care of our grandfather and grandmother with filial piety, that kind of system exists in the spiritual world. This is for you to receive education about the spiritual world. You have to understand this.

What can be the center of this? Under the title of love, everything can be connected. Centered on love, everything can be connected. Grandfather and grandmother, husband and wife, sons and daughters can be connected all together centered on love. If you have that love, you can be connected to millions of generations of your ancestors in the spiritual world. You can also be connected with your descendants only with this love. The system of the spiritual world is just like our blood circulatory system. That is the system of the universe. The realm of love is so wonderful! It is amazing! Right? [Yes, it is.] The word right contains two meanings, might, and power. Everyone wants to follow righteousness. How about you? We can make a clear conclusion. The greatest happiness is to become the slave and servant of love. (135-120)

What is it that needs to be restored? Is it not to restore the Four Position Foundation? To restore the Four Position Foundation, we have to restore father, then mother, then sons and daughters. Therefore, you have to be completely restored as a Blessed couple and give birth to children and bring them to the position of an unfallen person. You must understand that this is your most important mission. To do that you have to infuse a new tradition which is far better than that of the saints. (58-35)

First, you have to establish the Kingdom of Heaven as an individual. Next, you have to establish the Kingdom of Heaven as a couple. Where is the Kingdom of Heaven as a couple? Where is it? That is the place where plus and minus become totally united as one. In the beginning, you say you like your spouse. And then after a few years you say goodbye and divorce. That kind of marriage is not like this.

Do you think it is true love that you married him because he was handsome before you got married? What if one week after the marriage he had a car accident and his chin is twisted, he injures his eyes and breaks his arm and you divorce him because of that. Is that true love? [No.] Is this American woman's love? Is that true love or false love? [False love.] I investigated one hundred people. Among them, one third had divorced. The initiator in one third was the husband, and in two thirds it was the wife. That's true. (laughter)

Now do you know what is the Kingdom of Heaven as a couple? Nobody can separate the couple who are completely attached together, even though they lose their legs by exploding dynamite. (laughter) What kind of love are you looking for? [True love.] True love. You can achieve that kind of love when your mind and body are completely united.

The Kingdom of Heaven as a couple can emerge. After that, what will happen? Are you satisfied with only the Kingdom of Heaven as a couple? How can the Kingdom of Heaven as a couple emerge? When father and mother become totally one and love each other, the son will think he wants to marry a bride just like his mother, and the daughter will think that she wants to marry a bridegroom just like her father. When the father and mother as a plus, and the sons and daughters as a minus are totally

united as a family, that is the Kingdom of Heaven as a family. Do you understand?

The place where the Kingdom of Heaven can be established in the family is the place where the Kingdom of Heaven can be established on earth, which is God's ideal. The four position foundation has to be formed. The Principle says that the completion of God's ideal of creation is the completion of the Four Position Foundation. Do you understand? Why do things have to be like this? Centered on three stages by God, Adam and Eve, the vertical world and horizontal world can be extended. Do you understand? [Yes.] This is the Principle.

That is why Adam and Eve have to have sons and daughters in order for the horizontal world to expand. If this horizontal world becomes larger, the vertical world can emerge naturally. The horizontal standard of the body is the children, and the vertical standard of the mind is the spiritual world. From this point, finally, heavenly Father can go freely between the spiritual world and the physical world, and the Kingdom of Heaven on Earth can be realized. Do you understand? [Yes.]

#### **Section 4. The Gate Of The Kingdom Of Heaven And Entering The Kingdom Of Heaven**

##### ***1. The Door To A Man's Heart***

While the Buddha was in an esoteric state he said he was the only person who exists in all of heaven and earth. When someone is training himself to achieve the unity of mind and body, he can experience the divine spiritual world. During that time, he stands in a totally object position before God who is the subject. So we can say he is the only person who exists in all of heaven and earth. Once I felt that I was grasping the world tightly in my hand and it seemed to melt. If I wanted to lift it, I felt it was lifting. In that state, if you hit something, at the same time you will feel everything is melting. When you reach this level, miracles can happen automatically. The miracle of curing diseases is a natural result of religious life.

That is why you have to cultivate the quality and direction of your heart towards the door of your heart. You have to find God who is the subject to be able to cultivate the quality of heart and pioneer the standard of the direction of heart. How can you make the connection to God who protects you? To totally concentrate your mind, you have to start from your mind. That is the only way. If you brighten your mind you can surely find the direction in yourself.

Can you? It is like a magnet. Minus exists naturally where plus exists. Does it happen because somebody said to do so? It happens naturally. Then whatever is in there you will feel it. Even though I am facing eastwards to pray, entering the divine state, my direction can be changed. That will happen. Do you understand? That is why we can say the mind has a door.

Are you able to pray well sometimes? Everybody will understand this. Sometimes you can pray well. No matter how sincere you are and giving your whole heart and taking a bath to pray, sometimes you cannot pray well and say "Oh no." It depends on different rooms. It depends on the location of the room. You have no control over when it happens. There is only one center. Based on the central point,

North, South, East and West exist. Every location is different. Also every direction is different. When you go to the mountains, there are places where you can pray well. Also there are places where Satan is gathered. Those are the shady places. Spiritually shady places and sunny places are formed in this way. If you experience this many times, you will understand this.

When you receive hints, dreams, revelations and apocalypses, you have to make effort to apply them to your life. Do not neglect them because these phenomena are the inevitable essence to pioneer and develop the relationship between God and man. For your own life of faith, you have to open the door of your heart and develop the quality of heart within yourself. The day you achieve this is not the final goal; you should then apply this to the world you relate to. (76-143)

## ***2. What Is The Meaning Of Opening The Gate Of Heaven?***

### **1) The Reason to Open the Gate of Heaven**

Why do we need the Day of the Opening of the Gate of Heaven? God took full responsibility for all the mistakes which Adam and Eve made since the Fall. He has to open the gate under His jurisdiction. He has to open the gate from the individual level, family and tribe. All of those gates have been blocked. The door for races, nations and the world have been blocked. All of those doors have to be opened. By what? By Unification Church families. Reverend Moon has to open them. Do you understand? [Yes.]

God's strategy is to prepare small steps to achieve victory, from the individual, family, tribe, nation and world and universe and even to the spiritual world. Have they been blocked by heaven and hell? By whom have they been blocked? If Adam and Eve become True Parents, the whole cosmos can be united. But because of false parents, through the Fall, the Kingdom of Heaven and hell have been blocked. Who can break down this historical world of grievous resentment?

True Parents have to do it. When they do it, they are not doing it from the position of a king or that of an imperial throne. Because mankind lives a suffering life in hell on earth and in the spiritual world, the gate of hell first has to be opened on earth. Then the gate of hell in the spiritual world has to be opened. Through that, the pathway is opened on earth for the individual, the nation and the world. The highway connecting earth to the spiritual world has to be constructed. They have to connect to the mainstream. With the standard of unity between mind and body, we have to go beyond family, tribe, race, nation and world and the spiritual world to break down all the barriers. Everything has to be broken down.

The worst and last problem is to open the gate of hell and heaven in the spiritual world which has been blocked. We have to go to the depths of hell on earth and open the gate of hell on earth. We have to go to the first gate of hell in the spiritual world and open it. Otherwise, nobody can enter the Kingdom of Heaven. Only the person who wins over hell can open it. How can you win? Not by a prayer, but by God's love. Unless you can do this, you cannot enter the Kingdom of Heaven. That is the reason why Reverend Moon paved the way from earth to heaven by opening the gate of hell on earth and in the spiritual world centered on God's love. The name of the International Highway came from this. Do you understand? This is to break down the wall which has been blocking us.

The reason that Jesus became the prince of heaven and had the authority as God's only son was that he was able to love not only the Satanic world but also the spiritual world. The spiritual world has been blocked by boundaries, such as the boundary sphere of the Buddha, the sphere of Confucius, all of the barriers have to be broken down by a higher standard of God's heart than theirs. From the high throne of heaven, all the walls must be broken down from the highest level to the lowest. The barriers of ancestors from tens of thousands of years ago, many thousands of years ago, many hundreds of years ago, and the barriers of ancestors of only many years ago, have to be broken down on earth and pave the way to connect to hell. Otherwise, the opening of the gate of heaven cannot come about. It is complicated. (140-43)

## 2) The Origin of the Opening of the Gate of Heaven

These days, I appreciate Mother. Mother had many very deep experiences of the heart during my time in Danbury. Since Mother met me when she was young and innocent, she has had to pass through a parallel course with me. Because she has lived this way, Mother's standard has been lifted higher and higher. Because of Danbury, True Mother was able to realize much more the value of True Father, and understood how lonely it is for a woman without her husband.

As a result, Father and Mother conducted a ceremony to open the gates of hell and heaven. Now, they cannot be closed. True Parents stand as opposite poles. The poles are vertical, not horizontal. A solution can emerge from the place where the two poles connect. This is where the spiritual world and physical world can be connected. On February 1, 1985 at 3 a.m. American time, this standard was established at Danbury and East Garden. With what kind of heart was this done? With God's heart, we have to play a role so that the power of love can connect. Do you understand? [Yes.]

Now you know the way for the family. You have to decide whether you will become a brazen leader who stands before God in need of salvation by leaving your position or whether you will go straight up vertically. The way to heaven is the way for both man and woman to be united as one. Where does that oneness originate? You have to become one at the polar axis. You become one at the polar axis and must follow that axis. Do you understand what that means? Everyone has to go this family-centered path up to the sphere of the tribe, race, nation and world following the principle of indemnity. Everyone has to go through this path because you are in the realm of the fall. (136-47)

On February 1, 1985 at 3 a.m., Mother and I established this condition through special prayer. It cannot be done without effort. From that point, all of the barriers of hell crumbled. So, whoever makes effort on that foundation, he can enter the heavenly world. Also, if there are good ancestors among your relatives, they will come down to you and then you can educate them and lead them to the heavenly world. Do you understand?

The way of salvation has been limited to the earth. But now, by opening the gate, the way has been prepared so that good ancestors in the spiritual world can educate the evil spirits and play the role of savior. (136-187)

## 3) True Parents and the Gates of Heaven

What is the mission of the Unification Church? The Unification Church is different from other religions from the past which emphasized individual salvation. The Unification Church wants to build the original ideal world before the fall. When men perfect themselves and marry centered on God's love, and multiply by giving birth to children, they can enter the Kingdom of Heaven. It is the original ideal world.

How can we say it is the Kingdom of Heaven if the father goes to hell while the mother goes to heaven, and if the parents go to heaven while the children go to hell? The Kingdom of Heaven is the place where everyone goes to, such as parents and children, tribes, races, and nations. Because false parents created all the barriers, True Parents must appear to open the gate of the Kingdom of Heaven. Even God cannot open the gate of the Kingdom of Heaven. If He could, why did He not do it if He is omnipotent? It is man himself who fell. That is why man who committed sin has to receive punishment. In other words, man has to find the Kingdom of Heaven by himself because he lost it. For that reason, it took six thousand years to be restored.

To open the gate of the Kingdom of Heaven, what do we have to do? God has to elevate the person who is in the position of servant of servants through giving him the special privilege to connect to the son of God's direct blood lineage. Who is the son of God's direct blood lineage? He is Adam before the Fall. Who is the adopted son? He is the archangel before the Fall. Originally, an adopted son as an archangel is in the position of servant, so he cannot receive love directly. (42-286)

If the people in the spiritual world had not fallen, they would be able to enter the Kingdom of Heaven on the foundation of uniting with the core of True Parents' love, centered on God. Everything has been delayed because man did not have that opportunity. Where did the delay originate? It has been delayed in hell and paradise. So nobody is in the Kingdom of Heaven. The only people who can enter the Kingdom of Heaven are True Parents. If I say the Kingdom of Heaven is empty, people will think I am demented. But Jesus could not enter the Kingdom of Heaven. You cannot go there alone.

If our original ancestors had grown into adolescence, and had established the three objects of love which is the ideal of love centered on God, they would have become the parents who could leave the seeds of true love. The Kingdom of Heaven is the place where such parents enter first. But until now, there has been no couple who has been able to leave the seeds of true love, and also there is no foundation for the descendants to inherit. So the Kingdom of Heaven is empty.

Due to the Unification Church, the gate of the Kingdom of Heaven has been opened. But because Father did not go there yet, there is no one who has entered. Even Heung-Jin is waiting to enter while he goes in and out of there with Jesus. I am not just making up a story and trickily telling this to you. After I checked and checked, even worthless things, and researched and ran through everything, I found that there is only one way to go directly. That is to go to the family, tribe, race, nation, world and spiritual world and up to the heavenly throne. On the way, you have to give others directions with a signal of love to guide them. You cannot communicate with other signals besides that, or else you cannot go. Do you have confidence to go to the Kingdom of Heaven? Do you have confidence? [Yes.] Can you go by driving a love car? If it happens that an angel of love can give signals to the love car, it can guide you to the Kingdom of Heaven. Even though this road is winding, it is a highway.

In 1985, Father at Danbury and Mother at East Garden finally opened the gate to connect heaven and earth. Ancestors who went to the spiritual world many thousands of years ago came down to their descendants. If you enter the Kingdom of Heaven, you have to descend on earth through hell. If you want to go to the Kingdom of Heaven, you have to win over hell. Only persons who win over hell can go to the Kingdom of Heaven. Paradise is like a waiting station before you enter the Kingdom of Heaven, after having gone to the depths of hell.

When you look at humanity, you have to look at them as one man and one woman. "Two billion people among the four billion people are women, and two billion people are men. If you say two billion, that is a man with two billion cells, and a woman with two billion cells. With that mind, I will love those two people." You have to think that way. With what kind of name? With God's name. When Heavenly Father recreates humanity, he plants 4 billion people and recreates the historical Adam and Eve.

That means that God chooses one representative man among the two billion men and one representative woman from the two billion women to be His first loves. These representatives are the fruit of the love of humanity. If you make the determination that you are going to love the two billion people of humanity more than the father and mother who gave birth to you, and you become a person who can love the four billion people more than you love your father and mother, then you have nothing to do with Satan, because you are totally one with the realm of God's love according to the standard of the Principle and you are in the position of loving mankind in oneness with God. Isn't it simple?

Who can be the representatives? They are the true father and true mother. If you can love mankind more than you love True Parents, everything will be okay. Do you understand? The gate of hell in the spiritual world and on earth can open immediately. Wherever that person goes, it will be a highway. But, you have to pay the price for gasoline. You should not ask your father and mother for the expense of gasoline. I gave you a car, so you have to drive the car at your own expense. "Well, parents have to drive for me." You cannot say that. In the original world, angels would lead the way to the Kingdom of Heaven, not True Parents. And, this is the right way, that you come to see True Parents, to greet them, rather than True Parents coming to you and leading you. That is not the way of the Principle. True Parents paved the way, so if you love True Parents, you can automatically follow that path. Everything will go well when you love mankind more than you love True Parents, with the attitude of following their footsteps and loving True Parents. You must follow the mainstream of heart which can be directly connected to the highway. Therefore, you can directly enter the Kingdom of Heaven from the Earth. (applause)

Well, am I a man or a woman? [Man] How about Mother? Is she a man or a woman? [Woman.] Right. I am a man. Mother is a woman. When you look around this world, there are two types of people, and male and female animals. Because of the fall, some men and women are just like animals, are they not? You can enter the realm of heart with a mother's heart which goes beyond the Satanic world. If you have made bad conditions in front of Father, then you have to try again. Throughout my life, as a parent, I have prepared the way for my children to go, through taking all responsibility.

If you stand in the place where you love mankind with the same heart as you love True Parents, you will become one with True Parents and stand in the same line horizontally with True Parents. If you can do this, Satan cannot influence you, because your heart is much higher than fallen man's. You can connect to heaven directly. Do you understand? [Yes.] To accomplish this, I declared the Day of the Opening of Heaven's Gate. (140-45)

#### 4) Our Attitude Towards the Opening of Heaven's Gate

From the earth, I have prepared the highway and brought the victorious power of heaven and passed it on to you. So, you have to love True Parents absolutely centered on True Parents' standard and realm of heart and separate from the roots of heart caused by fallen parents. By doing so, centered on new parents, you have to plant God's love in your mind and body and attain absolute oneness. Then, Satan cannot separate you from God.

What will happen to you if you can love the world with more of a loving heart than you love True Parents? In this way, I went through the history of indemnity to save Cain-type sons and daughters as the representatives of the world. From now on, there is nothing in the spiritual world or physical world which can block you. You start from the earth and can go beyond the world and the spiritual world directly to heaven. But if you cannot fulfill it, your way will have so many barriers. Because Father knew this, he dedicated his life up to now to prepare the way, and gave you the privilege to attend the Day of the Opening of Heaven's Gate. I wish you can become a victorious person who can pass without obstacles to attain such a heart. (140-62)

### ***3. The Front Gate Of The Kingdom Of Heaven***

The way of true love is to live for others. You have to understand clearly that you have to live for others. If it is wrong I will ask you one question. Raise your hands those who think, "It is a lie." I want to ask one question. No one? Because I said I will ask a question, are you holding back? Then I am asking you, so please raise your hand. (laughter) Then shall we go on, since you admit it is true? [Yes.] Do you feel bad or good? [Good.] If you feel bad, this universe feels bad, and God feels bad too. That is why we can make the conclusion that true love is that you live for others even at the price of our life.

If there is a front gate to the Kingdom of Heaven, when such a person comes before it, the door will open automatically, just like an automatic door. Will God then say, "Who opened that door?" [No.] As soon as the door is opened, he will be wide-eyed in surprise. Will his mouth open in astonishment? How about it?

The husband is given to his wife to live for her all his life. Is that good? No matter how ugly the woman is, she will like that and say, "God sent my husband to me so that he can love me. So I am a happy woman." Doesn't she say that? [Yes.] On the other hand, in the same way, the wife is given to her husband to live for him. The woman is given as a spouse to live for her husband throughout his life. Isn't that right? So they are a happy husband and happy wife. Why? They can become friends forever.

In the universe, there are always two actions. When they try to give to each other, there is a cycle of giving. If they try only to receive from one another, what will happen? Their relationship will end and in that situation it will finally disappear. When you give to and receive from each other, you will flourish. When you want only to receive, you will die. If a man and a woman do not unite, they will disappear. (128-298)

#### ***4. Questions And Answers On The Kingdom Of Heaven***

Where are you now? You have to know yourself. You have to understand where you are. Satan and God can claim man based on their portion of responsibility. "This person is yours, that person is mine." Do you understand? Unless you fulfill your portion of responsibility, you cannot enter the Kingdom of Heaven. Then Satan will say, "He is mine."

You have to long for God's love, the ideal love of a couple and the ideal love of children. With that attitude, you have to fulfill your responsibility. "Oh, I need money. I need this or that. I have to educate my children." You cannot fulfill your responsibility with this kind of thinking. You must understand this point. It is all trash. It is wrong.

Before you enter the Kingdom of Heaven, what will the gatekeeper ask? He will say, "Did you fulfill your responsibility? In the fallen world, absolutely no one can go to the Kingdom of Heaven. There is no way to go to the Kingdom of Heaven. Therefore, God has raised the third Adam, through the time of Adam, Jesus, and the Second Coming, centered on the providence of restoration, to break through in the fulfillment of man's portion of responsibility.

Satan will say, "Even though you give all the religious people of the world as a sacrifice, I cannot give this to you!" But God thinks, even if all the religious people in the world were to die, if I can restore man's portion of responsibility, I will do it. Now the reason that religious people can believe in religion is that they can go to the Kingdom of Heaven by fulfilling their portion of responsibility. Satan does not want to give this portion of responsibility even though he may take all the religious people as a burnt offering. He does not want to give this to humanity, but Heavenly Father thinks that even if he were to sacrifice all of the religious people, He wants to restore this portion of responsibility. (149-323)

#### ***5. Heaven And Hell Are Not Places To Be Sent To***

In our life of faith, we can never complain. Answer me, can you find any reason to complain, or not? [No.] Why? "Oh, I'm dying, I feel suffocated. What is it? Can you complain like this? [No.] You have to be joyful, laughing while shedding tears. You have to go this way. You have to go shedding tears and smiling. Now, do you understand or not? [We understand.] If you understand, are you going to do it or not? [We will do it.] After I have taught this, if you don't do it, what will happen?

If you don't do it, there is no other way. God cannot help you, I cannot help you. Because of that, you have to decide whether you are going to the Kingdom of Heaven or hell. Reverend Moon does not decide. God does not decide. You yourself decide. Each of you decides. If you complain, it is hell. If you

do it without complaining, and feel thankful, that is the Kingdom of Heaven, if you maintain a thankful heart. (96-122)

The Kingdom of Heaven is not a place you go by being taught. A person who lives according to his conscience can go to the Kingdom of Heaven automatically. Look, when the sun rises don't all the buds of the trees turn toward the sun? Isn't that right? Trifling things like grass and trees can turn towards the direction of the sun by themselves. Furthermore, man as the lord of creation can surely understand the way to go. These things will happen. (75-42)

### **Section 1. Jesus Christ And The Spiritual World**

Jesus fought with Satan to do what kind of mission? He died on the cross while he was doing the mission of John the Baptist. Therefore has he done his mission as son or not? He has not done so. Jesus has been doing the work of the archangel until now from the time of his death. After that he can do the work of son. That is the way to find the path for a servant and a adopted son. He did not do the mission as direct son. He had to go the path of archangel, servant and adopted son.

Therefore even if you believe in Jesus Christ, you can only be an adopted son. If your relationship is not connected by blood lineage, it can only be an archangel's position. Then what is the adopted son's position? That is the same as Cain's position which represents a different blood lineage. That is the way it has been. Until now, the history of the providence is the battle to connect the fallen and restored blood lineages together.

Jesus died on the cross, but he did not die in the son's position. If Jesus died in the son's position, then he was a victorious offering to God and does not need to come again. But he could not be offered wholly. He lost his physical body and only offered his spirit. This is equal to the angel's offering in the spiritual world. That is why Christians go to paradise instead of heaven in the spiritual world. In other words, the spiritual world, dominated by the archangel, is the realm of the archangel. To go beyond that realm, victory must be won on earth in the physical world. That is the will of God. That is the meaning of Jesus' presence on the earth and the spiritual world.

Christianity has to inherit the realm of the archangel altogether with the realm of victory in the spiritual world and the physical world. That is the mission of Christianity. There is no substantial completion in Christianity, only spiritual completion. That is why Christianity centered on the spiritual world.

Then, what does the Lord of the Second Advent have to do? He has to have the power to gain the surrender of the realm of the archangel in the spiritual world. If he does not have that, he cannot begin from the earth. That is the way. When the Lord of the Second Advent comes to earth, he has to come in the position to inherit Jesus' victory in the spiritual world, all of the spiritual world. In other words, Jesus inherited from the physical world, the natural surrender of the archangel's position from the spiritual world represented by John the Baptist. But, John the Baptist did not keep his promise to Jesus and these two realms were separated. Christianity exists to rebuild that.

Where did Jesus go after his death? It was bad enough that he died on the cross, but where did he go for three days after his death? He had to go to the realm of hell. Hell. That was the test. Death is the biggest fear for humankind, but going to hell was the greatest test for Jesus. Think about whether Jesus was the master of fear in hell or the master of happiness in hell. What do you think that Jesus did while he was in hell? We have to know that he was concerned about conquering the pain of hell.

When the Messiah appears to humankind, he brings an equal ideology. God is impartial. The Messiah comes to save all of fallen humankind. Therefore, he deals fairly with everybody in order to save them. He comes with a fair purpose and creates a fair environment. Whomever unites with the Messiah can be his disciple.

And what kind of path does the Messiah go? The Messiah goes from the bottom of hell to the top of the most glorious place in the world of humankind. That means to restore humankind, there is no place that he would not go even at the risk of his life. Viewed from this principle, the Messiah cannot come from the cloud in the sky. That is a lie. He does not come that way. The person who believes that really does not know anything about the spiritual world. Please, all of you go to the spiritual world and see it yourself. The Messiah moves by an exact formula of spiritual and physical restoration.

The general public does not know about these things. If you ask a question, "Why do spiritual people want to work with the physical world," no one can answer. Until now nobody really understands. Why is it that no one is sure of the answer? Do you know why? What is the reason? To reach the higher level of completion in the spiritual world, cooperation with the physical world is necessary. The realm of completion was left for the earth. Only humankind can reach it first, then those in the spiritual world can reach it. That is why.

Whether you are good or less, all of you are under this same rule. Together with the Messiah we have to open the spiritual world like this. To fulfill this we have to build restored relationships on the earth. That is why there are the Messiah's stages of individual, family, tribe, world and those must be connected to the spiritual world. We have to establish the victorious foundation of individual, family, tribe, race, nation and world completely on the earth. Then we can mobilize the spiritual world and it can connect fully to the earth. To find the center of all this, the Messiah has to suffer and go the painful path at the beginning, from the individual to the family, tribe, race, nation, and world. It all has to be restored in this order.

That is why people are moving these days toward one goal and one world. One world. The world has been separated into two worlds, democracy and communism. Which will dominate and make the world one under its influence? In the future, the world will be one, but neither democratic nor communistic.

## **Section 2. Christ At The Second Advent And The Spiritual World**

The Coming Lord will come from the far end of the Earth. You should say something like this: "I have come to this society as a servant of servants. You should become a servant of servants to society." You should tell people: "Serve others!" Because the spirit world and the physical were split from each other, people in the spiritual world must begin at the lowest point and progress toward the highest. (93-42)

---

Christ at the Second Advent must come as the ancestor not only of the Third Israel but also of the First Israel and Second Israel. Our members must go beyond a point where you experience doubts similar to those experienced by the First Israel of Jesus' time. Then, through the Father's heart, you can occupy the position of a child who is in the deepest heart of the Father.

Christ at the Second Advent must be able to resolve the problems of the spiritual world. By doing this, he will be able to begin his work on the foundation where the First Israel was established. People in the spiritual world have not been able to form a bond with True Parents, so they must go through this course. The archetypes of the twelve tribes already exist in the spirit world. However, Christianity, which had to become the Second Israel, lost the center by which it could organize itself into tribes. Thus, Christ at the Second Advent must proclaim the ideology of unification and organize tribes. (10-218)

---

If Adam and Eve themselves had fulfilled their love centering on God and then gone to the spiritual world, who would be the father! God has no shape or substance. Even in the spirit world, you cannot see Him. The reason that God created Adam centering on love is that this created world around us has form. For that reason, God has to become a Father who possesses form.

As a result of God becoming a Father possessing form, that which is invisible and that which is visible are united into one. This, in turn, symbolizes the unity of the universe. Thus, God created Adam and Eve so that He could take on form. So, what is the decisive element in His taking on form? This can only be love. Adam and Eve came into the world with an appearance such that they could have a form resembling God's hyung-sang aspect.

Thus, the features of Adam and Eve would have been elevated to the palace and the throne of the Kingdom of Heaven. God would have then dwelled within the hearts of this king and queen, and from there He would have ruled over the physical world and the invisible world. This would have created God's kingdom. What kind of kingdom would this be? It would be a kingdom of love. Do you understand? A kingdom of love. Isn't that so? Only love can bring spirit and flesh together. It won't work with anything else. (143-93)

### **Section 3. True Parents And The Spiritual World**

#### ***1. The Difference Between Physical Parents And True Parents***

What does it mean to say "true parents"? How are true parents different from physical parents? What are true parents? What do true parents do? What kind of love do they teach? When we speak in terms of love, what is the difference between physical parents and true parents? The difference is in their concept of love. Each has a different concept concerning love. Your physical parents teach you about love that is centered on the physical love. Spiritual parents teach you about love that is centered on the spiritual world. The content is different.

You would think that having physical parents would be enough. So, why do you need spiritual parents? It's because of the fall. The fall. What have fallen parents been teaching until now? For the most part, they completely scorn that which is greater, and teach their children to center on themselves and take a path that keeps going downward. They teach about going down. And because of that, a line has been drawn in order to keep the children in the satanic world forever centering on the love of the parents. And there is no way to break that.

Then, what are True Parents? Right here, starting with this much of a foundation, they teach about larger and larger things. As you go higher, they teach about things that are even larger. So, what is that? They teach you so that you will be suitable for the heavenly world, the eternal world. They teach you so that when you go to the eternal world, you will be compatible there and won't have any problems living there in harmony. Do you understand?

If you go to the spirit world, you just have to go into some corner and stay there with your back turned against the entire spiritual world, as if to protect yourself against the wind. You have to do that, because otherwise, if you turn around and face them, they are all people who just want to live for you, deny themselves and sacrifice themselves. It's so much that you'll feel you're going to suffocate.

Who made it this way? Satan did. That is why you are hoping that True Parents will come and liberate you. You want to be liberated. What is the way to go about liberating people in this situation? Do you untie the knot just as it is, or do you go the opposite course?

All your parents look on "Moonies" to be their enemy. They say they're going to deprogram you, and they're making a big commotion. On the other hand, if you live according to my words, you will go through a lot of suffering but you will find peace in your heart. If you only take the easy way, you will come up against despair and misery.

If you live according to my words for one year and then ten years, then you will be able to look behind you and see a mass of people following you. If you don't, then you will just fall away in loneliness all by yourself. In the end, there won't be anyone left but you. In the end, there will only be one person left. Who here today can say: "I'm confident that I won't die"? Hold up your hands. People who are confident they will not die. No one? (129-99)

If you want to return to God, then the spirit world is the stage where you can do this. The spirit world. You have to go as far as to receive training for the spirit world in the third dimension. The place where you are trained to strengthen your love for and oneness with the spirit world is the same place where you learn to love God. It's the place where you learn to love your Parents in Heaven.

For this training, the Messiah comes for the purpose to fulfill the role of True Parents on the Earth today and to connect the spirit world and the substantial world to God above. That's all there is to the mission of the Messiah. The Messiah truly loves us and lives for our sake to a greater extent than anyone else in history. So, you have to be sure to pass this training successfully. You have to be able to say: "I've completed all the training." In the spirit world you have to do that. When you go to spirit world.

So, before the Lord comes, before the True Parents come to this Earth, all of spirit world is divided into many parts. If you want to know what spirit world is like, it's similar to the way the world we live in now can't be united as one. Many walls have been built up, and the True Parents have to take care of all this. The True Parents do this in a substantial body like this, without dying. They do it in the substantial body. And in this way, they break through this separation between the physical and spiritual worlds. Do you understand? That is why the True Parents represent not only the world of the physical body but also the spirit world, as God's representatives.

Normally you would have to die and be trained for billions and billions of years. But by attending the True Parents and by means of absolute love, you are, for the first time, able to pave a road that connects to the spirit world. By demonstrating absolute loyalty before this Messiah, you establish the condition of having demonstrated absolute loyalty before even the greatest of all spirit people. You establish the condition of having demonstrated absolute loyalty to God's commands. You have to demonstrate absolute loyalty to the Messiah in the place of God. Why is that? It's so that you can establish a tradition that enables you to become one with the people in spirit world. In order to pass this test, you need to demonstrate absolute loyalty. Do you understand what I'm saying? [Yes.]

Why do you need to attend the Lord? Why do you attend Christ at the Second Advent, the True Parents? It's because they represent spirit world and God. Also, the first parents, second parents and third parents have formed a bond of heart that is sealed in love. Thus, another reason for you to do these things is so that you can be qualified to participate in the realm of the victory of heart that represents all of this. (105-112)

## ***2. True Parents Are The Axis***

What does the human mind seek after? What does the original mind long for? What does my real heart seek after? You see, the mind is comparatively closer to that which is true. At least in comparison to the body, the mind is closer to that which is true. This is more the case with the original mind than the conscience. The original mind has to bear some similarity with the original heavenly characteristics. So, you need to find the true central point for which the original mind is yearning.

Where are the True Parents? Where are true brothers and sisters? Where can you find a true family? Where is there a true society? Where can you find a true nation? Where can you find a true world? Where are these? If you do not have these, you can only go from unhappiness to unhappiness in your life. But that's not right. That's why we spend our lives in this world working hard to the point we are exhausted.

Let's unite the world as one! We have to make the world as one. United centering on what? [True Parents.] Centering on the heart of God, the spiritual axis and the Earth axis have to be made as one. They have to be one with what? [True Parents.] It's True Parents. The spirit world can't do anything about this, and there's nothing that can be done on Earth. You can't take True Parents out of the center.

What is the opposite of True Parents? It's evil parents. What is the fall? The fall was when evil parents came into being, thereby causing a confrontation on the horizontal plane that led to the family being

split in two. Also, on the vertical plane there are separate worlds of the God of goodness and a god of evil. Because all this was caused by the fact that evil parents came into being, the True Parents have to come and have give and take here. The fall occurred because of evil parents. To deal with this, True Parents have to come into being. That which is true has to appear. (149-279)

### **3. Centered On True Parents**

Look here. The democratic world represents the right wing, and the communist world represents the left wing. This is breaking down now. The same is true with the United States. Neither world has a center. What is a center? Rev. Moon has declared that what is needed from now on is Headwing thought and Godism. No form of humanism can stand before God. There can't be anything aside from Godism. God is the only absolute and eternal center. Only Headwing thought can function as the center for all humankind. Isn't that right?

The True Parents are the ones who become the true center for the spirit world and the physical world. You don't have to think about it in a complicated way. "What is that?" "It's Headwing thought." "What is Headwing thought?" "It's Godism." "What is Godism?" It's all the same concept. When you took at it centering on true love, it's all the same concept. This is something you don't need, right? [No, we need it.] Are you saying "no" or "know"? (laughter) Which is it? [Its "no."] You have to know this kind of concept. You all know this, right? [Yes.] Then, that's all there is to it. No one can complain. That position becomes the position of hope, the position of happiness, the position of peace. Isn't that right? [Yes, that's right.]

Now you know what kind of person it takes to break through this limitation. Do you need limitations? [No.] What do you need to break through this kind of limitation? If you have the three things I mentioned already, that's all it takes. When that happens, I can extend out without limit. Even if I visit someone in the middle of the night, they will say: "I waited for you so anxiously. What took you so long?" They will prepare food for me, and let me sit in their seat. They will always be prepared for my arrival. How would that be? If you could be like that, then you would be welcomed wherever you went. How happy you would be! You would like to become like that, too, wouldn't you? [Yes.] Are you sure? (laughter) It's not as easy as it sounds to become like this. This is the problem.

How can you restore yourselves to your original selves? How do I reform myself? How do I revolutionize myself? How do I win in the struggle against myself? This is the homework assigned to people in the fallen world. Kids who don't like doing homework won't receive their diplomas. Without a school diploma, people can't go the course they want to take in life. It's the same thing here. Now you now what you have to do in order to break through the limitation of where you are needed.(205-263)

Where is the limitation where Rev. Moon is needed? The limitation where Rev. Moon is needed? Whether in this world or in the spirit world, this limitation is infinite. Whereas if you were to ask where is the limitation of where Dr. Hendricks here is needed, then the answer is more restricted. Where is the limitation of the President of the United States? In four to eight years, he rolls over and falls. But Rev. Moon doesn't roll over and fall. I'm different. The limitation is different. In four to eight years, the American president has to pack his bags, but that's not true with Rev. Moon.

So, will the future world need Rev. Moon or not? [It will need you.] Why? For what reason? That world will not have a leader. The only person who can lead that world is Rev. Moon. This is not my personal opinion. This is God's opinion. Ask God whether I'm telling you the truth. (Laughter) If you don't have the strength to do that, then don't complain. Believe and follow me. It won't do any good to debate this in the manner of a democracy. If you have a chunk of gold sitting in front of you, then do you need to have a debate on whether this is actually gold? No, you don't.

All right. So, how far is the limitation of where Rev. Moon is needed? If I had been alive at the time of the American Civil War, do you think that only the Yankees in the North would have liked Rev. Moon? Would only the Southerners have liked him? [They all would have like you.] That's the problem. Also, do you think that only this world on Earth needs me? What about spirit world? [It's the same with the spirit world.] Why? For what reason? A palace of love was supposed to be constructed in the spirit world, and people who lived in love on Earth are supposed to be able to go there. But this palace hasn't been built. Who is going to build this palace of love? Is God going to build it? Have you ever thought about this kind of thing? Will God build it, or will the people in the spirit world build it? [True Parents will build it.]

What does it mean to say "True Parents"? In the spirit world, the palace of love will begin with the True Parents. Is that right, or not? Even if there were already a palace in the spirit world, when True Parents were to go and declare "This is where we will build a palace," then the whole of spirit world would settle down centering on that. The spirit world absolutely needs me, too, because this responsibility has yet to be fulfilled. Should I go to spirit world soon, or wait until later? (Laughter) Why do you laugh? (205-155)

#### ***4. The Strength Of The Bond With True Parents***

True Parents are the true parents whom all humankind must seek out. The existence of True Parents makes it possible for true goodness to be established. So what kind of people are the True Parents? They are the ones who act as a kind of foothold enabling you to go with the Father. True Parents are the ones who stand as a kind of sacrifice. They are a sacrifice. In other words, the True Parents form a sacrificial altar that fills the gap, or hole, between God and humanity. They form a bridge that crosses over the world of death.

Seen from this perspective, that position is one where I can be with God. It is the focal point that makes it possible for me to be together with God in the bond of father and son, and form a complete unity with Him. That is, humankind can become one with God for the first time after being separated from him as a result of the fall. It is a point of origin whereby two perimeters that became separated from each other as a result of the fall can converge. Who are the ones who stand in the position of the indemnity sacrifice? It is True Parents.

Suppose there were a place where we could go and call on God in times of desperation and have Him put aside all that has happened during the past thousands of years to come forward so that we could form a relationship with Him. Such a place would be so valuable to us that we would not exchange it for anything in the world.

What is the bond that our Father has sent us so that we who are in need of salvation can be with Him, so that the humanity that is not qualified to be in the company of the Father can form a relationship with Him in relaxed surroundings? It is the bond of the True Parents.

How, then, are we to give thanks for this glory by which the bond of the True Parents has been given to us unconditionally? How much gratitude have you returned to God? In response to the grace by which you are now able to receive salvation, how much have you considered that you have been given the opportunity to be jubilant and take a vow of victory before heaven and Earth? How much have you realized that you are making a new start with unlimited hope and eternal values? This is the problem.

What about the Father, then? God our Father has had the earnest desire throughout history to find His sons and daughters, and He knows that this desire can be brought to reality through the True Parents who come to Earth. Because of this, He has longed for the True Parents tremendously! I'd like you to compare the two standards of longing that by the Father and that by you who are in the world of death and long to be saved from it. Normally, you would think that we, as opposed to the Father, would place greater importance on the True Parents, think of them more specially, and place greater value on them. Until now, though, this has not been the case. When we consider that this is how it has been with us, we must reflect with contrition.

In the same way that humanity has looked forward to achieving the position where we can be with God, establish a bond with Him, and stand face to face with Him, so has God looked forward to being in that position with us. Each of you must be able to say: "I will achieve such a position; I will lay the foundation for such a victory." The important thing is how strongly you have determined that you will overcome any difficulties no matter how great, that you will view this position as a turning point that determines all the values in your life, and that you will make this bond your primary motivating force. Considered from this aspect, we need to realize how fraudulent our attitude of faith has been. We need to see how much we have failed to establish our own positions, but instead have wandered as aimlessly as the wind.

If we ask ourselves whether we are qualified to be with the Father, whether we are people whom the Father can be with, the answer is "no." We are in need of a savior. Then, what kind of person is this savior? He is the person who embodies the bond of True Parents. From this perspective, then, you understand how extraordinary is the bond of True Parents. Because of True Parents, I am able to begin a true life, and undertake a relationship of new life. You must realize again that because of this relationship of life, you are able to initiate a new family. You can initiate a new society, nation and world. Also, the essential factors for the victory to resolve all the paths of life and death of the past two thousand years originate from True Parents.

There is no "self" there. God is not the one who must travel a suffering path in order to save the fallen world. God does not have to deal with the fallen world. Instead, God comes forward with a new bond of love. He comes to us with new hope and a new foundation for restoration. These are the circumstances in which the bond between God and me is formed.

It is a bond by which the four points of the compass can be brought into oneness, and it is linked at one point of origin so that it can blow apart the world of death and establish the foundation for a new

cosmos of glory. The world is able to make a new start as a result of the bond between parent and child being put into practice.

No sword or temporal power can break the bond between you and True Parents. Even the power of Satan will not break it. Why? It is because this bond possesses the special authority to break through all of today's problems and bring salvation to humankind, and because the power that humanity has sought to find throughout history has been concentrated in this bond. Thus, a power concentration of any particular age will not be strong enough to break this relationship, where historical power has been concentrated. In this way, the True Parents are people whom God has set forth as historical sacrifices for the purpose of doing away with all evil and making a new, victorious beginning based on a new bond.

I'm sure that in your prayers you have called on the Father just as if you had already arrived in Heaven. In the same way that the Father is in a serious position and miserable circumstances, however, I also should be in a serious position and miserable circumstances. I should say: "Father, no matter what sadness or difficulty I may face, You don't need to worry about me." In this way, you should do your duty as a child and comfort God. Unless one person appears on this Earth who can do that, there will never be a way to resolve the historical problems.

Even if we should find ourselves in extremely difficult circumstances, we should not stand before God and hope to receive His sympathy. Instead, we should stand in a position to give sympathy to God. Jesus was the crystallization of all the elements that were carefully accumulated through history in the context of this bond. Because Jesus was not able to complete the will of God, however, the returning Lord must accomplish this will. And the returning Lord must also go this course. That course is the course of the True Parents. The True Parents are the concentration of all the fervent hopes of history. God has set forth the True Parents to represent the whole and as conditional substantiation of history. The bond with True Parents cannot begin in spirit world. It must be formed on Earth. This is because the True Parents come to Earth in substantial form. It is because they have substantial form that the True Parents can answer when I call on them, and give me sympathy when I am in difficulty. You cannot imagine how blessed humankind is that it can meet True Parents on a level plane like this.

Until now, God has worked to overcome all the difficulties that might be faced in a particular historical age in an effort to achieve decisive victory centering on the content I have just described.

When I look at myself, however, there is the issue of whether I can become the king of victory or not. I have to be able to say that I have become one with that heart and have become completely inseparable from it. In other words, the pivotal axis of your life has to be the conviction that you are with the Father and that you are together with the True Parents. Only if each of you becomes the self that can continue on the same course for thousands, even tens of thousands, of years will a linkage be established between the Kingdom of Heaven on Earth and the Kingdom of Heaven in the spirit world. This means that you will be the master of Heaven and the master of Earth. Then, the Kingdom of Heaven on Earth and the Kingdom of Heaven in the spirit world will be opened up for the first time.

From this perspective, such a bond is not something that can be formed in a position of comfort. It is formed in a position of extreme difficulty; a position so serious that it could not possibly be any more

serious; a position where life and death are on the line; a position where there is an increased level of risk.

That is why if we look at the Bible it says: "Whoever seeks to gain his life will lose it, but whoever loses his life will preserve it." Jesus sounds as though he is saying something out of tune with the times, but this is the normal approach and attitude for going the way of restoration and for progressing through the world of heart. It is clear that each person is the self who must strive to achieve such a state, and that path will be the true course. (31-74)

### **5. True Parents' Request**

Many of you here have passed your fortieth birthday and are approaching fifty. Perhaps you will die within the next 10 or 20 years. When you come face to face with death, perhaps you will look back on the course you have taken after the point where you came to know God's will and ask yourselves what you have accomplished. What will be your answer?

How will you be able to keep from bowing your head in shame when you are in spirit world? Because of your failure to complete your responsibility to restore the five billion people who are still descendants of Satan, God still cannot claim his rightful place. Also, you have not been able to remove the servant-like mask of unsatisfied desire from His face. How will you go there and walk around with your head held high? How will you live there? You will just have to go hide somewhere. Everything about you will be revealed for all to see.

Is there anyone who can say he won't go to spirit world? Hold up your hand. No one? Do we all have to go? What will you take with you? What are you going to take with you? When a young woman gets married, there's something called a dowry, isn't there. In the dialect of South Pyong-an Province, the word for dowry is "sirari." Sirari. Sirari refers to all the things that a woman takes with her when she gets married and moves away from home. This is the first time you've heard the word "sirari," isn't it? [Yes.]

In this part of Korea you call it "honsu," don't you? Suppose the daughter of a poor family marries the oldest son of a rich family. Just to look at her own appearance she would find it difficult to present herself to all the relatives of the bridegroom. If she couldn't even take a dowry with her, then how could she go and live in a home shared by four generations where she would be serving both parents-in-law and grand parents-in-law? She's about to go into a household where the families of the groom's siblings alone would number close to a hundred. How could she withstand the ridicule if she were to go empty-handed? When her in-laws tell her: "According to our family tradition, so-and-so did this way, so-and-so did this way, Grandmother and all the other womenfolk did this way, and Older Sister did it this way, and so did everyone else, so what about you?" If she is seen as a failure in the family, how will she hold her head up high, or sit down to eat? How will she pick up a spoon?

It's terrible if you can't fit in with the group, if you can't be a part of the group. What will you take with you? When you say, "I've been a member of the Unification Church for forty years," they will say, "Well, what have you brought with your' Then, how will you respond? When they ask, "What did you eat? Where did you eat?" you may say, "In the Unification Church I just ate for free." And they'll say, "And

what work did you do? You didn't even do your share of the work. The people whom I attend as my parents lived their lives in such and such a way, but is that how you lived? Are you a filial child or not?" Do you think they won't question you like this? Even if you ask yourself these questions, these are the replies you will make to yourself. What is the position-what is your own authority-by which you will be able to withstand such questioning?

I have taken abuse from the whole world and received persecution. I've been through the worst torture in the world, but I can handle incarceration as easily as I eat a meal. That's the environment that I am in, but what about you? Are you just a spectator? Suppose a man did so poorly in his studies that he didn't even finish elementary school. When it comes time for him to get married, and he goes to the home of his parents-in-law, it turns out that his new bride has graduated from university. How embarrassed he will be in that case!

Is the spirit world where you are going a place that is worse off or better off than here? Is the place where you going after you die worse off than here or better off? It's a place that is tens of millions of times better than here. It's a world where each individual can easily see how he measures up in terms of anything having to do with moral discipline. It's a place where each individual feels the pain of knowing exactly where he is situated. If you want to go to another world you can see in the distance, then it will take you thousands, even tens of thousands, of years. just to raise yourself up one stage in the spirit world will take years. There is no limit to how long it could take. Ask them yourselves.

I will be going to the highest position, to the heavenly throne, but all of you will not be able to come with me. Because you received the precious thing called the Blessing, the door is open for you, but you can't go because you don't have the proper clothing to wear. Even if you've been invited to a feast, you can't go unless you have the proper clothing, can you? You've been asked to be a groomsman at a wedding, but you can't go dressed like you just finished working on the farm, can you? Think about it. You have to dress appropriately before you go. Only then will you be qualified to be welcomed into that environment. If not, then you will be thrown out. They will yell at you: "Get out of here, you rascal." You won't have any friends there.

One time many years ago, there was one rich man in Mokpo. He was so rich that he owned all the land in the northern area around the city. He was the richest man in Mokpo. Then, one of my friends was going to get married to this man's only daughter, and become a son-in-law of this rich family. This was during the Japanese colonial occupation, so almost no one could afford the expense of a modern Western-style wedding with the tuxedos and the formal gowns and such. Most of the time, the groom would just wear his civil defense uniform, make sure all the buttons were fastened properly, and stick a flower on his chest.

This rich man, though, because he was rich and had all these friends coming from Tokyo and everywhere, decided to have a modern-style wedding. And I was asked to be a groomsman. I was actually one of four groomsman there. The bride, too, had four bridesmaids. And so I went. Well, when the bride's family prepared the outfits for the groomsman, they figured they could make all of them to match the height of the groom. And that included the outfit that I was supposed to wear. In fact, the

groom was about the same height as me. But his body wasn't nearly as plump as mine. He was built really flat, like a piece of plywood. I mean he was really thin from front to back. I'm a bit thicker here from front to back. I have the build of a businessman, don't you think?

So when I put on the white shirt they had bought for me and buttoned it up, you could still see my bellybutton. My bellybutton! (Laughter) Ah, when I put on the suit, it was too small, so it spread apart like this. And the shirt stuck out like this. It was such an incredible hell for me to have to wear those clothes; I still haven't forgotten how terrible it was. Wow! (Laughter) I think that was an important lesson for me so that I could know how important it is, in terms of the course of restoring God's will, that I be able to fit in when I go to spirit world.

I had to stand in front of this huge crowd. Here was this groomsman, dressed like this, standing in front of a crowd of thousands of people, including everybody who was anybody in South Cholla Province. It was just terrible. I still want to cry out whenever I think about it. I would much rather have found a rat hole somewhere that I could crawl into. It was all I could do to stay there in my place and endure.

After a couple hours of this, my spine began to hurt. Because the clothes were too small, I had to keep a posture that put a lot of pressure on my spine. Then, I started to get muscle cramps. What was I supposed to do? Could I cry in a loud voice? I remember I went over to a wall that had been set up to block the wind. There, I bent over like this to massage the cramped muscles. Some of you are hearing this story for the first time, aren't you? It's the first time you hear about how I massaged my cramps.

It's terrible when you can't fit in to a particular environment. I know the spirit world well. I know all the saints and all the founders of religions who are in any way significant. They don't want to yield to you. You must not be shut out from that group. You should feel a sense of shame before me. Isn't that necessary in order for you to become true parents? Isn't that right? It just stands to reason. If you're just freeloaded, then about the only group you will fit into is a group of beggars. (212-224)

#### **Section 4. Father And Spirit World (Part 1)**

##### ***1. Father's Establishment Of Spiritual Conditions And His Foundation For This***

What you have to know is this. You have to know that the spiritual world is the same. I have not conducted all the providential efforts and events on my own centering only on the physical standard. Instead, I have done these things by attending to God in the spirit world. You have to know that the reason everything is being solved on Earth is so that the spirit world will be affected and all the divisions within spirit world will be broken down. If white people and the many black people were to become one with each other and become one with me in love and act in concert with me, then you would immediately become connected to the world of your ancestors, that is, the spirit world.

Why? It's because subject and object are one. It makes sense logically. That which is a complete negative automatically creates something that is a complete positive. That is the principle behind the creation of the universe. It's the law of existence. So, if you carry out a complete principled movement here, then spirit world itself will become connected to that. Do you understand? This is the first time in

history that something like this takes place. Therefore, if we solve the issues of spirit world here, and deal with them, then they come to a natural resolution in the spirit world.

Each time this is done, however, there has to be indemnity. You don't know what period we live in, or what kind of time this is for the world. I, however, am taking responsibility by myself before history and the universe, before the spirit world and the physical world to advance this task. I know the time when indemnity has to be paid. I know what happens in spirit world, and what happens in the physical world, when this is not sustained. Do you understand? [Yes.] That is why the bible says that what is loosed on Earth will also be loosed in Heaven. To resolve something on earth, there needs to be indemnity. This is the thing.

You don't know the way of indemnity. Do you realize that? I know the way of indemnity, but you don't. That is why, as I mentioned already, you need to rise to a higher level. There has to be the age of subject partner and object partner indemnity in the individual environment, the age of subject partner and object partner indemnity in the family environment, the age of subject partner and object partner indemnity in the clan environment, the age of subject partner and object partner indemnity in the national environment, the age of subject partner and object partner in the world environment.

You don't know this, but I do. That is why my words are reflected directly in the spirit world, are revealed there. (131-226)

Where do you think the Kingdom of Heaven has to be realized? It has to be done in the most miserable place in the world. So, where is that? It is in the bottom of the worst of all prisons in the world.

The problem is this: who is going to lay the foundation in the spirit world and the physical world? Rev. Moon of the Unification Church is going to do this. He does it by beginning in the worst place in prison. He started with the worst of all prisons, and has been working with spirit world to lay this foundation. Then, he has worked to widen this foundation. Then, he went out into society at large and did this in the family, then the clan, and the nation and the state. Then we did this in Asia, and then in the whole world, centering on the United States, which is the central country in the world.

I have to open the way for all people, so I have formed friendships with prisoners on death row, and I've walked around handcuffed to all kinds of thieves and eaten with them. In each case, I tried to comfort them. Some time ago, I went all the way to Las Vegas and prayed for the people there. All the people in the world. Do you know why the New Yorker Hotel in New York was purchased? It is on Eighth Avenue. In the future, my plan is to start with the worst slum in New York, and clean everything up and lay a new foundation. Do you understand what I'm saying? [Yes.]

I have to go there and mingle with them and give them comfort. Only by doing that can I open the way for all people in all walks of life, including the people of the satanic world who are on the path of destruction. At the same time, I have to open up all the things that are blocked in spirit world and pave the way in the physical world. Only then can the world be united as one. For this reason, I have to transcend race. I help white people get married, and I help black people get married. I buy a house for a

white person, and I buy a house for a black person. I'm a person who is doing things that can't be seen anywhere else in the world. (96-160)

I have triumphed in spirit world. There is no one else who can do this. The myriad spiritual masters in the world will have to come to me in the future and learn from me. Without fail, this is what will happen. Because of this, there is no problem if the entire 30 million people of Korea, or even the three billion people in the world, are all opposed to me. All the hundreds of billions of spirit people do what I tell them. But I will be reckless.

## ***2. Father's Patent In The Spirit World***

Let's talk now about how to build a bridge to the spirit world, and make it so that we can jump over there. You're interested in that, aren't you? Is this man Moon so-and-so who stands before you a Korean? Is he an American? Is he an Oriental? Is he a Westerner? Is he a Korean from the Orient? [No.] Why not? That's right, isn't it. But I do have one patent. All the elements of development in the modern world are connected to patent rights. All the patents are different. There are patents that have to do with making clothes, and everything else. Everything is patented. If you own a patent, then you can go anywhere in the world and exercise your rights as the owner. That's the way it is in the world at large and you should know that there is also a similar law in the spirit world.

There's no law that says that only white people can register patents. No law says that black people can't register patents or that Asians can't do this. No matter where you go, patents apply to every type of person. Do you understand? [Yes.]

There were many founders of religion and other religious people in history who tried to gain a patent on the spirit world. I don't know if there is anyone among them who possesses the champion patent. Wouldn't you like it if I showed that to you? [Yes.] How would you know if I showed you a fake?

How can you tell whether it's real? I don't know whether it's good or bad, but all of you who are gathered here have come together as one, and, instead of falling away, you are saying that you will climb up to any height. So, that's good enough, then. And what about God? Can He say: "Wait a minute, Rev. Moon. Look here now, you can't do that"? Even God gives His permission. Without my signature, it's no good. My signature. There might be something like that. Wouldn't that be nice? [Yes.]

There may be many great American presidents who are now in the spirit world, but it doesn't matter. Or even if there are kings, or saints, or founders of religions. When they need my signature, they will have to come and bow down to me.

If you want to receive a doctorate degree, you have to go to your master Ph.D. and serve him. If he requires it, you have to do even the most menial task for him, and if he kicks you, you have to turn and say: "Oh, thank you very much." No matter what, you have to get his signature in order to receive the doctorate yourself. You might want to say: "I'm better than him. I'm much better looking. I have a better nose, a better face and a better stature. If we were to wrestle, I would win. I can eat more than he can. I can beat him at any competition. I'm better than him in dozens, even hundreds, of ways. But he thinks

that he can withhold a doctorate from me just because I don't know a few things?" None of this, though, will do you any good. It just may be that I have a patent that is just like this.

Rumors were flying around this capricious world and many people thought that I would be destroyed and disappear. But because I have this patent, I'm holding my head high after coming out of prison at Danbury, and I'm speaking out loudly. I have antennae that let me see and hear everything. And when I find out, I speak out with a loud voice. Do you understand? [Yes.]

Even God will check to see whether Rev. Moon has signed off on a particular matter before making His decision on it. He will check to see if my signature is there, and if it's there it will be OK with him. But if not. . . (laughter)

It's easy to say, but think how difficult this is in reality. If, by chance, it turns out that I do have such a piece of paper, then all the physical world and spiritual world would be in the palm of my hand. Everyone in the physical world can't avoid going to spirit world, so we can conclude that one way or another everyone will eventually end up in the same place. (134-17)

Nature is filled with truth. You don't know very much about the spirit world, do you? This person you see here is an expert on the spirit world. Not just in the 21st century but even in the 22nd or 30th century, there won't be any way to open the door to the spirit world with, out me. Probably, my name will be remembered in history as being the first to develop a logical foundation for understanding how to open the door to the spirit world.

Even a spiritualist who considers himself to be the best in the world will have to come and learn from me. That's why I'm the founder of the Unification Church. Do you understand? The unification of churches. What kind of church? It's the unification of world Christianity. If they had listened to me, they would already be unified. If only they'd listened. (203-325)

Once I have made a declaration before the physical world and the spirit world, I can stop the way in which the spirit world has been selfishly using the physical world. Instead, it becomes possible for the spirit world to work for the sake of the physical world. Do you think that there is a way to do this? Do you think it's enough to restore the birthright of the first born beginning with Abel, and then make a declaration to spirit world, saying that from that point on they should cooperate with the physical world, and obey the physical world? If someone were to say, "Do this" without any content to back him up, do you think that it will be done? It's necessary to explain that this works in this way, and that works that way, and so forth. Only then does it become possible. Only then will North and South be unified and East and West be brought together. Everything, then, will come back in a bundle like this. (210-193)

### ***3. The Spiritual World Is Already Centered On Father***

If the spiritual world is not unified, the physical world cannot be unified. If there exists a Lord who can unify the spiritual world, what would be the problem to unify the physical world? It is not difficult. Nations are critical. From now on we even have to control spiritualists. The people who are spiritually open are all under my charge now. I am the head of spiritualists, so you should follow my words, not

their words. You should know this: they must come here to learn from me. They only know a one way direction.

For that reason, even if you receive messages from the spiritual world, you shouldn't think they are absolute information. If the spiritualists don't interpret their messages according to the Divine Principle and select the right direction, it will be easy for them to be on Satan's side. Do you understand? [Yes.] The spiritual world is testifying to Father and is following me now. Because I know about the spiritual world as a specialist, I can distinguish Satan's doing and I have been able to accomplish this much. That's why I haven't been destroyed. I am still here.

Think how many zillions of spirits are in the spiritual world. Compared to that, the population of three billion on earth is much smaller. Three billion people are not such a big deal. If only we go over the national level, we will be able to mobilize the spiritual world. When that happens, our time will be near. You should know that. With this kind of view, we can see the outlines for the future of the free world and communist world. Do you understand? [Yes.] (154-233)

Do you know what the Second Advent is? What is the Second Advent? [The King of Kings.] I asked you what the Second Advent is and you are telling me it's the King of Kings.

When Jesus was dying, he said that he would come back. Isn't it true that people are making noise because I came on behalf of Jesus? Am I better than or inferior to Jesus? [You are far better.] But, do Christians say that President Moon is better than Jesus? Have they ever been in the spiritual world? I have seen everything and I talk about it. I talk on that foundation, but those who don't know about the spiritual world are making such a noise! Well, when I said that Buddha was my disciple, Buddhists also made a noise. They are pretty quiet recently (laughter). I brought leaders of Buddhism to the United States and showed them around. When they went back, they said, "Wow, we misunderstood. He is better than Lord Jesus and Lord Buddha." That's what they say now. Am I inferior to Buddha? Inferior to Jesus? Do you know how contemptuously Jesus was treated while he roamed around at the waterfront of Galilee for three years like a beggar? He was treated with contempt and died.

Am I dead or alive? [Alive.] I was treated contemptuously but I have stomped on the whole world to overcome. Am I great or not great? [Great.] How great am I? (laughter) The entire world's people are so wretched. If people are not good enough and there is someone like Father, they should be grateful to receive seeds from that person. It means, to be in-laws, that they should receive seeds from my family, doesn't it. Do you understand? [Yes.] (186-183)

If you go to the other side of the world, how will it be? Do you think you will see people being happy, or people opposing each other? Murderers and their victims are all staying together there. Don't you think they are ready to fight, waving knives around for their revenge? However, there are many walls there. The many walls are blocking them. For that reason, evil spirits go to the descendants of their enemies and cause sudden deaths by accidents in order to fetch them to the spirit world. Things like this happen. They should all be freed.

In order to free them, the physical world should be freed. For that freedom, something good should be offered. If something better than dying or having enemies is not offered, they cannot be freed. What could it be? With what is the spiritual world liberated? With what is God liberated? All the bad relationships were tied by human ancestors and they have made such a mess in the spiritual world. Therefore, the descendants now confront their ancestors' mistakes.

However, if a person has inherited the proper tradition to be a filial son, he should pay back his parents' debts. Do you understand? In that light, who must knock down all the walls of the ancestors in the spiritual world? We have to work on it. In doing this work, we have to make our ancestors come down to meet us directly and make them teach us. This sounds like a dream but it's real. We are not people who live alone. Not alone. If I look around at you, I know what kind of people your ancestors are, what they did. If I start doing that, it gets dark. The faces of ancestors appear bluntly and disappear. At that time I can tell if the situation is good or bad. That's why I say we must unite religions.

What is the Unification Church? Through God and mobilize God for humans. I got stuck. If the owner comes to the customer to discuss about their party but the customer sleeps instead of being interested in the party, do you think the party will ever be successful? Well, that's why the World Federation has to be connected with the spiritual world. If you cannot control the spiritual world, you cannot control the physical world. The root of Heavenly fortune is the spiritual world. If you can, not control the spiritual world, how can you bring the results from there to the physical world in order to unify the physical world? For that reason, we have to unify the spiritual world before we unify the physical world.

In the spiritual world, I fought and took dominion over everything. People are getting upset because I said that Jesus was my disciple, Buddha was my disciple and Confucius was my disciple. Have you ever heard that their followers said, "President Moon is saying that Buddha is his disciple, Jesus is his disciple and Confucius is his disciple"? It's true! These fellows met me and had discussions with me. I said, "You didn't know these things, did you?" You have already met me. They have surrendered to me and they are trying to unify religions with Unificationism. That's why Buddha is bringing his disciples to me. And Confucius is guiding his disciples to me. You don't know such things, do you?

That's why you are immature. (laughter) I guess you felt bad because I said that you were immature. (191-205)

Every one of you who has ever met me in your dream, raise your hands. Everybody should meet me there. Oh, it's good! (laughter) There is no other organization like this in the world. Why has the Unification Church been able to accomplish worldwide growth centering on Father? No matter where our missionaries go, they can know things by feelings. I have told you a little about this, haven't I? I speak in many places every day and it causes me some confusion. (laughter) If I repeat to you the same story and you feel embarrassed, it's such bad manners.

There are many brothers and sisters who make their moves by receiving such orders from revelations. The communist world says that there is no God and they oppose the existence of God. Regardless of the country, the communist party tries to eradicate all religions. Under such circumstances, God has to prepare. For example, God has told a similar thing to one woman in a communist country and one man

in another communist country. For several years, God told the woman, "The man you will meet in the future is so and so. The place and the time to meet him is so and so." When she followed the direction to go to the place, she met him. She was told that she would meet him five years later in some place and the two of them met each other.

There are many such fairly-tale-like stories. If people have such experiences, no one will say that there is no God. If you experience deep emotions along with experiencing such facts, the feelings stay forever, transcending physical life. Do you understand? [Yes.] The experience of having passed through your life while loving God and longing for True Parents will leave an impression that will be kept forever. It is the center of our lives. Then, at the border of the spiritual world, walls and partitions will instantly disappear. We can go there directly.

Do you know that God exists, do you believe it? [We believe it.] Does believing come first, or knowing come first? [Believing comes first.] Which is better? [Knowing is better.] You should know. Believing is far from the facts and knowing is identical to facts. Well, talking about the religious life, do you actualize religion in your life? Your realm of realization should be expressed in your religious life. How proud we can be to live in connection with the substantial realm that is actually expressed, not internalized! We should be thankful. There is such a state.

Raise your hand if you think that the spiritual world doesn't exist. (laughter) There is no mistaking that the spiritual world exists. God exists for sure. It is so powerful when your entire feeling is controlled by the realization that God exists, no matter who denies it. That is the heart that belongs to the world of God. No matter how much hardship that person goes through on earth, the person with that heart belongs to the nation of God. That person is His child. Everyone, ask yourself if you are in such a state that you would never change your heart, no matter how difficult things may be. What do you think? Are you in that state or are you not in that state? [We are in that state.] You should reach there. It is a hard task.

When you climb over Satan's ramparts and enter the Substantial World, everything will be proven. If you cannot accomplish it, it will be like going across the bridge of a castle but not entering the castle. Unless you enter inside, you won't know anything. No matter how many times you look at it, it won't do. Entering into it surpasses millions of dreams. (224-108)

#### ***4. Unity Centering On True Parents***

Freedom is related with perfect numbers. Among long things, long life comes first and calls for a most wonderful imagination. A life itself is a long distance and with a long time and a long life, it is no problem to control and regulate the long distance. There is no time, space or distance there. Do you understand? There is only the power of True Love which is the center of that place. Can you completely understand such a world of love?

I understand how entirely precious that place is, and that the center of that place cannot be replaced for anything in the world. I made some reconciliation after I proceeded into the spiritual world and I became one with True Love. Then I traveled back into the history and came to understand the

providential mission of Abel and Cain and the first birth right, namely the first birth right of the Heavenly King. Do you understand? I have also come to understand the parents' right, kingship of parents and True Parents who are the center of the family and parents. Do you understand? That place is unified centering on God and True Parents, and the spiritual world is unified centering on True Parents. (217-287)

### ***5. The Spiritual World Has Accepted Father***

Well, do all the leaders in the spiritual world know Rev. Moon, or don't they know him? [They know him.] Why? Why do you think that they know? [We know it very well.] (laughter) There is only one person in history, who has received worldwide persecutions throughout his entire life, in the name of religion. That is none other than Rev. Moon. Do you understand? I am the number-one person in history when it comes to being persecuted on the worldwide level. Number one. I am in the world class of the religious world. I have received world-class persecution. I am the champion of that. Is it true? [Yes.]

Why is it so? The spiritual world says that Rev. Moon is the champion among those who have received persecution, and even the physical world says so. Can you say that it isn't true? Yes, you too know that, don't you? [Yes.] Your mothers and fathers have opposed us and they know it well. Isn't it true that the whole world knows Rev. Moon is the number-one troublemaker? Am I the number two or the number one in this area? [The number one.]

So, even in the spiritual world, when Rev. Moon is mentioned, they say, "Wow!" and they cannot raise their heads in front of Rev. Moon. It's normal. Do they lower their heads to me, or not? [They lower their heads.] They lower their heads and bow down to me. That's a fact. Next, what's precious about the Unification Church, and what's precious about Rev. Moon? What are they? What are the assets that Rev. Moon possesses? What is he proud of? What is his pride? What is his pride, and what makes them say, "We are happy to have you here, please go up there r' [True Love.] [God.] God. I know God.

I know more than they know in the spiritual world. This is critical. There are so many people, but I am the one who knows God's heart. So, who likes me the most? God likes me the most. This is important. God loves me. Do you agree with that? [Yes.] Look, where will I stay when I go to the spiritual world? Will I stay in the bottom of hell, or the top of the spiritual world? [At the top.]

I don't desire to be on the top. Because I don't want to be on the top, therefore I will go down to the lower places, but they will drag me, by pulling my legs upside down out of there. Will the spiritual world say, "You wretched Rev. Moon, how dare you want to go on the top." No, they won't. They will give me applause. What do you think? Will they welcome and applaud me? Or, will they say, "Yuck," and hate me? [They will welcome you.] It doesn't sound real, does it? It's a lie. It's a big, fat lie. What? It's not a lie? [No.] Why? For what reason you would say, "No?" Everyone says, "No." Then, is it a historical event that today people like you are here in front of Rev. Moon to listen to his speech or not? I mean people like all of you. [It's a historical event.] It is a historical event. (laughter) Have you ever thought about it before you came here? You came to understand it because I told you.

Catholic priests and nuns pray throughout their lives. Even if they pray in tears to the point that their knees are scarred, they cannot meet the lord. They may meet Jesus and get some guidance from him. Nevertheless, you come here to listen to these words. It's a historical event. Whether you give me any qualifications or not, I have already acquired all the necessary qualifications. If you want those qualifications, suit yourself. Where are you Moonies heading for in the spiritual world, if you live well on earth? Also, do you know that there are many things that Rev. Moon has accomplished? Those scholars with arrogant attitudes who don't listen to anybody, I brought them one by one and made them one. Also, I brought all the religions which are fighting together into one. As for races, I brought antagonistic races together and held a worldwide mass wedding. These facts have never happened in the past history. Everything Father has done has never happened before in all of history.

Considering all that I have done, it is way beyond all that the spiritual world has done. I have worked harder than anybody. You admit it, don't you? Well, will the Unification Church be at the bottom of the spiritual world, or in the best spot on the top? [Best spot.] It's a lie. It's all made up by Rev. Moon. [No.] This is a very serious issue. (146-333)

#### ***6. You Have No Excuse To Deny Spiritual Experiences***

I have researched all positions in heaven and earth and visited the back alleys in the spiritual world, and found a simple truth. The truth is a simple thing. It's simple. Then what is it? Two of them get together and crush each other and the flesh between them is torn and falls off. When they are absolutely united, they become slanted and create a vacuum. The inside gets united with the woman's inside and this place becomes a wick like God's bone marrow. Two pieces of man's love and woman's love get stuck to this place. This is the core of the universe.

The ideal substance of love is united with heaven and earth in harmony, and it becomes the foundation of the axle of love. In order to establish this God stirred the air zillions of years ago. (170-171)

Father knows so much about the spiritual world but he seldom speaks about it, does he? If I speak about the spiritual world, it will make you insane and spoil many things. You women would say, "Oh my impossible husband, why should I live with that person for such a long time? Why don't I go to Heaven quickly? The Heaven that Father spoke about looks very good. If I go to the spiritual world quickly, I will enter Heaven." You cannot enter there. Unless you educate your husband and put him under your command, you cannot go there. (182-61)

Even though Father has so many spiritual experiences, he never talks about it easily. You don't know if I have spiritual experiences or not. How do I deal with them? I reconcile them with the truth. By taking the golden mean with reason and constantly going along with the direction of providential view, I can develop the progress of the spiritual world and physical world, the world of truth. You must know these things. In order for you to do that, you should bring the facts, the way the Spiritual world works and the relationship between spiritual world and truth, into your life. Your faith should be one with truth. They have to make a harmony. Because we, humans, are the same way.

#### ***7. Father Goes To The Spiritual World, Too***

Many people have gone to the spiritual world while following me. I have had my followers infiltrate into all of Russia's satellite countries and main cities. Sometimes I hear the reports that some of them are sentenced to death. When the leader hears that kind of report, his sense of responsibility gets really keen. Even if his son is seriously ill, he has no time to worry about him. They respect me because they respect the world. I am in the position to shed tears for them and care for them. For that reason, I can't live an easy life.

For I have to go over all of the peaks I can go over and do my best with my responsibilities, I cannot rest even one day and I cannot stop even if I want to stop. As I have spent my days that way, I have passed 60 years and come close to 70 years old and I will go to the spiritual world someday. What will be left on the back side of my life? The fact that I loved mankind. There will be nothing else. The fact that I loved countries and I loved the Unification Church. Even if there is anything else, it will be washed away with the perishing of history. (136-135)

#### **Section 4. Father And Spirit World (Part 2)**

##### ***8. Heung Jin Nim And The Spiritual World***

###### **1) Heung Jin Nim's Seung-Hwa and Establishment of the First Birth Right**

By my son Heung Jin Nim going to the spiritual world, what happened to heaven and earth? Angels and Abel which had been separated as earth and heaven got tied together like twins. I created such a scheme. If they become one, parents will be mobilized on that foundation. It is the Principle view. Heung Jin Nim is the Abel-type son. You have to know that this son went to the spiritual world while Father established indemnity conditions in the Dominion of the Principle on the foundation of True Parents' love.

He went to the spiritual world in the position of direct dominion on the victorious foundation of indemnifying Satan's dominion. For that reason, he had the condition as the first son who went to the spiritual world with the qualification of perfection for the first time since the Fall. Originally, if those who are in the spiritual world didn't fall, the Dominion of the Results of Principle would have become one with the Direct Dominion based on the realm of True Parents' heart and they would have received the qualifications as masters or sons centering on love on the family foundation. It is the Principle that you cannot go there without the proper qualifications. Do you understand?

After Jesus, Jesus and Christianity has not passed that point, so that they were all in the midway position. Now, because Heung Jin Nim has gone there, a center was established where they could be engrafted to God. I gave the blessing there, and because their spouses are on earth, they can experience life on earth as well. Do you understand what this means? Centering on Heung Jin Nim's family, the spiritual foundation on which they can visit their family on earth has been established. You have to know this. It's so valuable. It is most valuable that the foundation of Heung Jin Nim's family was established.

At the time of Jesus, if this kind of work was done even though Jesus had to die, Christians today wouldn't need to sacrifice that much. But there is no other way. Why? Because the realm of True Parents' heart couldn't eliminate Satan in the Dominion of the Results of the Principle and convince Satan to establish the foundation of love in the Direct Dominion, Jesus had to come again. But Heung Jin Nim doesn't have to come again. Do you understand? You must know this clearly.

What will be changed? It is important. They live both in the spiritual world and the physical world. Now, what will happen? The spiritual world and the physical world have become like twins. In the light of the realm of heart, Parents are in the first son's position. By generation, vertically, they are on top for the first time. It means that Heung Jin is the second generation. He is under me. Do you know what I mean? However, it will be reversed.

When we look at Father and Heung Jin Nim alone, I am in the position of the elder son and Heung Jin Nim is underneath. Father is in Cain's position and Heung Jin Nim is in Abel's position. What happens to this relationship in the spiritual world? Heung Jin Nim is the eldest son. He is in the position of the elder son and other spirits in the spiritual world are all in the position of younger brothers and sisters. Based on the realm of heart, it works this way. You must know this very clearly.

On earth, as God is our Father, based on his position, Father is the elder son and Heung Jin Nim is the younger son. From God's position, it is so, isn't it? In the spiritual world, Heung Jin Nim is the first one to be born based on the realm of heart and all others are younger brothers and sisters. People in the spiritual world are in the position of younger brothers and sisters. It is reversed.

The conclusion is that the heartistic standard of the first birth right is to be enforced on the principle position. Do you understand what it means? You have to teach this point very well when you give a Principle lecture.

Among all the spirits in the spiritual world, even Jesus and the saints, Heung Jin Nim is the first one to be born as the eldest son based on the realm of heart in the spiritual world. Based on the realm Of heart, Heung Jin Nim is the elder son and the next one to be born is the second son. Also Heung Jin Nim can transfer the first birth right to the second one. Satan doesn't transfer anything. Satan doesn't transfer anything but steals everything away, but Heung Jin Nim with the first birth right tries to transfer all of the blessings on Earth. That's the way he is connected. He transfers everything. Satan, until now, and the Satanic world have tried not to transfer anything, but Heung Jin Nim tries hard to transfer everything. (131-52)

## 2) Until Now, the Center was Missing in the Spiritual World

From now on, people of the free world should love Heung Jin Nim. Because he has established the title to have loved the whole world by offering his life, the destiny to love the world with his life is connected to you all. Who did he substitute to go to the spiritual world? He went to the spiritual world instead of Father. For that reason, if you love Heung Jin Nim, it means that you love Father. That condition can be made. There is a connection between loving Heung Jin Nim and loving Father. Do you understand?

In the spiritual world, there hasn't been such a center until now. There wasn't any center where the spiritual world was connected. Because of Heung Jin Nim, there is now. All of the spirits who love Heung Jin Nim can make the condition to love Father. Do you understand what I mean? Also they can be connected with the Unification Church. By being connected with the Unification Church, they can establish the standard that they fought with their lives on earth because Heung Jin Nim is the first representative in the spiritual world in history to be connected with true love.

On Earth, he has become an example to the Unification Church members by loving through the sacrificing of his life for the sake of God's will. What he is telling you is to love Father. You must go on loving Father for the sake of the world. By Heung Jin Nim's being in the spiritual world and the spiritual world's loving Heung Jin Nim, they can establish a relationship of love with True Parents on earth. Do you understand? You should know this clearly. For that reason, in the spiritual world, now is the happiest time in history. The happiest days. Heung Jin Nim is the one who opened the gates of the spiritual world as the Messiah of love. On earth, he opened the way of the standard of martyrdom. That's why the Unification Church members should love Heung Jin Nim. You should love him. From both sides, those in the spiritual world and in the Unification Church, love Heung Jin Nim.

Now, what happens to our True Parents? It is important. What should True Parents do? In order to welcome the love of God and the love of earth, they should be honored to offer their own son. They should be proud of it. Also, in Rev. Moon's generation, God had loved this son. He couldn't love teen-aged Adam and Eve but he can love his son in the spiritual world. They should think that they sent their son to comfort God's heart for He worked so hard to restore the national level. So I prayed, "Please indemnify the fact that I couldn't offer the glorious love of the Korean foundation when I was young, that I couldn't offer the comfort of the world-level foundation established by indemnity in my generation, but through this son. Please accept him as being in my position."

Since the spiritual world loves him and the earth loves him, I have to set a motto that True Parents should love him. Heung Jin Nim died for sure but he will establish the realm of resurrection; that's how I think. He went there through his death, but he will resurrect people through his death. He will capture the spiritual world and the physical world, and he will proclaim the realm of resurrection. With this, we will bid to the realm of death. For that reason, you shouldn't be sad at funerals. You shouldn't be sad at all kinds of ceremonies. So, from now on, during Heung Jin Nim's ascension from the physical world, Father will establish a special ceremony centering on the spiritual world and the physical world. It's very complicated to explain in full. (130-202)

### 3) The Blessing of Heung Jin Nim and the Establishment of Kingship

Right after the Unification Ceremony on the day before Heung Jin Nim went to the spiritual world, I prayed, "Even though you are leaving the physical world, please accept the adopted son and participate with him as if you are here on Earth." I made a promise to him. For that reason, I have to give him the blessing on earth. Without the blessing it will be impossible for him to do the job. I made the promise then. You should know that God has sent the Messiah to save the physical world and today, in order for True Parents to save the spiritual world, I have presented a prince of love as my ambassador with full

authority. Why does Father try to establish such a world-level foundation? Even Jesus couldn't be in that position. You should know the fact that, for the first time in the history, God has a teenage son whom He can love. Because of this event, God can finally love. You should know that God can love now.

Also, Father now loves centering on the foundation of the physical world. Because of this, the two worlds are connected. Because the fallen world was in the realm of fallen love and the realm of Dominion of the Results of the Principle, there was no connection with the love of True Parents until now. You have to know how amazing it is that this has finally emerged in the spiritual world. Now, what happens when he goes to the other side? Because he was born as a Korean, he is the representative and the fruit of late Korean Kings. Such kingship in the spiritual world is Heung Jin Nim's position.

From this view, in relationship to those late kings, even though Heung Jin Nim is young in age, he is the Abel of kings. We will know everything about the spiritual world, just as we know about the physical world. The two worlds will be absolutely one. Then, what happens? When Cain and Abel become one, parents can reside on the basis of that foundation. Therefore, heavenly parents can work there. Heavenly parents gain the right to work. On account of Heung Jin Nim's kingship and Korean kingship becoming one, a kingship and sovereignty centered on Korea has been formed. Do you understand?

After that, they stand in the realm of National Abel, all of the national kings stand in the realm of Abel. In the spiritual world, unity is achieved instantly. You don't know this because you are on earth. Therefore, with all kingships, centering on Korea, 120 nations can be completely united. The people who can be Abels in front of the kingship, those who believed Judaism or Christianity and died, were prepared to serve the kingship, so that all Abels in the spiritual world become united accordingly.

There is one problem here. If Heung Jin wants to establish the kingship, he cannot do it alone. Finding the queenship is important. This is the first issue. We should know clearly why we have to set up this kind of scheme. In order to combine kingships in the spiritual world, a spouse must be found where they were kings with their queens. What happens with Hoon Sook Nim is that because his queen is on earth, by being connected with her he is connected with earth where he can bring over people from 120 nations who belong to the kingship.

Well, in this scheme, not only Heung Jin Nim but also all of the kings who belong to the united kingship can follow him to the earth. Therefore, we have to know clearly that I had to provide this ceremony because he needs his queen. On the outside, people who oppose us will raise their opposition by saying, "Rev. Moon is a crazy man and a crazy leader." I am doing this to send Heung Jin Nim to the spiritual world as the representative of love to work on behalf of Father. For that reason, today, 50 days after Heung Jin's Seung-Hwa, is the same as the day of Pentecost and it became a worldwide event. Today, what happens with Miss Hoon Sook's marriage is that kings from 120 nations will visit this room and resurrect to establish the worldwide movement. You must know that today is the day that represents worldwide Pentecost. So, the kingship of 120 nations can reside on earth. They can be one with the physical world. This event has two such incredible meanings. Therefore, if there is one nation that can serve Father among 120 nations, the gate of Heaven will open from there. Also, it is well known by the

media, scholars and the intellectual class that Rev. Moon and his Unification Ideology have surpassed both the communists and democracy. (131-114)

#### 4) Era of the Blessing of the ideal Object

Only if all spirits in the spiritual world make a relationships of love with True Parents who have a root on earth, can the realm of unification of Heaven and the spiritual world be established. Among those who are in the spiritual world, there isn't a single person who went to the spiritual world while being engrafted to the root of love of the True Parents. That's why Heung Jin Nim is so important. Heung Jin Nim is the second son of True Parents. He was born on earth and lived until the age of Adam, 18 years old. He was born as the son of True Parents and went to the spiritual world while connected with the love of True Parents.

Is Jesus there with the connection of love centering on True Parents' root? Because Jesus doesn't have a connection with the love of True Parents, he cannot support the Unification Church where True Parents are working. Do you understand this? So, I have to reconcile this matter. Because Heung Jin Nim went to the spiritual world, Jesus became the old Messiah and Heung Jin Nim became the new Messiah. On account of that, Jesus serves my son centering on True Parents' love and the two of them are now united, through the realm of True Parents' love. The spiritual world is able to manage and control the physical world, centering on Jesus. The path to reeducate all people who believed in Jesus, even those who are in hell has been opened. With all these processes, finally kingship in the spiritual world can be established.

True Parents came to earth with kingship centering on the spiritual world and the physical world. In order to connect it to the spiritual world, it is necessary to establish the foundation of unification in the spiritual world and connect that to the kingship foundation of the spiritual world and Formation of Growth Stage foundation. If this is not accomplished, the spiritual world cannot participate in the place where True Parents established the standard of kingship. For that reason, I have to prepare. Originally, the spiritual world was the place that was to be unified and connected centering on the love of True Parents but it has been partitioned by walls everywhere. Because Heung Jin Nim and Jesus became one, Jesus can visit here through True Parents' family.

With Heung Jin Nim's blessing, because his spouse remains on earth, a bridge of love was built between earth and Heaven and now Jesus can come down to support True Parents' family and the Unification Church. Because this gate was opened, Christians centered on Jesus should unite with the Unification Church. That's why such things are happening in America. How come the established churches that until recently opposed us are mobilizing many Christians and entire churches in a united body, putting the Unification Church in Abel's position? Although the established churches are in Cain's position, the elder brother's position, they put the younger brother in the position of the elder son and return home. Because they know that they have to return home with the younger brother with the eldest son's rights in front of them, they serve the Unification Church and the spiritual world. All spirits who believed in Jesus support Adam and Eve going through the process of recreation, in the position of Archangel which supports Heaven. The Archangel follows them to that place in order to support Adam and Eve and give

support to the federation activities of the Unification Church and the established churches. Do you understand? [Yes.]

So, what happened in the spiritual world, as the unification of the realm of heart in both the physical world and the spiritual world takes place, is that all of the late Christian generals and kings who were partitioned by their nations are now being connected. These works that are taking off in order to achieve the realm of unification centering on the realm of God's love and transcending the nation were impossible before. By connecting the realm of heart in the physical world and the realm of heart in the spirit world in order to establish the realm of unification, you can enter into the era of blessing where you can achieve the realm of object. Why? Because I gave the blessing to Heung ,Jin Nim and Hoon Sook Nim.

As the era of the blessing of ideal object enters into the spiritual world, the ideal object manifested by late generals is presented to his loyal subjects and they cooperate to unify all the subjects centering on the president of the nation. The era of the realm of the work and the realm of the heart of True Parents has come and now it is the time when the kings of the world can join the Unification Church.

Now, these current presidents are connected with the Unification Church. If the three nations unite with each other, things will go easily for the world. Until now, all the passages to connect God's love with the world and Heaven centering on True Parents have been blocked. These passages were opened by opening the gate between hell and the spiritual world. Hell comes before the spiritual world. As hell in the physical world is this world, we have to work for unification centering on the foundation of religious unification and world unification. Now it goes in the direction of connecting the world into one centering on the unification movement with South and North American Unification Organizations and Religious Conferences. We are entering the age when all races and all religions can jump. Do you understand? (140-54)

In Father's time, the secrets of the Bible have all been clarified. We know what chapter of the Bible is being accomplished now and what time we are in now. Everything will be done according to Father's words. Do you understand what I mean? [Yes.] We are in such a chess game. If you don't know how to play chess, you won't understand. Although the chess game has been over in the spiritual world, the paths to move nations around are blocked in the physical world. For that reason, an offering was needed and Heung Jin Nim accepted the mission. If I speak this way, it's understandable, isn't it? Jesus died at 33, so that people over that age can receive the blessing but the people under that age cannot receive the blessing. Jesus died alone. He is in paradise now. How can we liberate him? It is a very complicated process to explain. If you know the contents of my prayer at noon time, you will find the outline. If you want to know that, listen to the audio tape of my prayer. Then, you will know what happens in what kind of providence. Nations, states and other things are all included here. Simply speaking, it is the outline.

It is a different work. Because of that, the providence of restoration emerged. It shows how the nations should be connected. Because Jesus could not accomplish his responsibility to unite the nation and Judaism, and connect it with Rome, we should indemnify that. We have to liberate all the resentment.

There is nobody but my son who can do it. Do you understand? [Yes.] He was able to inherit the foundation of spiritual salvation and physical salvation. And he completed the undone part on earth.

We should know that Heung Jin Nim was in between the open gate of the spiritual foundation that can connect the whole world and the open gate of earth in order to accomplish his responsibility to connect them. Jesus appeared to our members in England several times and told them, "I am the old Messiah and Heung Jin Nim is the new Messiah." It is very strange. Why is it so? How come? If you don't know the truth, you would say that it's insane. Because of that, it has come to the era where the spiritual world and the physical world are connected, the wall that partitioned Christianity and the Unification Church has crumbled and problems between America and the Communist countries are resolved. How come Christians in America who were strongly opposed to the Unification Church until a few months ago are now in the movement to support the Unification Church and are saying that they would go to jail with Rev. Moon? It is hard to imagine in human terms. They used to try to kick Moonies out and spit on us but now they are with us. (applause) (134-19)

Now, Heung Jin Nim is blessed. Because he has the foundation of a blessed couple, the walls have crumbled and spirits in the spiritual world who were all disconnected can now meet and collaborate with each other to achieve unfulfilled desires on earth. Do you understand what I mean? It happens through the realm of the heart. Because True Parents have a foundation of indemnity, the realm of the world that True Parents have indemnified belongs to the realm of True Parents' dominion, and that the people who are connected with that realm of heart can participate in the realm of domination that was established by True Parents on earth by being one with Heung Jin Nim centering on True Parents.

The physical world already belongs to the realm of True Parents' dominion. Do you understand? It is natural law for children to inherit their parents' possessions. On account of this, the spiritual world and the physical world, the twins of inside and outside became one. The realm of heart that can make the twins of inside and outside one was established. On earth, Cain and Abel became one centering on Father but this case is the opposite. That side was the eldest son, but now it becomes became one with Abel, and the spiritual world became the second son. As soon as Heung Jin Nim arrived there, inside and outside became one. Do you understand?

On account of Heung Jin Nim's arrival, disconnected late kings can be connected with the realm of their subjects. Because of this incident, those subjects with good heart are connected with the realm of the family; with that connection, they will be connected with the realms of the unification of tribe, race, nation and world. You should know that it will happen in accordance with the physical world. In spiritual world, the order is God, Heung Jin Nim's family and you. In the physical world, it goes God, True Parents and True Parents' family. It's important. It is connected. (331-54)

## 5) Resurrection Work through Heung Jin Nim

Satan killed Jesus and it seemed to end the actual work of Jesus, so Satan thought that killing Heung Jin Nim would finish everything. However, True Parents and God have established the resurrection of substance. That kind of plan was created. Jesus was killed but he was resurrected and matched to the

Holy Spirit to become spiritual True Parents. This was a great threat to Satan. Even Jesus couldn't imagine this. They became spiritual Parents. He looked forward to coming back 2,000 years later.

How about Heung Jin Nim? Satan killed Heung Jin Nim and thought it was over. However, God provided a blessing immediately afterwards and established the foundation on which Jesus could resurrect 2,000 years later within 40 days. In this instance, he completed the 400-year indemnity course in 40 days. It was the same thing as if he came again and was blessed. For that reason, the spiritual world which was torn apart is completely mended now. I have done the work that I would have done when I go to the spiritual world, while I am living.

On account of this blessing, holy spirits from 120 nations will reincarnate. Hoon Sook Nim is the same as the Holy Spirit. They emerged on earth and the reincarnation of 120 nations is established in this ceremony. It is the same as the 50 days of Pentecost and 120 nations will descend with their kingships. You must know this. I sent him as an ambassador plenipotentiary. An ambassador with absolute authority. Heung Jin Nim has become a king in the spiritual world and leads 120 national kings.

If one of the Unification Church members becomes a president, the spiritual world will work at the time of election. 120 nations are representatives of national type with the 4,000 years foundation that Israel and Judaism waited for the Messiah and John the Baptist type. Now the realm has been established in the external world where John the Baptist type kingship nations centering on Father and the central nations can be connected. (131-146)

You should start to think like this. This is the time to work with the heart that you are going beyond the Cross. Do you understand? We have to accomplish the providence in which 120 nations are ready to go beyond the Cross of Jesus. I have worked this way. That's way I can connect to 120 nations. Heung Jim Nim is doing this job, too. He is connected with 120 nations. You have to do the same job. Because you have physical bodies, you have to work with that kind of thinking. You should think, "Heung Jin Nim is doing the job on behalf of us in the Son's position." Heung Jin Nim can connect with 120 nations freely but you cannot do that. Unification Church members are second sons of True Parents.

Spiritually speaking, Heung Jin Nim is a brother to the Unification Church members. Do you understand? You should know this. You should think that spiritually you will become one with him and work with him, Heung Jin Nim is a spirit that travels freely and you have substantial bodies. Substantial bodies have limits. You cannot visit 120 nations freely with your bodies. Because Heung Jin Nim is free, he can travel freely. You will become one with him centering on that, and 120 nations will automatically be connected. Keep this concept. Do you understand? [Yes.] That's why you should think of and pray for him.

When I pray to God regarding Heung Jin Nim, I ask God to support him in doing this job and ask the spiritual world for support. I prefer the support goes for you rather than for me. What I want for Heung Jin Nim is that he can work to support you completely. Do you understand that? Incredible things are happening. (131-155)

After the Science Conference, I ordered representatives of the world, a core party representing the Christian Cultural realm and highest scholars to turn around. Then the 72 PWPA chairmen turned around and gathered in Korea. They made a gesture that absorbed the Korean people completely. I have found them. Now I have found them. During this rally, Korean people became completely one with Father and we have gained seven million members as of yesterday. It is this condition that made the free world one. Those chairmen were about to leave for home after the Science Conference. It was almost impossible to give such an order then. They came and even signed the declaration on December 18. It was a big problem for the Satanic world. It caused a big incident.

If I didn't know such truths, Heung Jin Nim would only have died in misery. They thought that when Jesus died it was over, but he established a new spiritual realm. In the same way, Satan thought it would be over after hitting Heung Jin Nim, the second son. However, Heung Jin Nim established the new domain of substantial world. You must know this. How could it be possible? Because True Parents paid indemnity for him on the foundation of world-level indemnity, he is the representative of True Parents in the spiritual world in light of the Principle. You should know this. Even Jesus couldn't pass the True Parents' indemnity foundation, before he found his bride. Only Heung Jin Nim. Jesus became Cain and Heung Jin Nim became Abel, and the restoration of the eldest son was completed. Do you understand what I mean?

I restored the eldest son in the spiritual world. By doing this, I straightened out the spiritual world and the order of the spiritual world was established. For Jesus, it took 2,000 years to be able to find his bride and be blessed to her in the position of the spiritual king, but I helped Heung Jin Nim to complete this in 40 days. Because he was blessed within the Pentecost, he didn't have to go through 2,000 years of hardship like the Christians. On account of that, Heung Jin Nim. was immediately able to unite the physical world in connection with the spiritual world to enter the realm of True Parents' love. With a Korean king at the center, kings of all nations are gathered and I made a foundation that can connect the kings with beloved patriots and loyal subjects.

There are so many different races and blood lineages in the spiritual world but the realm of unification is established by Heung Jin Nim. They will be connected with the physical world and visit their descendants with the standard that the spiritual world is united. In the future, all of the late presidents will work spiritually, so that the persons who believe in and accept the Unification Church can be selected. We have to know well that we have entered the era in which 120 nations reincarnate and emerge. When was it seeded? Two thousand years ago, when the spiritual Mother and the spiritual Father were established, 120 disciples were anointed to be seeds for the nations. It is connected with the realm of Christian Culture and this realm is resurrected and the realm of harvesting is established. It indemnifies the past realm of Christian Culture that couldn't be offered to True Parents and by presenting the realm of Christian Culture and the realm of victory of the Democratic world, the worldwide realm of the Unification Church and the realm of victory of the spiritual world to True Parents, we can enter the united realm of the heartistic world. Do you understand this?

This is to indemnify the Pentecost. Re-indemnity. It is re-indemnification with harvesting. The spiritual world is united by the realm of unification centering on 120 spiritual kingships and they can reincarnate

in 120 nations. This is the same as the unification of 120 disciples in Israel centering on John the Baptist at the time of Jesus. Kingships are reincarnating. Where do they reincarnate? In their own nation. Do you understand? They reincarnate in their motherland. On the foundation of 120 nations, they all work to connect to True Parents who are the center. This is the same situation as when the realm of the Christian Culture was the center of the realm of world culture. (131-198)

## 6) The Authority of Heung Jin Nim

The meaning of the Day of Victory of Love is to defend against the realm of death where Satan invades centering on the realm of the family. With what do we make our defense? With love. Heung Jin Nim was almost dead. But before he died, I realized that he was dying in the hospital. At that time I couldn't get caught up by the thought that he was dying. I had to deal with this situation. Time was limited. I had to complete the process. That's why I held the Unification Ceremony before he left earth. It meant that Father and you are one. Do you understand?

Because Father and Heung Jin Nim are one, as long as Father is alive, Satan cannot control him. By offering Heung Jin Nim, all kinds of invasions by Satan against the Unification family were blocked. The realm of the spiritual victory, God's offering in the spiritual world centering on Jesus, was connected with True Parents' offering of their beloved son on earth. So, everything is accomplished on earth.

Centering on the realm of the physical substance, the father-son relationship is connected with the Heavenly ideal of father-son relationship in spiritual world. Now that bridge between the spiritual world and the physical world is established. The time has come. This is the time to go over the 21st year. In order for all spirits to go to Heaven, they should receive love from True Parents on earth. Don't you think so? For that reason, although Satan is opposing us, Heung Jin Nim went to the spiritual world on the foundation of the victory of the Third Seven-Year course.

The realm of True Parents doesn't mean only the family realm. They have gone over the conditional standard to set a worldwide condition of indemnity over the national standard. Because of that, Heung Jin Nim in the spiritual world is the eldest son. Do you understand? He was completely loved by True Parents and he went there to make a connection in the spiritual world as a representative of love centering on True Parents who represent kingship on earth. Consequently, Heung Jin Nim does all the work on earth, which was supposed to be done by reincarnating. He doesn't reincarnate but ascends to Heaven and connects the authorities of earth with the realm of victory of the spiritual world.

Nowadays, spiritualists say that Jesus, who used to appear alone, recently has been making appearances with a Chinese-looking person in front of him. People who are spiritually open say so. They don't know why. By establishing this bridge, all of the authorities that belonged to Jesus, now are connected to the authority of Heung Jin Nim. Do you understand? (196-264).

## **Section 1. To Bear The Fruit Of Human Life And The Spirit Self**

### ***1. In Order To Obtain The Fruit Of Life***

One generation of our life is momentary. Right? This one generation goes up and down the equator of eternity. When this is extended, does it continue infinitely? On the other hand, if this is bent [Father expresses it in action], from here on, a new heaven and earth is scrolled. Like a scale, it goes up and down. That is the way it is.

For this reason, once Father speaks a word, it becomes a worldwide one. Father does not say that he cannot do it. Do you understand? [Yes.]

All of you are resurrected descendants of your ancestors, with their faces. You are historical resurrected beings. How long is history? It is known to be many hundreds of thousands of years old. Think of it. The course of such a labor was eventually to create one person, myself. In order to create myself, countless ancestors came and left. Likewise, the destiny of all mankind is in the hands of Rev. Sun Myung Moon of the Unification Church. He is in such a position. For whom did all of the ancestors labor so hard? It was to bring forth Rev. Moon and make him successful. At the moment, the entire spirit world is being mobilized for this purpose although you would not know about it. Therefore, we are the fruits of human history.

What are we? [Fruits of human history.] Next, we are the fruits of an era and the fruits of the future. It is incredible, isn't it?

Ladies and gentlemen, would you like that such fruits have a big hole because of worms eating them? Do you like apples that have their dark seeds easily rolling out when you cut them in half or apples whose seeds are sticky? Wouldn't you like to be an apple that is very ripe? [Yes.] Well, you know the right answer.

So, when you are opened in half, do you think a very ripe seed will come out? Are you sure that your second generation will become a heavenly seed that is very ripe? When your heart is cut open, do you think that a well-ripened Unification Church will come out?

Would you let the 6,000-year fruits fall without being able to ripen? Will it be all right for you to say: "Hey, I might fall. If it blows a little stronger, I might. Father, you should leave me alone, without shaking me"? I bet that there are some people like that. On the other hand, there should be a group of people who would say: "Father, even if you hit me with an ax and shake the tree to your heart's content, I will never fall down as long as a branch is not torn out." To which group do you belong? Are you one of the people who are concerned with a blowing wind? [No.] Then, what? [We belong to a group that does not fall down even if the tree is shaken.] A group that does not fall down even if the tree is shaken? [Yes.] (146-155)

We know that the important occasions of human life are birth, marriage, and death.

In order for an individual to bear a fruit after his or her birth, he or she must have a life companion, and thereafter walk a path together until the final moment of life. The same is applied to a country. A nation also has a period to lay its foundation, and then, a period of prosperity. Next, it is followed by a time period that is like the evening.

By so doing, if an individual remains a life body (saeng myung che), the individual should inherit the fruit of life and, within his or herself should always be prepared with a content that is related to the fruit of life. If not, even if a time of bearing fruit arrives, the individual will not be able to see the fruits.

For this reason, we should overcome our environment. Furthermore, we should inherit all the conditions that can bear fruit in the future, and we should have abilities of control that can be a motivation for all contents. Only through the process of bearing fruit can we remain a fruit that is needed for the progress of a new history and/or human society.

When viewed from this perspective, humans must be able to overcome their environment. But that is not the end. They should undergo a process through which they can inherit a new life and bear a fruit out of it. Afterwards, they should be able to stand in an appropriate position and bring a result. For example, like grains that are sowed, germinated, bear fruit, and are harvested by their master and stored at the storage room, we must go through a process through which we can be harvested for a certain purpose.

Therefore, at this point, you must not forget that you are in a position that you should, within yourself, solidify the inner conditions that can inherit such hopes and wishes, and centering on those conditions, you must again be adjusted to the external environment. This should be done not in the position of a defense of yourself, but in the position of an offense.

Look at a persimmon tree in the springtime when it blooms. Those flowers are not so colorful like other flowers. Further, their color is similar to that of their leaves. For this reason, if you just glance at them, you would not notice those flowers. Even after bearing fruit, because they are covered with leaves, it is hard to notice them. Because the green leaves are so fully grown, one cannot see the fruit. But when autumn comes after the summer, their color starts to change. When they are ripe, both the inside and outside colors turn red. Then you see them hanging radiantly and proudly on the tree even after all of the leaves fall.

It is the same as with the Unification Church members. When looking at the Unification Church, if the 1970s are considered to be a period of bearing fruit, all elements like leaves should disappear. Even the persimmon fruit exposed on a bare branch can possess a value of the entire tree. Such a fruit does not need any advertisement. To anyone, it is transformed into a being of value one hundred percent, for both its inside and outside. In order to do this, how persistently did the persimmon tree have to fight throughout the entire one year? Until it could bear fruit, how much labor was required throughout the process?

Until it was perfected as a fruit out of numerous flowers that bloomed on branches, we must understand that it suffered and made more efforts than any other flower. We must understand that it overcame all kinds of environmental ordeals from which it could have fallen due to a rough environment and malnutrition, while enduring winds, rain, and tempests in the summertime.

If that tree bore only one fruit, not being able to carry many fruits, that fruit would represent the entire tree as a fruit that fought all of the external struggles from which it could fall off the tree, containing the

entire inner qualities of that tree. Only such a fruit will remain alive. If there was only one fruit on that tree, that fruit will represent the entire tree. If it was a persimmon tree, due to that one fruit, it could save the authority and dignity of that tree when autumn came.

Although many flowers bloom and many fruit are born on that tree, if all of them fell, and it could not bear fruit even in the autumn, but only bare branches, how miserable that tree must be! However, even if it could not bear many fruit, if it could bear one fruit that cannot be compared with the fruit from any other trees, that tree will be proud of its fruit in front of tens of thousands of other fruits.

There are numerous religions in the modern era. Numerous denominations exist in Christianity. In a reality where we are faced with an era of bearing fruit, God is asking for a certain fruit from the Unification Church. As was previously said, although a tree could not bear many fruits, but only one fruit, and that fruit is a perfect one that cannot be bettered by any other fruit from any other tree, that tree deserves to receive the autumn, being saved by that one fruit.

From this perspective, you yourself should be able to judge whether you could receive a normal spring and summer, and bear a ripe, matured fruit in the fall.

When looking at a tree, we find branches, leaves, roots, and seeds. When we pick a fruit, it can be considered that we possessed that entire tree. Since that fruit has many seeds, one stands in a position where many trees can be planted.

The fruit of a tree should represent that tree, and whether it is 10 years old or 20 years old, when that fruit is harvested as a perfect fruit, it should be able to pass on all of the historical elements that it desires to bequeath.

During the time when that fruit is growing, the elements should never be removed. It should be left alone so that it can fully and continuously grow. From the day when its life started to the time when it is harvested by the master and stored into a storage room, the life elements should never be stopped. Whether it is windy or a tempest comes, despite all the hardships, they should not be discontinued. If not, as time goes by, the elements which can add to the fruit will dissipate, and, as a result, one will not be able to see a fruit that is fully matured. (36- 10)

Even among blessed families, there are many insincere families. I can tell the truth when looking at you carefully. When you look at chestnut burs, you can find both male ones and female ones. Their shape is similar looking, but the male size is bigger. It is the lazy one that did not work hard. Bearing fruit requires the overcoming of many tribulations.

However, male chestnuts are void of the deep qualities that come from tribulations, and, as a result, they are void of life power. Their appearance looks similar to that of the female chestnuts, but their inside is not that of a real chestnut.

Ladies and gentlemen, you know chestnuts. Their appearance looks so cold with its spiky burs. Yet, if you take out the burs, a chestnut comes out. A chestnut is covered with three layers of skin. If an outer

skin is removed, another layer of skin appears. If the second one is peeled, a third layer with a tardy taste shows up. Afterwards, a real chestnut appears. That is why the taste is remarkable. (31-201)

## **Section 2. Judgment And Public Approval**

### ***1. Categories Of Judgment***

Would God, who knows that the way of the Principle is a way that cannot be walked without loving one's enemies, let people perish in the last days? No. God is in the position of a parent towards humans. The judgment of fire that is mentioned in today's Christianity is not literally a fire judgment. (31-167)

As you are well aware that there is a protocol between teachers and students that should be observed by each party? Likewise, in the Unification Church as well, there are laws that I should observe, and you should also observe. Those who doze while I am speaking, will they be violated by the heavenly laws or not? [They will.] Those who are dozing, is that right? [Right.] Did you doze, thinking of that or not? Yes or no? Did you doze, understanding it or not? [We did, without realizing it.] That is what you should know.

Therefore, when looking at this from this perspective, if you do not pay attention to the words, you will be judged by the words. Next, we should realize substance. What are your actions for? It is to realize substance. If not, without action there will be a judgment of substance. There are three different kinds of judgment: that of words, that of substance, and that of heart. One should go through three different stages of judgment.

First, the words of the Principle will judge you. What is next? It is judgment of substance. Who will judge? Those who labored hard, doing fundraising, witnessing, and realizing substance, by observing all the laws. Those who did not do any of these, trying to take an easy way out, will be all judged by them. That is a judgment. Satan will participate in it, judging people who did not follow the words. Those who realized a substantial foundation will accuse the ones who did not. The substantial foundation laid by Father, and the substantial foundation of leaders in the Unification Church will make accusations against its members who did not fulfill.

This is the right order. First, the accusation comes from Satan; second, from family members; third, from Father; fourth, from angels; and fifth, from God. [While saying this, Father writes on the blackboard]. Do you understand me?

You need to go the following way: You can go to God after being recognized by family members in the satanic world and next, by Father. That is our destiny. That is a law. That is a direction that we need to follow. This is the direction that I previously mentioned. What do we do about this? What is judgment? They will give substantial judgment with all of these. Will lies work? [No.] If you do it unwillingly, it is like not doing it. If you do it, thinking of God and/or Father, the substance of God and/or that of Father will be in it. It is like a fully matured chestnut inside of it. If you think of God and Father like this, Father's words, God's words will be the substance of your work. Ladies and gentlemen, is that right?

By so doing, the Unification Church members should be welcomed by Father and family members. You should become such a person. When you are exposed, you should become a person like a chestnut. We

should live for God and True Parents. That is your mission. Next, when you go to spirit world, your lifestyle of living for God and True Parents should be in harmony with that of your life here on earth. Do you understand what I mean? That is how harmonization is achieved.

For this reason, we should go through a process of passing a fearful test with substantial conditions. That is a law. When the test is done, the foundation of heart will automatically come into being. When you were fundraising and witnessing hard, why were you persecuted and accused for doing both of them? It was to restore, to discover heart, which you did not have. It was to restore, to discover love. It happened so that you could become a person who can love people who are doing these things against you. Unless you go through such a training course, no matter how much you try to become a heavenly person, you cannot. That is, we should find love that is beyond the love of the satanic world, of ourselves. Otherwise, we cannot go to Kingdom of Heaven by becoming a person of love. Only the ones who become a person of love can go there.

Who is the judge then? It will be God, Jesus, and Father. Do you understand? [Yes.] Therefore, you should put it into practice. That is our task, required by God as law. You must understand this.

What is true love? When we stand in the position of the parent-child relationship centered on the lineage of God and True Parents, this "X" and this "Y" will form a line. You will be able to avoid the judgment referred to by Christianity. That is why only when we are centered on the realm of True Parent's love, will everything be resolved. (190-31)

## ***2. Be Prepared With A Passport To The Kingdom Of Heaven***

Your final moment on this earthly plane is death. The day of death will come to everyone. In order to establish the ultimate ideal world, you should experience all kinds of things and pass through them.

Well, do you have a passport to the Kingdom of Heaven? Dr. Durst, do you have one? [I am in the process of preparing one.] Then how do you enter there? You do not know that you might die tomorrow. We should keep ourselves busy with preparing one. This is not a play or a joke. You should understand that only when many individuals, families, or nations come into being, can God let you be in charge of Heaven. Do you understand what I mean? That is the original ideal of creation.

What is a passport for? It is to expel Satan. Satan is allowed to enter. Ladies and gentlemen, in your daily life, does Satan play a part or not? Did you separate good from evil on the levels of an individual, a tribe, a people, a nation, the world and the universe? If so, when? You must have learned the words of the Principle, right?

Then you must have learned how to separate good from evil. With what can it be done? It should be done centered on indemnity conditions. Those who have leadership positions in headquarters should all be expelled. Do you know about a pyramid? Those who do not go out for church activities become a pyramid of the Devil.

Ladies and gentlemen, there is no exception for anyone, whether they are scholars or the presidents of nations. The path of indemnity should not be taught, but searched for by each individual. That is a path

that you yourself should look for. The path of the Principle is one that you walk yourself. Do you understand this clearly? If you do not go this way, you will go to hell. You must understand that chains are hooked all over your body, such as your eyes, your nose, your thoughts, etc. I am not saying this to threaten you, but to reverse the fall.

Ladies and gentlemen, when the word "Kim" is written on a blank piece of paper, how difficult is it to erase it? [It is terrible.] Do you think the letters written down by Satan are more terrible than the ink itself or not? If you try to erase them, even if you almost reach the state of death, you should not be able to erase them. It can be done only after we are revived from death. It can be finally erased only when the piece of paper is almost worn out with holes. You should know that, although you believe that you are alive, actually you are dead. As long as such a trait is within you, Satan will claim you as his. That is why Jesus stated: "Those who are willing to die will live, and those who are trying to live will die." Do you understand what this means? [Yes.]

From God's viewpoint, only when you are better than the beginning will his memory of the fall of long ago be erased. From this perspective, could you understand how foolish, how immature, how fragile you were up until now? Where are you going to go? Are you going to go to Kingdom of Heaven or the kingdom of hell? [Kingdom of Heaven.] (129-183)

You must clearly understand what you should do from now on. Do you know that? Now, you do not know it, right? Do you think that you can live for eternity? Do you think you will die or live? Everyone dies once, right? Is it true or false? [True.] This is a serious matter. Are you sure that we all die? [Yes.]

If you die, do you know that spirit world exists? [Yes.] Do you really know it? [Yes.] Is life in the spirit world longer than life on earth or is it shorter? [Longer.] How much longer?[It is infinite.] Then, who lives there? Is it not a place where the master and the center of Heaven, God, lives? [Yes.] Who is God? Is it not vague and ambiguous? Don't you think so?

Well, if God exists and I exist, and if we think of God and ourselves being in an equal position, would you think of God first or yourself first? [God first.] Well, what about you? [God.] If it is God, do you think that we should become people whom God is pleased with or that God should become the one whom we are pleased with? [The former.] I am not talking about others. What about you? [The former.]

Well, I go to that side of the world, if that nation is a God-centered nation, where countless ancestors came and left, do you think that they will be living without order without any laws or in orderliness governed by laws? [The latter.] You must have some idea about it.

Would you think that even before the appearance of the Unification Church that the organization of the Unification Church already existed in the spirit world? (laughter). It did, right? Surely so. (laughter) But what about now since the appearance of the Unification Church?

Well, since the Unification Church came into being at the end among all the organizations in the spirit world, should it be at the end or at the top? [At the top.] If Moonies say, "at the top," would spirit world

say, "no?" Your ancestors who are living in the spirit world may say that they do not like Moonies. (laughter). What do you think?

For example, suppose that there is a wealthy village, where a beggar came in. If all the leaders of the village unanimously suggest: "We have a remarkable man visiting us. Let us make that beggar our village leader." Then, would everyone agree or oppose? What do you think? [Oppose.]

Well, suppose when you go to spirit world would you like to go down to the dungeon of hell in darkness or to the throne of God with beaming light? You, think about a place with a bright light. (laughter) That is true. That is realistic. That is for sure.

However, what are you going to climb to get up there? In the spirit world, there are many saints and sages such as Jesus, Confucius, Buddha, etc. There are also many great people, but with what are you going to climb up there? You would be able to meet all of the presidents of the United States, such as George Washington, and others.

Further, you should be able to meet many martyrs who died from the persecution of the Roman Empire. How many people were sacrificed for the public purpose? Then, how can you go up there? Would the spirit world recognize you?

You need a certificate at some point in time, even in the U.S. Army. If so, can you go to the highest realm of the spirit world without a certificate? In the world beyond time and space where many hundreds of billions are gathered, watching you, are you confident that you will be welcomed and praised? In the spirit world, there is no distance. They will be watching you climbing up. Then, how can you go up there? Think of it.

In order to go there, you need a certificate. Surely, you do. Without it, you cannot pass through. This is a serious matter. Dr. Durst, with what are you going to go there? Can you say that you can do it with your doctoral degree for literature? In the spirit world, it has even less value than toilet paper in the bathroom. (laughter)

Well, then, what are you going to take to get there? Go ahead and answer. [True love.] What is true love? What is it? This is a serious question. Because God knows this clearly, he has been committed to this throughout his entire life.

Well, today, why am I trying to go this way even though the entire fallen world is opposing me? It is to receive a certificate. This is not a worldly matter. Do you understand? If I sought for success in the secular world, I would have been quite successful. I have such abilities.

When you go to spirit world, you cannot take even your own wife nor your children. When you die, you are alone, not with each other. Then, how lonely it should be! You should walk alone. Such is the world where you need to go. The reason why Rev. Moon is needed in the world is because humans do not know where to go. In order to teach them the right way, in the last days, God sent someone like Rev. Moon on earth. (145-330)

### **3. Satan's Certificate Is Also Required**

Do you receive God's love? Yes or no? God's love is a worldwide love which is priceless, and that cannot be replaced with money. Have you ever received such love? Have you ever received love that is like flesh out of all flesh and bone out of all bones?

In order to become Abel, you should first inherit God's love. Once you inherit God's love, you will inherit the world. Right? [Yes.] So, did you reach that level? Jesus did. He inherited the Heavenly Kingdom, but he did not inherit the world. Then who inherited the world? Cain did, Therefore, the world belongs to Cain. For this reason, once Abel inherits the Heavenly Kingdom, he or she should inherit a certificate issued and guaranteed by Cain who belongs to the world. In order to go to the Kingdom of Heaven, you need a certificate from Satan.

Fallen people are to resolve these two matters. Because they have not been resolved, 6,000 years of history have been repeated. However, we have now come to understand this. In the Bible it says: "As you know the truth, the truth will set you free." As we now know the answer, we should love, even biting our own teeth. To what level? To the level of Cain, who is our enemy. (34-278)

Since the human fall took place not in the presence of God as their subject, but in the presence of Satan, we should subjugate Satan. You should be able to say and claim before Satan: "Satan, as I am where I am now because of you, I will return after subjugating you." So, unless you get a certificate that you subjugated Satan, you cannot receive God's love. Jesus also brought victory in overcoming three temptations. You will not be able to go to Heavenly Kingdom without a signature from Satan that you won a victory in history.

The Unification Church is the only church that teaches that one cannot go to Kingdom of Heaven without a certificate from Satan. This is fundamentally different from other Christian churches. They do not know this for sure, but say the following: "Well, Rev. Moon of the Unification Church teaches that we can go to Kingdom of Heaven only with a certificate from Satan. That is why he is satanic." Did I teach that to you? They indeed like to distort facts. Yet we should not get behind them due to their spreading wrong rumors. No matter what, we should receive Satan's signature. When Jesus overcame the three temptations from Satan, Satan admitted with tears: "You are truly and eternally different from me." Unless he admitted this, his position would have been in danger. (24-337)

Do you love Cain? Cain is Satan. He is Satan's son. The spiritual Satan and the substantial Satan are grinding their teeth, hating the Unification Church. Even though we did not ask for anything from them, remaining quiet, they still hate us. In order for you not to be hooked by them, you should subjugate Cain. In order to subjugate Cain, you should love Cain all the way to the end. Unless you become such a person, you cannot save Cain.

For this reason, in order to go to Kingdom of Heaven, you should obtain a certificate from Satan. What is Satan's certificate? In order for a convicted criminal to be released, he or she should first go through an attorney, then a prosecutor, and finally, he can be released by the judge. When viewed from this perspective, Satan is in the position of the prosecutor, God, in the position of the judge, and Jesus, in the

position of the attorney. If Satan accuses a defendant with convincing evidence, saying, "This is what we should do, God cannot do anything about it.

Then, Jesus, in the position of an attorney would say: "Heavenly Father, his ancestors did such and such things. He is not from a bad lineage. Since he is accused of such and such counts, he should be given an indemnity condition that is related to his crimes, and then liberate him." That is what has been happening.

For this reason, we should get a certificate from Satan. Without getting a certificate that we loved Satan, we can never go to Kingdom of Heaven. That is what the Unification Church is doing. Normally, although we treat enemies as enemies, we should love them. That is incredible. But we must love our enemies and pray for them. We have no choice. Unless Cain and Abel are united in oneness, there will be no restoration. Then, you cannot go back to the parent. You must understand this. (48-315)

Today, where should we, Unification Church members, stand? As was just mentioned now, we should take responsibility to fill up the holes. For this reason, in the position of representing all mankind, we should be Willing, before God, to take responsibility for all of mankind, with an urgent and anxious heart. Otherwise, we cannot become a Unification Church member.

We should stand in such a position, as a representative of our family, our tribe, our nation, the world, and the whole universe. You should not speak only your own words, but even make a right decision that both God and Satan can publicly approve. In other words, you should get a certificate from Satan. When I say this, you might think: "Why should I, when I did not receive one even from God?"

Yet, Satan should publicly approve of you, stating: "You fulfilled your responsibility on earth in restoring God's love in the course of restoration of the world on the levels of an individual, a family, a tribe, a people, and a nation. Therefore, when reviewing your accomplishments, you are more than qualified to be responsible for the providence of restoration through the indemnity of love." Without being such a person, you cannot inherit the position of a son or a daughter in the world of God's love. (158-384)

Christianity today has gone through a course of history through which it has been seeking for a true olive tree, while pioneering a miserable destiny along with numerous humans throughout history. The true olive tree refers to the Son of God. Once He comes, the tree should receive extract and a branch from Him. And we should be engrafted to that branch.

When Satan sees that a part of Him was engrafted, all of the conditions that have not been resolved due to Satan will be done so instantly. You should be engrafted not only on a foundation that is like good land or a warm shelter, but also that is like a rough, stony land. Since its content is different from anything else in the Satanic world, in terms of the original nature and quality from Satan, you should receive a certificate that you can become God's son in the new era. It is not given by God. If He could, He would have done it 6,000 years ago.

In my case, I could not be released by the judge. Who then could have released me? Satan can. At the court, the prosecutor is Satan. Therefore, without getting an approval from the prosecutor, I could not

be released. Therefore, without an official approval from Satan, that is, even if the judge in charge gave an unjust sentence, God cannot say: "You are my son. Let me save you!" You must absolutely get an approval from Satan.

Did you get such an approval from Satan or not? If not, you must. What does the Unification Church teach? It is a place that teaches you how to obtain an approval from Satan. However, you should not get only a spiritual approval but also a physical one. (7-124)

#### **4. Father's Signature Is Also Required**

Do you want to obtain a passport to the Kingdom of Heaven? [Yes.] But not freely. If you try to get a Ph.D. without passing a test or doing a dissertation, even if you are able to get it, it will be a counterfeit. Even in the Unification Church, there are real members and fake ones. Are more members real or fake? [Real ones.] You are not real Moonies yet. You are not totally united with me yet. Do you understand? [Yes.] You can be real ones only after going through the exact standard.

In the final world centered on good and evil, unless you become a true Moonie, you cannot remain forever. Do you understand what I mean? [Yes.] In that sense, you should reexamine yourself and reflect upon yourself. (129-186)

You need a certificate. No matter how difficult it is, you should get a certificate. You now understand this clearly, right? [Yes.]

The same is with me. I know that so well. That is why I have been going through such a fierce battle for 40 years in the outside world. I am always marching forward, although the entire world is opposing me. I chose such a path. Do you know how miserable it has been? Think about it. Under such circumstances, I laid this foundation.

This world belongs to Satan. That is the problem. It is a miserable fact. On the other hand, the spirit world is rejoicing. Thus, these two worlds are divided. Is it clear now? [Yes.]

You need a certificate, which contains Father's signature. One can go through all levels of the spirit world only with Rev. Moon's signature. As long as you have it, no one will stop you. You will be welcome at any place. Then how remarkable we are! That is what we need to be concerned about. Everyone needs to acquire one. What are you hesitant about? You should start. Father is not foolish, but smart. Do you know it? [Yes, we do.] Father is so famous. (146-347)

In the future, how are you going to climb up the spirit world? What are you going to take with you? Go ahead and answer me. Are you going to say, "Since I went to Harvard and I am a citizen of United States, I can go to the best place in the spirit world?"

What are you going to take with you? You cannot go to the high levels of the spirit world, even if you have a pure and innocent heart. Go ahead and have such a heart to see whether you can go or not. (laughter) You need to go through a procedure by which you can go to go to the Kingdom of Heaven.

In order to be registered, you need to have a license. No matter how many times you insist that you are a pure and innocent person, you cannot go to the Kingdom of Heaven. You need to go through a certain formality. What is that formality? Even to come to the U.S.A., which is declining, how difficult it is, going through a certain process of getting a visa, etc.? Would it be easier or more difficult for us to enter the Kingdom of Heaven than America? [More difficult.] Ladies and gentlemen, when you came here, did you ever think of it? Have you ever thought of getting a new form and passing the tests after filling it out?

Then, you should get a signature from Dr. Durst, right here. Then, whose signature is next? [Satan] Correct, you should get a signature from Satan. (laughter). Then whose signature comes next? [Father's.] Yes, it is Father's. You cannot go to Kingdom of Heaven only with Dr. Durst's signature.

Well, whose signatures do you need? Father's signature. What about the signature of the U.S. president? [You cannot.] Whose signature do you need? [Father's.] Did all the spirits that went to spirit world know True Parents? They did not. You are the first ones who know them. It is you who came to know Them for the first time.

Are you now coming back to your senses? You are now growing your beard. (laughter) Are you thinking that since you are growing a beard, Rev. Moon will be signing? [No.] (laughter)

Anyone who has a beard is not a Moonie. You'd better get out of here. (laughter) Can you remain seated here with your beard growing? All of you should go through a right procedure. That is what you need to learn. Therefore, it should not be the Unification Church, but the Unification University. It is a nationwide and even a worldwide university. Are you paying tuition? (laughter)

All the instructions that were given by Rev. Moon on earth will also become the basis for conditions by which you can be accused. Unless you fulfill them, you cannot go to the Kingdom of Heaven.

Then, someone might say that Rev. Moon is only giving instructions without doing them himself. Yet that is not the case. Whatever instructions he gives, he has already actualized himself. He would not ask you to do these things before He put them into practice. Why? Because He needs to teach you all about it. Rev. Moon cannot hold discussions with anyone. He has no partner. He cannot discuss the providence of restoration with the president of the United States.

No matter how many times Dr. Durst comes here, I cannot discuss the matter with him. If I do, the archangel will accuse me. The archangel is the one that made humans fall. Therefore, other than God and myself, no one knows about it. Do you understand what I mean? [Yes].

Now, the Unification Church will go over the worldwide hill. Now, no one can destroy the Unification Church, nor can anyone send Rev. Moon to prison. Then, are you busy with marrying and giving birth to your children? With what should you be busy with? [To be prepared with a certificate.] You do not know when you will die. Who knows when you will be involved in an auto accident and go to spirit world. All kinds of things can take place. Thus, you never know when you will have to go to the spirit world.

Further, although you know how to live as blessed family members, if you go to the spirit world while you are enjoying your own personal life, having fun, thus neglecting to prepare yourself to go to the

spirit world, can you come to Rev. Moon of the Unification Church? Blessed families did not yet reach the worldwide level because they are on the top of the growth stage, still under the dominion of Satan. Since they are on the top of the growth stage, they should go over the worldwide level. Because of that, they will be in trouble unless they go over it.

So, do you put more weight on your own couple, placing God's will behind your own couple? In the near future, if time passes a little further, and when we are settled with our own nation, the children of those of you who did not work would not be able to work like the children of those who worked hard. Even if they are blessed, I will kick them out.

Even though I made all the preparations for you to go to spirit world, but still, if you are doing nothing, how miserable the Unification Moonies should be! It is now time for me to take it easy. I did it all myself.

Is Father incapable or capable? [You are the most capable person.] My personality is such that I would not let myself be defeated by anyone. Such is Rev. Moon. He does not like to be trampled by anyone, but he lived a life of being trampled. On such a foundation, I know clearly what path you, Unification Church members, should walk. You must understand what path you should walk. You must understand what Father is trying to teach you. Right? [Yes.] What did I say about your path? You must quickly go over the nation and the world. Are you busy with marrying? Are you busy with taking care of house chores? Or are you busy with making preparations to go to spirit world? [With preparations of going to spirit world.] Is that right? [Yes].

Therefore, I am living now to be in the same tempo with spirit world. We should live with the same tempo. When you are considered to be Unification Church members, if you go to spirit world, you will be questioned at the gate with such and such conditions that have become engraved as they were taught by Father.

All the things that are taught by Father until the present time are written down as conditions. Therefore, if you cannot answer them, you cannot go to Kingdom of Heaven. Instead, you should wait in the middle level of the spirit world.

They are waiting for me to come to the spirit world, wishing for Father's prompt arrival. Yet, even if I go to the spirit world, all of you cannot enter the place where I can go. (146-337)

When you go to the spirit world, surely, you will say, "I know Rev. Moon. He was True Father." But even if you know Him, it does not work. That is what you must understand. (135-118)

### ***5. The Role Of An Attorney In The Spirit World***

Father's slogan is: "Let us kick out the Devil," the ringleader of the evil which has been violating countless humans throughout history. From the first day to the last day, let us take the position of a prosecutor ourselves, accuse Satan of all the evil deeds that he has committed in front of God, the judge of justice and righteousness. Then would the devil surrender or not? There will be no attorney available to the Devil, but to humans, there will be.

Jesus is working as an attorney in the spirit world. He would say, "This person did such and such good deeds with faith in my name. Heavenly Father, is it not true that the devil cannot take one who tried to be good, observing the public laws since that is an agreement that was made between you and the Devil?"

The devil cannot take people who were standing in a good way. That is why people are asked to believe in Jesus. But if you believe in Jesus unconditionally, do you think you can go to Kingdom of Heaven?

You wait and see. As I visited spirit world, I saw many scenes in which famous ministers were kneeling down in the hell, saying: "Rev. Moon, I did not realize this would happen to me." Is it not a story like a dream? The leader whom you are following is such person. He is a leader with such a deep understanding on the high, fifth-dimension level world. Therefore, if you are going to follow me, you should understand such content as well. (149-98)

### ***6. Impossible To Accuse Once We Come To Have A Citizenship***

We must have a nation. But do we have one or not? [We do not.] Well, you have your own country. But the country that we are going to is a different one, the Heavenly Kingdom. Therefore, for that country, unless you were given a citizenship that is approved by the nation, you cannot enter the Kingdom of Heaven.

Satan cannot make accusations against people who have a citizenship from any direction whether it is North, South, West, or East, nor any time era in the past, present or future. (148-287)

## **Section 3. Entering The Spirit World**

### ***1. Freedom Possessed By The Citizens Of The Kingdom Of Heaven***

Among women, those who lament over not having been born as a beautiful woman, please raise your hand. (laughter) Someone might say that you look like a bag that holds an umbilical cord. Yet whether you look like a bag that holds an umbilical cord or a toad, if you have a rough skin, it may be even better, thinking that it is healthier looking. If you are born beautiful, you are inclined to pursue external things for sure, 100 percent. On the other hand, ugly women will pursue internal things, not external ones. This is a fact. (laughter)

The more you pursue the external, the more trapped you are by Satan, but if you pursue the internal, a beautiful woman can be born out of such a ragged playground. Which one do you prefer? [Pursuing the internal.] Then, when you pursue the internal, would you remain inactive? Those who go that direction can freely travel the world of the external, but those who pursue the external can never travel to the side of the internal. Which one would you choose? Would you become a person who can be welcomed by both worlds or only one world? [The one who can be welcomed by both worlds.]

Then, what kind of people will the Unification Church members become? It is ideal to become a person who can travel to the world of the internal and the world of the external, and thus you can freely travel to all directions of North, South, East and West. So what we are trying to do in the Unification Church is

to make a person who can be a subject of the internal world and also have dominion over the external world as well.

Since the external world was invaded by evil, if you go to that world, you will end up going to hell, but if you go to the internal world, you will end up with a good spirit world, the Kingdom of Heaven. Then you can freely travel both worlds whenever you desire to do so. So would you like to be a person who is not restricted by anyone, to travel wherever you want to go, traveling both worlds, or a person who can use only one door to enter the Kingdom of Heaven or hell? [The former.] You are too greedy. (laughter)  
Since Rev. Moon knows it, I am trying to become a person who can be welcomed by anyone wherever I go. That is what Rev. Moon is insisting on. That is what God is insisting. Then, how wonderful will it be?

Well, can God travel freely to hell? [Yes, He can.] Does He need to go through certain procedures to go there? [He does not.] By the same token, does He need a certain procedure to visit the Heavenly Palace? Does He need to get a special ticket and a special form to fill out? [No.] Then, can He do it freely any time as He wants to? (116-177)

## ***2. Special Gift That Can Be Carried To The Spirit World***

Ladies and gentlemen, what is the present that you can take when going to God in the spirit world? There is nothing. Not money, nor the honor that was obtained through an earthly academic degree, nor loving his or her spouse, nor living a happy life. Such things cannot be a gift. Then what is it? It is our love for God and the world. That is what is left behind from your earthly life. In John 3:16, it is written: "God loved the world that. . ." Does it say that God loves the world or you as an individual? [The world.] Does it say the Unification Church or the world? [The world.] Yes, He said that He loves the world. That is why He sent His begotten son. The begotten son came to love the world.

For this reason, if you are centered on love, you will not perish, but instead you will be saved. As the Master loves the world, we should love the world as He loves the world. What about Christians today? They are divided due into many different denominations. Is it not true? They do not think of the world nor God. When we look at Christianity that is perishing, while it is loving only their own nation and denomination, we should become a person who can transcend our own nation and denomination and love the world and God. (98-329)

Even at the court, a judge cannot do anything against a murderer without convincing evidence. If the murderer protests, "When did you see me committing the crime?" you cannot do anything against him if there is no evidence. Evidence that can support his crime must be presented. However, if evidence is presented, the murderer cannot protest his prosecution. Therefore, if you do not have evidence, you should find it. In a Christian hymn, there is a verse: "There is sufficient evidence of having received a lot by believing in Jesus." Do you have any evidence? Someone is proud of much evidence when he or she goes out for a witnessing, but do you think that this is true evidence? What good is it for you to testify about it if no one remains. It has nothing to do with evidence.

Do you have a special gift that you can carry with you when going to the Kingdom of Heaven? In the spirit world, there are many loyal subjects who are lined up as martyrs. Do you think that you can open

your present in front of them? Ladies and gentlemen, please think of this. Do you think that you can unfold something so mediocre and sloppy? How much did the Unification Church or you suffer? Even though you say that you love your own nation and the world, how can you love your country and the world, if you did not experience that much suffering? You should be able to say, "It is true that we suffered, but I do not take it as a suffering." We still have a long way to go. When you go to spirit world, you should be able to say, opening your gift sack, "This is the present that I prepared all my life. Please accept it with my heart." When women marry, they take many dowries, but can they go to Kingdom of Heaven with an empty hand?

As the Unification Church members, what mission did God give to you? As God's trained soldiers, as sons and daughters of God, if you marry, you should inherit the lineage of your family. In order to do this, you take care of your family's chores and independently develop yourself. Such is your holy mission. Therefore, even though you cannot do so, you should realize that Father cannot physically live with you, and further, even if God cannot always directly give you instructions, you should never forget that you are the ones who are endowed with a mission within God's realm of management.

You should regard yourself as absolute. By so doing, you should be determined to get an eternal guarantee for the fruit that resulted from absolute value, as the treasure that belongs to all mankind, future generations and the spirit world. If you do not fulfill that responsibility, you will fall into a position that will be more miserable than a beggar. Beggars can feed themselves at least by begging for food when a meal time arrives, but the ones who failed to fulfill their responsibility would not be able to eat on time.

In order to fulfill such a responsibility, had God asked you for 10 years of your life, during that 10-year time period you should do your best with all of your heart and soul. How can you shorten the 10-year restoration time-period to make it into a 7-year course of value? In order to shorten the 10-year time period planned by God into a 7-year course, my own sweat, my own blood, my own effort, and my own toil are required. Unless you can add quantity and quality to it through your extra efforts, you cannot absorb the national and worldwide foundations. Unification Church members are the ones who should live such a life, carrying that kind of responsibility.

Today, such an era has arrived on the worldwide level. The exterior or external foundation work has been completed, and we are now in the era in which the interior or internal design work is being done. Since the interior or internal design requires last minute touch-up work by the owner, I am needed. I do not need to worry about the walls, but in order to place all of the necessary conditions together, a time period on a different stage of work is required. That is why a preparation era, a practice era, a fulfillment era, exists.

For this reason, we should make an appropriate plan for each stage in our life. During the preparation period, we should make utmost effort to make the right preparations; during the practice period, we should do our best to put the preparations into practice. And during the fulfillment era, we should fulfill our responsibility with all of our heart and mind, and only then will the interior design be done right. Whoever sees the inferior design, should compliment its quality and the effort and details of it.

For this, when a preparation era has arrived, you should not be in a position where you fail to fulfill your responsibility after you were appointed to make preparations. The next period will be followed by an era where you put it into practice. When that time comes, you should work hard day and night. Next, a fulfillment era will arrive, which is the time of hope. (32-71)

### ***3. Three Subject Thought And Registration***

Let me ask you a question. When you think of your mind and body, how pitiful is your mind? Your mind is instead of God. Your mind represents your ancestors, your teachers, and the king of your nation. Nevertheless, how much was your mind despised and held in contempt? As the center of the universe, the mind is in the position of True Parents, the subject of true love. How long and much did it toil in order to save me on this earth?

Although the mind has been dragged in contempt, and we thought that it was already killed, if we come to have a bad idea of stealing something in the early morning, it comes alive and admonishes us: "Hey, you, how can you?" The mind is in the place of parents, teachers, and the master. In the world of mind, no trial is necessary. You know yourself better than anyone else. No third person or witness is necessary.

When seeing your own parents, you should repent that you are not proud of yourself, when seeing your teachers, you should repent that you are not proud of yourself. When seeing the king of the nation, you should repent that you are not proud of yourself. And when seeing God, you should again repent that you are not proud of yourself. In order to go back to the original land, we should repent. In the original land, we should attend God as the King. God is the King of the universe, the nation, the tribe, and the family. Also, God is the teacher of the universe, the nation, the tribe, and the family. God is also the master of the universe, the nation, the tribe, and the family. This is the Three Subject Idea. Since this has the essence of the love that lives for others and then forgets about it, this three subject idea represents Heaven.

If we can possess the three-subject idea, it is the most ideal. But even if we did not, if we stand in the position of true parents, teachers will stand on the right side, and master, on the left side. Whether you become true parents, teacher, or master, if you can stand on one of those positions, there will be no problem with your being registered in the Kingdom of Heaven. Are you in such a position? (209-154)

### ***4. The Registration Of Divine Spirits***

What is the fall? It is to be separated from the relationship of the word, the substance, and heart. Therefore, you should first learn the word and live it. In order to live it, we should have a parental heart. As I told you previously, only those who went through substantial actions for the solution of grievance, for the restoration through indemnity, can give blessings. It should not be only words. Then, you become a life spirit (saeng myung che).

As was told today, we have a form spirit, life spirit, and divine spirit, which correspond to the phenomena of spirit world. Then, what level are we in there? We are like a divine spirit (saeng young

che), and the course of restoration is to find our own position after being registered on that level. Therefore, from now on, you should be registered.

Once you are registered, no matter how many mistakes you make or how many times you commit misdeeds, you cannot be governed by the law established in the satanic world. Is it not the case in the secular world? Can Americans be governed by Korean laws? They cannot because their nationality is different.

If you go into such a realm, only the laws there will be applied to you. Therefore, once you transcend the laws in the satanic world, no matter what, it cannot have control over you. Since the laws in the satanic world cannot be made applicable to you, earthly laws cannot affect you. For this to be done, you should make appropriate indemnity conditions applicable to it. Then you do not need to go to hell.

As Unification Church members, if there is anyone who is confident in not dying in the future, please raise your hand. Then, is everyone thinking that we should eventually go to spirit world someday? Go ahead and answer me. Everyone should die once, right? [Yes.] Once we are born, we must die. That is a formula. Then after death, where do we go? All of the Unification Church members know that we have a spirit body, right? [Yes.] Then the spirit body should grow.

In the future, the problem that you will be faced with is that when a right time arrives, everyone should write a biography. Such a time will come recording what you did since joining the Unification Church. What is it? If you worked at a company as an employee, such a record will not be helpful at all as a right condition. On the contrary, it is a shame in the church. Such time will arrive.

Ladies and gentlemen, in the future, all of you should be registered. When North and South Korea are united, you must be registered. The word "tribal messiah" is not so important compared to the content. All the content will become indemnity conditions for you to go to your own eternal path of life. When you go to the other world, what matters is how much effort you made to go such a path and even more so, how much substantial result you brought.

Ladies and gentlemen, the path to salvation cannot be obtained through the ordinary, customary life that you have been leading so far.

It can be obtained only through a course of indemnity. The providence of salvation is the providence of restoration. And the providence of restoration is the providence of recreation. For this reason, in order to be recreated, you should return to the position of zero, the original position.

In that place, there are no rituals nor habits nor your own family name such as Kim or Yi, etc. You must enter such a state of zero. When you think of the original standard of God's creation, all of the created things start from zero.

However, due to the human fall, today human society is filled with things that are against the heavenly way. We should shake them off. We should sever them. It cannot be done with words alone. Since this world is full of different habits and customs intermingled with each other, centered on Satan's love in

the relationships of Satan's life and blood lineage, each person walking a different path centered on his or her own historical and cultural background, these things cannot be removed automatically.

That is why the Bible states: "Those who want to die will live, and those who want to live will die." Such a paradoxical theory can be logical. Only when you are willing to die, you shall live. For this, you must invest all of your life. By so doing, you should launder everything. In other words, everything should be restored through indemnity. Such a process is absolutely required. Otherwise, the habitual and sinful natures possessed in the fallen world will remain, and as long as they continue, you cannot establish a relationship with God. (213-97)

### ***5. Registration Now Must Be Done***

When you go to spirit world, if you had not completed a 7-day fasting for Heaven, you cannot be registered in the other world. Why? Since God has been toiling during the course of 6,000-year restoration history, you must fast, thinking of it. That is why the Unification Church has a tradition of doing a 7-day fast. It is not to give you a hard time, but to give you the chance in front of heaven to make the condition of striking your own physical body.

How should we live? The method is as follows: An individual should live for his or her family, a family for its tribe, a tribe for its people, a people for its nation, a nation for the world, the world for heaven and earth, and the heaven and earth for God and His love. This is what we should live and die for. We are different from others. We have a clear tradition to follow.

Why? If this is not done, you cannot be registered in the other world. Since the other world is organized in such a way, unless you are meeting their requirements, you cannot be registered, and you cannot find your own space. You should enter there as an original person prior to the fall. Otherwise, you cannot enter there. This is a view from the Principle. (131-153)

You must be registered in the Kingdom of Heaven. Abraham offered himself and the creation as a sacrificial offering in order to go near God. Since the creation was lost, he used it as the condition of restoration. Since humans are lost, they stand in the position of Abel, placing the creation in the position of Abel, and having Cain make a condition to God. When it is done that way, God can finally accept the offering. (15-153)

Prior to your being registered, in order to be born as an absolute human, what are we supposed to do? Without understanding this clearly, we can never reach the place before heaven where we can claim our subject position (oo che sung), an eternal place where I should belong as an absolutely perfect being, after overcoming everything. We, humans were born centered on God. The motivation of our birth is the creator. We are made by the creator, but by what attribute of that creator are we made out of? This is the question. Did the creator create us because He wanted to let us hold diamonds since He likes them? Or did He create us because us wants to inherit His power? Or because He likes knowledge? Does He want us to inherit His knowledge? What is the origin of the beginning, the start? This is the question.

Then, what is the origin of my birth? What is it? What is the most important thing? It is life, right? What is the origin of birth? It is life. Then, can life alone be the motivation of birth? The motivation of my birth is my father and mother. I was born due to the lives of my father and mother who were bonded. But it did not take only their own lives in order to inherit the characteristics of both people. Beforehand, there was a fundamental action that brought these two lives to be connected to each other. The motivation of this action is love. Do you understand? [Yes.] When we think of what is more important between life and love, from the perspective of my own birth, life is in the secondary position. Love is in the first position.

In order to be registered, where should you go? [The original land.] It is not simple to go back to the homeland. You must pass all the procedures. Whichever country you go to, there is a window where they approve your entrance, whether it is Korea or another country, whoever is seated at that window, they should be able to stamp your passport. Do you want to know about it or not? [We would like to know.] (177-306)

### ***6. The Person Who Can Be A Chief In The Spirit World***

Once you are united with God as one, you should love Cain. If you are standing in the position where you receive love of God, with all of your life, heart, and soul, as you love God, you should love your tribe, people, and nation. This is the first commandment on earth. This is not a commandment of the Heavenly Kingdom, but is a commandment of Kingdom of Heaven on earth. The commandment of Heavenly Kingdom is: "Love your Lord, God, with all of your heart, mind, and life (Matt. 22:37), but the first commandment of the Kingdom of Heaven on earth is to love your country and people with all of your heart, mind, and life.

For this reason, the question is how to multiply God's love and how can we relate to God's authority and show reverence in the Heavenly Kingdom. In order to do so, we should have a vast, horizontal stage that can relate to you. Such a person will become a chief or a chief priest who can inherit God's authority for eternity in the spirit world. (34-70)

### ***7. Unification And The Era Of Registration***

In the future, centering on God's Kingdom, an era of registration will arrive. People try to be part of 12 tribes and 144,000 group of people. Do you know what the 144,00 group of people is? An era of registration is coming. Centered on the unification of North Korea and South Korea, in order to go towards the registration era, your own tribe should stand in the position of a homeland in the Heavenly Kingdom. Then your tribe can be registered at the era of Heavenly Kingdom's registration. It cannot be done as an individual.

The time for individual salvation is gone. In the future, if a president of a country swears in after joining the Unification Church, he will also belong to the dominion of the heavenly kingdom. And if he only goes through a ceremony officiated by the church, he will no longer be governed by satanic world. So, had Christianity accepted Father and attended him in 1945, the unification of Catholic Church and Protestantism could have been surely brought by no later than 1952. Since then, 43 years are gone by.

Forty years were prolonged. That is until 1992. That is why we are in the position to restore this by 1992. That is why Communism fell, Kim Il Sung fell, and even Christianity. . .

Now, Christian women will first follow Rev. Moon. The deacons represent formation stage, the elders represent growth stage, and the ministers represent perfection stage. A Korean word, "mok sa," which means a minister in Chinese characters, consists of a letter "mok" that signifies "eye" and another letter "sa" which means "death." Therefore, they are suitable to go to hell. Where does Rev. Moon belong? He belongs to "myung," which means brightness. Is my name not Sun Myung Moon? "Sun" in Chinese characters also means that it is clear and bright. What is so? Truth is.

Is it not the Unification Church principle? The Unification Church Principle means clear and bright. That is the teaching of Rev. Sun Myung Moon, True Parents, True Teacher, and True Master. Centered on this three-subject idea, we are trying to restore what had been already lost, and I pray that you will enter the Kingdom of Heaven with a royal badge! Through this, the unification of the world will be possible today. (219-100)

An important question that we should always think of is how to unite my mind and body and how to unite our wife and our own family. If our body is in the position of formation stage, husband and wife are in the position of the growth stage, and the tribe is in the position of the completion stage. That is why you must make one centered on your tribe. Do you understand what I am saying?

So, from the time when you know that I can reach my hometown, for 10 years, or rather for less than 10 years, until North and South Korea are both united. Once there is unification between North Korea and South Korea, there will be registration. As Jesus was born on the way to registration, a registration will take place.

You should be able to participate in that era so that you would not be ashamed of yourself. Then, what you would need to do is to write down all of your own personal history since you have joined the Unification Church. If this goes wrong, you will be in trouble. When you reveal everything in detail, as to your own personal history, and go over all of this, all of it should not stop you. Only when you go over all of this, after writing it down so that you are not violated by the necessary conditions, you can finally enter the era of registration. Do you understand what I mean? [Yes.] Thus, you should be prepared for this from now on. (213-206)

### ***8. True Parents' Pictures And Registration***

During the process of restoring the kingship of Israel, the Israelites died with Moses, while wandering in the wilderness for 40 years. Understanding this, whether it is a hundred people or a thousand people, everyone should be totally united in mind and body, and should walk the same path to the place where God wants, towards the same direction that True Parents are walking, making sure that there will be no difference by even one inch.

The way of the Principle is what you need to follow. You should not go your own way as you please. In order for your ancestors to help you and pray to God for you on your behalf, you should be united as

one in front of the picture of the True Parents. By so doing, only when you have authority of becoming a citizen of Heavenly Kingdom, passing through the gate of parents, they will cooperate with you, bringing freedom to the Archangel, Adam and Eve on earth. Do you understand what I mean? [Yes.] You should remain alert. If you are not serious, it will not work. In the future, the entire world should be registered. (212-59)

In the future, all Unification Church members should always carry True Parents' picture with them. Now a time has come when all Korean people would desire to hang True Parents' picture. That is the way the world is supposed to be. Such people should be trained for several years.

In Heavenly Kingdom, a registration will take place. Until now, no such thing took place. No nation was founded in the Heavenly Kingdom. There was no family, nor nation. You should know this. When people went to spirit world, all of the family members in the physical world were divided into different directions. However, from now on, such will not be the case.

If there had not been a fall, father and mother and all other family members were to enter the kingdom all together. Centering on love, from grandparent to father and mother, your own couple, and your sons and daughters, by becoming one, if they again become one with loving God and possess true love, even God would absolutely obey them. (210-366)

Not so long ago, the best photographer from Moscow who took pictures of Gorbachev was given the responsibility to prepare a special report after President Roh visited Russia. But he wanted to interview me, insisting that I am the one who should open the door, not President Roh. After the interview, I asked him: "You came again after you had come not so long ago. Why?" Then, he asked me: "Do you know what privilege I have?" I asked him, "What is it?" He answered me: "It is a secret." I insisted he answer. Then he took out a picture of Rev. and Mrs. Moon from his wallet. Then he said that without keeping it in his wallet, he cannot sleep in peace. Even many American university students are carrying a picture of True Parents.

Ladies and gentlemen, what about you? Do you also carry a picture of the True Parents? [Yes.] Really? Let me see. Well, you are lying and cheating people while you are carrying that picture with you. Mother is not there in the picture. [I am always attending her in my heart.] If you are carrying a picture of Father alone, he is lonely. Mother is more precious. I respect mother. (laughter)

You should carry a picture of True Parents together. What is this? If you carry only a picture of Rev. Moon, he is like a widower. (laughter). Then, that picture will cry. Since Mother is a woman, women must dislike another woman, Mother. [We like her.] If so, why do you carry only Father's picture? You are carrying only a man's picture. Such are women. (210-353)

## **Section 4. The Spirit World And Ourselves**

### ***1. Our Attitude In Front Of Spirit World***

To those of us who are in the pioneering age, a Korean robe is rather uncomfortable to put on. For that reason, at times you might worship God, only wearing underwear. Isn't this right? In the battlefield, it is all right, even if you are wearing a panty. When you are fighting in the battlefield, in the midst of fighting with a gun, would you care about wearing a uniform? Especially, if you are in the most fierce battle. If you might have to die, will it be necessary for you to wear many layers of clothes? What? When you are fighting, are you only wearing a panty? At least, it will keep you cool. (laughter) Will it be a crime? They might say that it violates military rules. But they cannot say no from the strategic viewpoint. (31-204)

We'd better try until death. Let us be willing to die. When we die, we should die well. Then, after death, we come back to life. But dying well is our responsibility and reviving us is God's. If God breaks His promise to revive us, God will be the one who did not execute His own word.

When I die, if God does not keep His promise to revive me, would He leave me alone, abandoned? No. He would have to pay me back some other way several hundreds times better. Such is the formula, isn't that right? I was asked to die, and I did so because He promised me that He would resurrect me. Nevertheless, if He did not keep his own word, He would have to pay me back with even a better value because of it. In such a case, for the price of my own death as an individual, I could say, "Save my own country." Or I could ask for the salvation of the world. For that purpose, God could tell me a lie and drive me to the way of death. (44-255)

When you are faced with death, you should not try to escape from it. If you are willing to transcend the death of an individual, fighting a historical death, even if you die, you will be able to be resurrected at the time of historical resurrection. For this reason, a wise person is the one who fights desperately at the risk of his or her life, when faced with death. The wise person is willing to fiercely fight back and stick out his or her neck.

If an individual is willing to go a path of indemnity at the risk of his or her own life, and a family is doing the same, that family will come to possess a palace of the world. Do you understand what I mean? (31-171)

## **2. Father And Us**

As I am trying to make you a son or a daughter with a qualification of going to the free world without walls or barriers when you go to spirit world, how grateful you should be for it. It is possible if you live according to my words. Since there is no boundary in the spirit world, the territory of the spirit world is endless. Yet wherever you go, all the spirit people whom you come to meet would say, "When you were a leader of such and such place, I cooperated with you." They are all your friends. They become your comrades in the same era. (162-114)

If you go to the spirit world, such things will take place. Whether you like it or not, such things take place between you and me. Would it not be so? There can be many incidents where you could not resolve certain matters for this or for that reason, and thus you are accused for a certain condition, without being able to go over a borderline where Father could go. (122-19)

What is one thing that Father is concerned about? Among you, after I die, how many people will be willing to love Unification Church members, centered on the people who love God, and before Father who desired to love God so much, but who had to leave, not being able to love Him enough. How many people will be able to weep with the same heart of Father.

If all of you can do it, when I die, as you are climbing up the mountains and passing through rivers, your passion for the love of God will be able to turn upside down the origin of history, change the current of history, and magnificently expand God's territory, despite the evil environment. Then even if I become a handful of dirt in the mountains and rivers, I will praise God in joy and pray for the glory and victories of God forever. (22-108)

When you go to spirit world, even if you see me and say, "Father, didn't I see you at Chung Pa Dong church?" I will see you only with the glasses of the Principle. Do you understand? Father will see you with the glasses of the Principle with which he had been walking in his course of life. By so doing, if you are fit to that standard, you will be admitted, but if not, you will not be. (23-203)

Father is now famous. Father accomplished a lot and is now standing on the glorious foundation, but he desires to leave, after inheriting to you all of the foundation, all who were brought to me in the relationships of love. He wants to inherit what belongs to Him to you as yours. He wants to leave everything to the people who inherited the foundation that He loved all humanity, parents, and heaven with true love that resembles Him. It is an inheritance for one hundred percent.

Well, when they come to spirit world, who will they look for at once? They will look for True Parents. Then, I will bequeath all of my possessions to them as I did on the earthly plane. How amazing it is! Due to true love, since everything could be inherited from God, you must understand that with true love, True Parents want to bequeath everything to their children. It is the same for me. Centered on true love, Father was given everything, including spirit world, but He also desires to bequeath everything to His children centered on true love. Do you understand? [Yes.] Even in the spirit world, I intend to inherit such a glorious position to you one hundred percent. Eventually, you must pass through this world at once. You must be prepared for this. (147-48)

## **Section 1. Spiritual Phenomena And Liberation Of Spirits**

### ***1. Good Spiritual World And Evil Spiritual World***

The spiritual world is divided into two, Satanic world and God's world. If we can find the way to move from the evil to good world quickly, the earthly things will naturally fall into place. Do you understand? [Yes] How do we walk this path? This is possible if we possess the secret method through which we can go to the Satanic spiritual world and claim to the heavenly side entire Satanic individuals, families, tribes, and countries. Do you understand this?

Such a time is coming. You should know that when this time comes to the spiritual world, this will be reflected in the physical world, and things will roll into that world with a rapid transformation. (134-15)

What is the new movement we are developing? What kind of ideology is it? If God exists, it is the ideology conforming to God's will. Then what does this ideology seek? If God exists, there should also be spiritual world. Spiritual world is a storage house where all our ancestors, present human beings, and people of the future arrive at and stay.

In this spiritual world there must be good and evil worlds because the physical world is like that, and evil people will have to go to the evil spiritual world. If death is the end of existence, this is meaningless; if, however, human beings exist in some relationship with God, and spiritual world is where they gather, then this spiritual world is inevitably divided into two different kinds -- good and evil.

The question, then, is what the good kind and what the evil kind are. God must seek the ideal world of dual purpose, where good and evil spiritual worlds harmonize and human world harmonize, thereby bringing everything into oneness and fulfilling the individual and whole purposes; we human beings have dual purposes, individual and whole.

What, then, is the problem? What has the human history been seeking so far? What is goodness and what is evil? Why do we have to live in such a lamentation and bang against the thick wall? It is because the starting point, process, and final destiny are different. What is its content? If we analyze the content, it is quite simple. (126-83)

We cannot understand this clearly without seeing comprehensively how the spiritual world develops and makes a relationship with the physical world. The spiritual world can be divided into good and evil worlds. This is a world that really exists. Although the people on the earth do not realize, this world is real.

Now, good and evil spirits are struggling with one another in the spiritual world. The battle is that good spirits are trying to lead evil spirits to good places, while evil spirits are trying to prevent good spirits from going up to good places. You should know that evil spirits are connected centering on Satan, and people on the earth today are living under their dominion. Why is it? The good spirits are standing on the good side not because they are completely good from God's point of view, but because they have established some condition of separation on the earth.

In the progress towards the original world of ideals, an ideal realm of goodness where original human beings can go, good spirits are fighting their way towards it, and evil spirits are struggling to block the way. The evil spiritual world and evil physical world are in a constant communication. Good spirits are the ones who were opposed and persecuted in the sinful world. They are religious believers.

## ***2. Spiritual Phenomena***

If religions fight against one another in the final day, what would happen? Now is a time when such a phenomenon can easily occur. Unification Church has been born in order to prevent this. Unification Church is a preventive prescription against it. This is needed. So in the age of religious war, the body and spirit have to work together to protect,

The spiritual world dominates the physical world. There must be hundreds of billions of spirits in the spiritual world; Japanese population of one hundred million is no match at all; this is not even as big as a dust on tip of the toe. Billions and trillions of spirits are on the offensive in order to take over the physical world.

One example for this is neurosis. A little while later, perhaps after 1980's or year 2000, everyone may develop some spiritual sense and communication, either with good spirits or with evil spirits. We cannot but fight no matter how much we are told against wars. Such a time may come. The mission of the Unification Principle is to prevent this. A high antenna produces noises, and this is a phenomenon of neurosis.

What is the most fearful is just to have all the evil spirits attacking the physical world. The question is what would happen in this case. No matter how numerous people are to fill the world, they will all be struck by evil spirits. So God is making the preparation, expanding the foundation centering on good spirits. (55-30)

### ***3. A Letter From The Spiritual World***

Does spiritual world exist or not? [It does.] No. [It does] You rascals, no! [Yes] Then have you seen it? [We have] You found out through me, right? [Yes] What if it is a lie? [It is true] (laughter) Believe, if it is true and you want to believe it. I am not responsible if you go to hell later. Don't say, "Alas, I am in trouble because I was deceived by him." If it really exists as I said, would you not be exclaiming with joy, "Oh, what he said if really true"? [We would.] You will be extremely happy, with your eyes wide open and nose twisted.

These days, I heard that Dr. Sang Hun Lee's wife Han Sook sent him a letter from the spiritual world, and that Dr. Lee also replied to her. The letter said: "How wonderful the spiritual world is! I did not know that Blessing is so precious. It is like a dream that we are a part of the heavenly royal family. This is like a mystery. It is so nice here that I am sorry for coming here first. Please forgive me." In other words, she went to the spiritual world before the husband, and since she had followed the Unification Church, dream-like things happened to her. So this is why she was sorry, because it is too good.

We are smart people. Since we know the spiritual world well, we live our whole life in order to conform ourselves to its program, right? Since we come from the origin, we should go back to the origin. Aren't rivers created by water rising up from the sea and falling back down to the earth? So we should go back to the origin. Life continues through the movement of circulation. Without circulation, everything will dissolve back to the basic elements. Do you understand this? [Yes]

Who is God? You should know this. God is like the mind of the universe, do you see? Now you know who He is, right? As we come to understand it, He is like the mind of the universe. Can you see the mind? [We can't] Can you see the mind? [We can't] The spiritual world is a place where the mind is substantial in a certain form, and it transcends time and space. There you can eat whatever you want. You don't have to worry about food, drink, or clothes. It transcends all the need for the necessities of life, do you see? Do you need a car there? Do you think there is a car factory there or not? [Not] Would there be

factories for food, clothes, or fabrics? [No] None of these are there. There, you can traverse millions of miles in a split second. With what power? Through the power of love; if you have a desire to see a beloved one, he appears before you in a second.

Speed of love is the fastest, and it passes in a straight line. This is not a worldly love but Godly love. What is Godly love? It is true love. When you are in the realm of true love, you can move at the highest speed on a straight line, so you can operate on the stage of universe, which is under the control of your thought. This is a truth that sounds like a lie. It is because I know such things that I did not complain even when going through the valley of sorrow all alone as a pioneer for seventy years and that I am still determined to walk this path straight until the time of death.

So if I die this way, there is a railroad in the spiritual world. The railroads in the physical and spiritual world are connected like train rails that go through a national border; they have to fit exactly, not too big or not too small. Only the Unification Church knows these things. No matter how proud Christianity is, they don't know it. In this age, which boasts late 20th century science and logic of structured progress, Unification Church is the only place where we can testify to God with a religious theory through a well-structured process. (210-225)

Now is not a time when Jesus is opposed. Now that the age has come when the entire Korea will praise Rev. Moon's name from the standpoint of global history, you should fulfill the mission of Tribal Messiah. Now, your tribes including far distant relatives will be restored at once. Restoring 120 families in six months is not a problem. We are in the position of elder brother. The whole heaven and earth will see the dawn.

A grandfather will become a grandchild, and a father will become a son. It is like when somebody becomes a king, his grandparents and parents will have to serve him. Messiah means kingship, right?

In that country, all the saints will return from the spiritual world and rule as kings in the name of the Christ. This is tribal kingship. Then this becomes a realm of liberation in which kingship can participate in the global domain. Just go and see if this is empty words. Now we have a letter from Dr. Lee's wife in the spiritual world, Han Sook. She said, "Oh, when I came to the spiritual world. . . you can come here when you are Blessed. I did not know what royal family of heaven means until I came here. Sang Hun, I am sorry that I came here before you." It is this kind of place.

When such an immense and eternal world is unfolding for us in our hometown, I don't want you to be poor people who have a limited scope of operation and loose sense of direction. I am doing this in order to create a Clear, liberated realm in which we can travel freely to the highest heights of the great universe. What do you have to leave behind for the sake of the future generations? You should leave behind good things in the country for the sake of your descendants. Then people of the country will protect them, right?

So instead of money, power, or knowledge, leave behind patriotic accomplishments. This is the preparation. Without preparation, even I would have perished, right? Everyone wished for my downfall,

and yet I made a thorough preparation against my downfall. So I cannot perish under any circumstances. (213-146)

#### ***4. Hope Of Spirits***

Then what would people in the spiritual world desire? This is the problem. Food? In the spiritual world you can be supplied with all you need according to your situation. If I want something, it comes to me immediately. Do you understand? There is nothing that is impossible if you have the subjective ability to digest and move it. I don't talk about this so much because if I do, they say I am out of mind. If you want to give a party for one million people, it can be done very quickly because one million people will appear at once and all the preparations will be finished in a minute. Isn't it wonderful?

How miserable is the physical world at present? Considering the Korean situation, there are many jobless people, aren't there? This is the situation. What would move things forward and bring hopes? When atoms divide, it produces heat, and in the same way, when we start the division process of love, one spark will create chain explosions, "Ba ba ba bang!" Doesn't it look quite likely? (141-278)

The question is how the other world is connected. Those in the other world also hope that tomorrow is better than today, just as people in the physical world commonly desire that today is better than yesterday, and tomorrow is better than today. Everyone, whether Orientals or Westerners, or people of the past, present or future, all desire a better tomorrow. This never changes. All the spirits are the same. They want to have a better future and better life in the spiritual world than they had in the physical world. Then, the question is centering on why we desire a better future. (141-269)

The six-thousand years of history, so far, is a history of searching for one Adam, and a history of re-creating Adam. This is why you should follow me. Eve cannot be created without Adam. This is why God has to create one man, Adam. For this purpose, flesh and blood of the countless people who have appeared in the providence of restoration should be used as a material. The sorrows and hopes of the millions of spirits have to gather together and unite. When the substantial Adam figure finally appears, only then the martyrs, who have died under severe persecutions, feel that their lives were worthwhile. So spirits receive liberation themselves by connecting with living beings on the earth. This is how it works. This should not be just a vague concept. The question is how we can realize it deeply. (29-271)

We should move on no matter what others are doing on the side, whether they are eating or resting. In front of us, thousands are continuously going forward. If you struggle and make hard efforts to go, pulling the rope relentlessly, other people will also hold the rope for you. In the meantime, you will also feel that many people fall away from the rope. It is like a marathon competition. There will be first place and second place. History has been flowing this way. So far, countless spirits have been holding on to this rope for thousands of years. So if you take the first place, go to the other world, and take over the roller of the rope, then spiritual world and physical world will be restored. (32-145)

#### ***5. Liberation Of Spirits***

Our Unification Church must complete the mission of three ages; saving the spirits, liberating the people living in the present sinful world, and liberating those who are to come in the future. So we are proposing the liberation of three ages. This is an incredible task. What would happen if such dream-like things come to pass in reality? Your eyes will open wide, your mouth won't be able to close, and your ears will rise up high, but you will have no choice but to bow down your head. (28-201)

Now, what is the Unification Church trying to do? It is trying to create peace and reconciliation. But to whom do you want to bring reconciliation? Jesus and the Holy Spirit have been engaged in this task -- giving birth. What Jesus and the Holy Spirit must do is to give birth to children. The Bible says that by giving birth we receive salvation. Nevertheless, Christianity says that women should not give birth. Then why did God create the organ for child birth? No. This tells us symbolically that women must give birth again as a representative of Eve.

The essential characteristics of the original mother failed to be incarnated in Eve's body and spirit, as Eve failed to establish the common base with the original subject partner, who was to receive and complete those characteristics; for this reason, God took it back. So in the time of Jesus, God sent these characteristics as the object partner to the subject partner. So it has no body. Jesus had a body, but the Holy Spirit had no body. This is why we say that the Holy Spirit is like fire, oil, or wind.

The Holy Spirit enters into human hearts, moves them, and cleanses the sins. This is like mother giving birth to a child and raising him up. just as mother needs father's protection for a child birth, for the rebirth, one should make a condition that he is reborn through the protection of Jesus. Now, have Jesus and the Holy Spirit been able to rest so far? No. Also, has Christianity been able to rest? No. Also, in trying to save the fallen men for six thousand years, has God been able to rest? No. Then, has Unification Church been able to rest? Has Rev. Moon been able to rest? Although I am over fifty years old, I am still running around like a scared deer.

What am I busy for? I am trying to bring reconciliation so that God can rest, Jesus and the Holy Spirit can rest, and all our ancestors can be at ease. God is an ancestor, isn't he? All the Christian saints who have been to the world are ancestors. All the religious leaders are the same. We must liberate these ancestors. We must resolve their sorrow. Such a problem remains now. (75-38)

I am thinking about this all the time, as soon as I wake up and even on the way to the bathroom. Asleep or awake, wherever I am, and whomever I meet, I am thinking about this. Do you understand this? This is why I am not indebted to you. How incapable a leader must be to live in debt! I am now fifty eight, coming close to sixty, and yet I always tell myself that I will not be beaten by young people. Even these days, I go to the boat every day. I am doing this because I know that in America those who have an interest in the sea will have a great economic power.

I am doing this in order to liberate the spirits who died in the sea. Sometimes, I go out to the sea even after hearing a storm warning. Why? Because there are many spirits who died in the storm. In 1975, I went to Cape Cod and liberated spirits. No one knows this in the world, not even the captain of the boat. My daughter and true mother are doing the same thing now. Then why are we doing it, when receiving persecution for this? For the sake of the liberation of the spiritual world. You understand, right? (93-96)

## ***6. Unification Of Spiritual World***

The physical world is Satan's stage of action, and spiritual world God's stage of action; as such the two worlds have been always in confrontation. When this surely remains as a sorrow in the age of restoration, we cannot let them be in opposition to each other. We should establish the realm of the mind centering on God and realm of body governed by God. You should know that the securing the foundation of unification depends on how you develop this in your daily life. (45-213)

In order to unify Unification Church, we should unify the spiritual world. Do you know spiritual world? [Yes] Our Unification folks should understand spiritual world and unify it. Do you think it is easy to unify it? Without unification of the spiritual world, there is no unification of physical world. You know that the fight in the physical world is hard, right? Then, do you think the fight in the spiritual world would be easier? [Harder] Considering this, our Unification members cannot speak about hardship, when I am going forward myself. (153-56)

In the search for an ideal, what makes the physical and spiritual affairs one? For the sake of the unification of the two worlds, things have to be switched around. If I hold on to my own, it will not work. I have to give everything, and the other side will come along here, and the other side has to give everything, and this side will go along there. We are moving on in order to find the lost place. (147-94)

In connecting the spiritual and physical worlds, we should first confirm and realize deeply our conviction for the world and the ideal of unification, after which we should gratefully take the suffering path in order to realize it worldwide. Then the spiritual and physical worlds will automatically become one, and unification will start from there. The direction of unification will be decided there. (29-285)

Can the Unification Church unify the physical world before unifying the spiritual world? [No] That is the principle. For this reason, in order to unify the spiritual world, I am driving the Unification members into a place of death mercilessly. Then spiritual world will have to help you. The more miserable place you go into, the more the spiritual world will be united. Do you see this? [Yes] When you go into a deep place, the realm of the heavenly kingdom will be open among the thirty million Korean people. Do you see this? This realm includes those who are in hell. (49-109)

## **Section 2. Relationship Between People On Earth And Spirits**

### ***1. People On Earth And Spirit***

This world is the world of devils. We must restore it. You don't know when you will die, right? Everybody dies. Heavenly kingdom on earth will not be established unless we prepare a foundation on the earth through which we can move between physical and spiritual worlds, beyond the limitation of death. Without the heavenly kingdom on earth, there will be no heavenly kingdom in spirit world. You should arrange things in such a way that after you go to the spiritual world, you can come back to the physical world at will. Only then can we live in the heavenly kingdom on earth, and create the heavenly kingdom in heaven.

After you go to the spiritual world, you should be able to come back. Without establishing the heavenly kingdom on earth, you cannot come back there, however. This is not a vain thought. It just happens this way, OK? We should work on it in eternity. Ancestors, when they go to the spiritual world, are found guilty. Unable to find their way in the spiritual world, they come to the physical world and pay indemnity again. But you should not follow the same steps. If the Divine Principle is true, you are all blameworthy. What would you do? (146-223)

There is a high wall blocking the path of religion and way of the world. How can unbelievers harmonize themselves with the faithful, and how can believers find harmony among themselves in the last days? Without resolving this problem, mankind will be divided in two and fail to enter the new unified world. If the divided parts enter the unified world, this is not acceptable for the absolute God. So they cannot arrive at God's ideal world, which must be one. For this reason, the problem is not the complicated world affairs, but how I can find the self that can unify the mind and body and leap towards the goal. This problem remains, do you understand?

Considering that unification of religion and world must come from my self, the question is what the Unification Church is trying to do today. The Unification Church is not just working for religion. The Unification Church should achieve solidarity with the world, finding ways in which the religious foundation can cooperate with the social foundation, and also ways in which the world can seek the religious path, thereby bringing the two into oneness. There is a big wall here, though. In bringing religion and society together, the wall stands blocking individual, family, nation, country, world, and even spiritual world. You should know this.

So how can we demolish this wall? Where did the trouble start? Not from the world, but from the individual. What happened as a result of the individual going out of order? Mind and body came apart and pursued their own separate purposes. Then what is the problem here? It is how to converge different purposes into one, and then how to bring mind and body into one.

God and Satan are at work. God is leading the providence of salvation for the mankind, and Satan is working in opposition to God. God, on the side of goodness, is advancing daily towards the purpose of the ideal world, and Satan is opposing it and trying to turn it back. At one border line and wall, God says, "Do not go over the wall. Turn to the right.", and Satan says, "turn to the left". This is how we are divided. On the worldwide level, the rightward pursuit resulted in the Right Wing, and leftward movement the Left Wing. Now we are faced with the historical age of the Last Days for the Right Wing and Left Wing. Right and Left Wing represent the struggle of mind and body.

The question is how to bring this into one. Is it through the unity of world, country, tribe, family that the individual is united? The beginning should be made from an individual. So putting aside the world for a while, we should make a movement of uniting individuals. With religion and reality connected, we should discover the "self" that neither of them can deny.

The problem here, however, is that evil spirits are dominating the body. Evil spirits are rooted in my body, and good spirits are rooted in my mind. This way the division of materialism and idealism comes. As the time comes, sinners should confess their sins. Unity among people on earth is influenced by the

confrontation of good and evil spirits. Good and evil spirits are fighting on the worldwide level, although we do not feel that we are a part of it.

## ***2. The Position Of Spirits In The Spiritual World***

Today, there are four billion people living on earth, and yet in the spiritual world there are hundreds of billions of souls. So the question is how the physical world and the subject spiritual world are connected. Are they connected through those which we consider valuable in the physical world, such as material, power structure, or knowledge? It cannot be so. It is because the other world transcends material and knowledge. It transcends time and space so that yesterday's joy can be that of today, and today's joy can be that of tomorrow.

Hence, we can see that the original world is not moved by what we need and the value of the physical human world. What is the center of value in the spiritual world? This is important. Each of the spirits belongs to societies of the spiritual world. Like the physical world, spiritual world also has families, tribes, countries, and world. Everyone, no matter who he is, will go to and live in the spiritual world. Think about it. All kinds of people are there, primitive or civilized, who have lived in human history.

If the human history has not been a history of peace, happiness, and ideal, what will happen when they go to the spiritual world? This is curious. How are they to be treated? One cannot change his lifestyle so quickly in the other world. There is a saying that the habit of a three year old continues until he turns eighty. Inborn personality is hard to change. So are spirits very different from the way we live? It cannot be so. The lifestyle on the earth is transferred to the other world. After all, those living in the spiritual world used to be souls of living individuals. So spiritual world is not so different from this world where we live. (141-268)

There are many kinds of histories in the spiritual world. But spirits cannot come here and work as they wish. They are blocked from it. Unless a bridge is built through religion, only few special people can return to the earth. Suppose that factions are created in Judaism, and the point of connection moves here and there, creating a confusion. Spirits are trying to come down from the spiritual world, but the connecting line is not straight; when different factions of Judaism make their own spiritual conditions, the line of connection moves here and there. From the spiritual world, only those who are connected through a straight line can come down for a returning resurrection. Those who are connected on the physical world will go to the spiritual world after one century. If he wants to come down, he has to follow the same principle, and yet only few special ones can come down.

This way, walls become more and more numerous in the spiritual world, and it becomes more and more complicated. Afterwards, the entire generation goes to the spiritual world, and walls become bigger and bigger. Now is a global age. Imagine how complicated it must be. Think how many times you must turn around and around in order to find this. So when the time comes, the walls must be brought down. In the spiritual world, let us create the main road, through which spirits can come down. Those who went this way cannot come here, do you understand? So this is what the Unification Church will do. (102-29)

Those who went to the spiritual world are all divided. . . . In the spiritual world there is no horizontal communication, but only certain vertical communication. (218-125)

### ***3. Spirits Are More Numerous Than People On Earth***

Ladies and gentlemen, do you know how big the spiritual world is? Have you ever imagined what the population of the spiritual world would be? According to a spiritualist, there are about 3320 spirits for each living person. (laughter) If this number is all on our side, will we win or lose the fight against the world? Do those spirits fear atomic bombs or cannons? [They do not.]

Likewise, if you do not fear bullets or atomic bombs, you will never lose. (laughter) You will surely win. You have to transcend it. When you oppose this, I will let you go. I will jump all the way to the back, and after you all go away, I will lock the door and claim the ownership. (laughter) After everyone leaves, I will lock the door. You should know that I have been fighting with such thought.

### ***4. Wandering Spirits***

Those who are more pitiful than starving people are those who deny God. For those who are starving are still not beyond the standard and will be granted a certain level in the other world, and yet those atheists have no standing because they deny spiritual world. They wander around in the spiritual world like clouds. They become wandering spirits. just as clouds gather up and produce rain, they get together and create evil influence. They all go to hell and inflict pains on the hell. Although I know all this clearly, I have to save them, and this is why I am doing this.

Next, those who die are a problem. Now, sixty thousand people in one day and twenty million people in one year die out of hunger around the world. When the parents, brothers and sisters, and children of the dying see them, their hearts are torn with pain and filled with tears. If so called True Parents do not sympathize with them and prepare for their rescue, they will be accused by their contemporaries.

So with these thoughts in mind, I am trying to pave the way of solving the problem of world hunger through fish and ocean businesses. Although we have to suffer over and over, the Unification Church wants to stay closest to the problem and find the way, and for this purpose we are making worldwide advertisements. This is why we made a TV center in Washington DC. We will also do fundraising for this.

Considering that people do not live longer than one hundred years, out of five billion people, fifty million go to the spiritual world each year -- to the hell. What can we do about this? God wants to harvest to His side what Satan has sewn, but the longer it takes. . . . So far, for the last forty years, how many have gone to hell? Several billion. This is serious. When I go to the spiritual world, and they say, "When you were alive on earth, you did not do your responsibility for us, did you?" Then how am I supposed to reply to them? We should at least do it in thought. When we talk to the members at least in thought, and move on with the determination to take the responsibility for the future, they will say, "You are an amazing person. You had a concern for us." (213-355)

### ***5. Discrimination Of Spirits Is Done By The Mind***

Let me tell you one thing. No ordinary people in the world would know the taste of water which you drink after working with sweat with a serious heart. How is the taste? It cannot be even compared with cola or honey water. It has a different taste every time you drink it. Do you understand me? You should be able to discover such things; otherwise, you cannot develop spiritual sensitivity. If you can feel such things, your ears will become very sensitive and be able to hear what is being said from far away. You will be able to analyze things. Even with closed eyes, you will be able to perceive who is passing by and whether he is a good or bad person. Spiritual sense will come to you.

Without understanding this, you cannot discriminate between good and evil spirits. You should know this. You know not by seeing but through the mind. The mind's eyes are at a higher level than your physical eyes. Do you understand?

Why am I telling you this? It is because you have a long way ahead. You should know this. Do not be over-confident. This is why it says in the Bible, "Blessed are those whose hearts are poor, for they will receive all." It is the same principle; it all connects together. (96-170)

### ***6. Value Of Life On The Earth***

We know that for thousands of years countless people have been accusing Adam and Eve. Now you are becoming new ancestors. Will you be ancestors who will be accused by the descendants or ancestors of Blessing, who will be glorified? You are standing on the cross road between the two. Adam and Eve are accused because they failed to stand in the public position; surely, they would be free from accusation today if they had followed a sacrificial and more public path. You should know that you are standing in such a place. You should always be thinking that you are representing three ages.

For this reason, we should know that the spiritual world is in my hand and that your ancestors are at your mercy. When I follow, this happens. (father writes on the board) If we gather everything that is hanging here, put the two together, and lead it, they will come running. We should do the mission of past, present, and future. This is not just words but reality. So everything is in my hands; spiritual world, relatives, country, and even the task of setting the right tradition for the descendants. You should always keep this in mind. Whether you do it well or not will determine whether your ancestors and relatives will be liberated and whether your descendants can be decided as chosen people of liberation. (56-76)

God has been trying to hit the target for six thousand years, and yet without a success; after trying for tens of thousands of years, He finally hit the target. (applause) The time of the strike was when God was most tired and exhausted. At this moment, however, would God doze off or stay powerless? When God was so exhausted and sleepy, He perked up and shot again with a clear mind. After the shooting, would He fall down with fatigue? [He will be happy.] Forgetting about keeping up His reputation, God would exclaim "Wow" with joy. (cheering applause)

How amazed would spiritual world be? How amazed the angelic world be, saying, "Gee, the archangel's mistake put God in trouble, and now spiritual world has been wishing for the target to be hit for tens of

thousands of years, and if this target is actually struck, what would they say? "Wow." Think about it, if things will happen like this or not.

If there is such a wonderful place, would people all over the world try to come in or not, even if the entrance fee may be ten thousand dollars? [They would.] Suppose all kinds of people have been coming in there without being able to see the moment of the strike, and finally a beggar comes in with begged and borrowed money and witnesses God striking the target. What would the beggar do? Would he start dancing there or not? [He will dance.]

Then, God would be excited and become proud. Wouldn't he say, "Oh, it is hit, it is hit. Is there anyone around?" When God sees this beggar then, would He say, "You, damn beggar", or dance around with him? So after the day of meeting, how would God walk? This way? (Father demonstrates and laughs) Would he say, "Why is this Fifth Avenue so narrow!" or "Oh, the road is quite wide"? Think about it. Would things happen like this or not? [They would.]

### **Section 3 - Ancestors And Ourselves**

#### ***1. Ancestors Are Looking Upon Us***

When you go to the spiritual world, would your ancestors come to you or not? [They would.] They will say, "Wow, our grandchildren joined Unification Church and met Rev. Moon" There, the palace and royal family of the heaven will start. There has been no palace in heaven so far. Between the grandchildren who simple-mindedly do what I say and the grandchildren who try to be smart and evade me like eels, who would they praise? Would they praise those grandchildren who act like turtles or like rabbits? [Those who act like turtles.] They will praise those who act like turtles. Rabbits sleep on the way, saying, "Oh, I am already here." Rabbits urinate often. (laughter) I don't know about turtles. I have not seen them urinate. Rabbits urinate on the way after a short while and again after a short while. Why? In order to mark their own territories so that others cannot come in.

So we should be like turtles. Those who do what they are told to do and those who move on day and night and regardless of seasons will be welcomed everywhere. The ancestors in the other world are looking at your life. There is no place to hide. Your ancestors are all watching. When you go to the spiritual world, you can see through walls and even the entire earth. We should live in such a world eternally. We are created as God's objects of love, so as long as God is eternal, the object of love should also be eternal. So we are eternal as God is. Without being an object of love, there is no eternal life. You should know this clearly. Go and see if it is so or not.

In the other world, who goes to the highest place? Those who want to be born again tens of thousand of years, serving the humanity as God does and consoling God, goes nearest to God -- those who try to use for mankind whatever good things they have. Isn't it so? When grandparents come close to the time of death, they pass on all the good things to their children, don't they? In our life, we should say that we

will leave something precious behind for mankind, just as grandparents give all they have worked on over to their descendants. (213-196)

## ***2. We Should Be Better Than Our Ancestors***

In this house, where our ancestors have lived and where my grandparents and I were born, if I leave behind here love that is even greater than that of my great grandparents, it produces the luster of love for heaven. Hundreds of millions of voltage of light will shine forth. And this light goes to the hometown. It goes up through the ancestors and to the spiritual world centering on God. This heaven is our original home, for isn't God our original Father?

Adam and Eve are God's body. Adam and Eve are horizontal parents, and God vertical parents; hence, when we throw away the horizontal body and vertically return home to heaven, we would serve them as eternal kings. Who is the king? If Adam and Eve had not fallen, they would have perfected themselves with God's body and connected direct and indirect dominions on the earth with love, thereby becoming kings of love. Then God would live in Adam's mind, and Adam's spirit would be God's body; they would be one body. They would share God's love and human love eternally and breathe it together. Thus, we should receive God's love, and try to come close to the original love of the ancestors Adam and Eve; this is the eternal spiritual path leading to the other world. (213-190)

## ***3. We Should Visit Our Ancestors' Graves***

Are your grandparents alive? [They are deceased.] Then, you should visit their graves and serve them as if God were buried in the grave. Korean people cry out loud in times of death. This is to repent for not having served the grandparents well when alive and to resolve the sorrow. When you follow me and realize the great principle of the heaven, you will understand these things. We should make the serving efforts until we are recognized by God, and our grandfather sends a message that it is now enough, OK?

At the time of harvest, you should not forget about your grandparents. You should visit and serve them earnestly in each of the four seasons. So try it. Then people will say that although you seemed to have become a monster after joining Unification Church, you have actually become a royal child.

You should serve your parents better than any king serving their parents. Don't you wish that your parents are kings? Your hearts desire that your parents are higher than kings. All this is allowed. You should keep the royal norms and serve your parents so that they are happier than any kings in the world; then you will qualify as royal children. Then, parents will praise their children whenever they open their mouths. Ancestors and descendants will all praise, so realm of unification will be realized centering on parents. Unification will occur centering on parents, centering on grandparents, and then for the whole -- grandchildren, children, parents, and the whole world. This becomes the foundation to thoroughly spread the seed of unification. It will be as if we were dreaming. (220-350)

Now Cain has been subjugated and elder sonship restored with regard to the three generations -- grandparents, parents, and elder brother; hence, a grand child will be served as an ancestor at the levels of elder sonship, parentship, and kingship. As this great upheaval and 180 degree's turn occurs, in which

child is served as parent and younger brother is served as elder brother, the hell also turns around to the heavenly direction. You should know this.

So you should go to hometown and make the 160 families. From your hometown, bring them to speeches and have them sign the membership form. When the eldest descendant, who is the root of the lineage, recommends it, then all other descendants should follow. So gather all the 160 families and hold a party, where you can proclaim Unification Church. They should pledge to absolutely follow the royal children's command and inaugurate them at the ancestors' grave. You should say, "Through the True Parents, we have become ancestors to inherit new lineage and a tribe of liberation and blessing. Our tribe will be eternally unchanging descendants of God." Then, you will be eternally separated from Satan.

So Unification Church allows ancestor worship. Do you understand? [Yes] Does Christianity allow ancestors service? [No] Unification Church has to establish this tradition. This is not a secular tradition. This brings about a royal land where we can eternally serve heavenly ancestors, clan, and tribal messiahs in the mainstream of providence. It will be a land where we can serve the king and sing songs of peace eternally. Do you understand it? You and your tribe can go to the kingdom of heaven only after having lived in such a country. (220-222)

#### ***4. Ancestors We Can Meet***

You should know what your house is like. Your house is exemplary for all the houses people live in their earthly life. Furthermore, it is exemplary for the spiritual world. Those who have lived in such a house can naturally go to the original homeland. There will be no conflict when meeting grandparents or anyone else. They will all say, "Hey, you came!" In that place, your ancestors of thousands of generations are all there. Will there be ancestors in the hell or not? They are staying at different levels. Those who lived for the sake of others go to the kingdom of heaven. So family harmony starts from me. If I serve and serve in the family, and if I can do this at least three times, grandparents will be able to realize their own shortcomings.

How many times did Moses try to serve in Egypt? Seven, eight, even more than twelve times he tried to serve. When you try to serve and yet they do not receive you, then Heaven will guide you. He brings fruition in other places what you have invested in one place through serving. So those who live a serving life like God, although they may be persecuted and opposed on the earth, will live in the original land of God, just as Israelites entered Canaan after the wilderness.

So have you served grandmothers with white hair? God is white. Snow gathers in high mountains, right? God is clean. So the head knows this. Also, did the grandmother serve her own parents-in-law? She should serve her parents-in-law in such a way that when they die, they will say, "I will prepare to receive you in the other world just as you have served me." (213-182)

### **Section 4. The Coming Of The Spiritual New Age**

#### ***1. Coming Of Age Of Extrasensory Perception***

The age of extrasensory perception is coming, and then there will be no one who cannot communicate with the spiritual world. The time when people attack people is over, and spirits will be attacking the earth. Now, Satan and evil spirits are attacking, but there will be a time when good spirits will attack also. I am doing this in order to pave the way for that. When we think about parents' attitude towards children, it is so wonderful to have parents, who can serve children with loving hearts.

Ladies and gentlemen, we have come this far now. This path cannot be avoided no matter what kind of opposition we face. What if you have to walk the way alone? Where would you go when you are lost in the desolate spiritual world? Do you have a nationality? Where do people without nationality go? Do you have a house? Where do you go? The world becomes most fearful. There will be Satan and angels, yet when you are standing on Satan's side, angels will not come.

So when you wake up after death, you will find out that there is a spiritual world; but what if Satan drags you away? There will be great commotion, people pushing others to go first. So if you think about this, can you get any steep? It is an inevitable course. Rev. Moon is serious about such things. What will happen after death? When I go to the spiritual world, such and such people will come to me. I have made all the arrangements. Do you understand? I know the secrets of Confucius, Buddha, and Jesus. Understanding the miserable heart of Jesus, I say to him, "Didn't you die because of such and such?", and he says, "Surely. How do you, Rev. Moon of Unification Church, know it?" This is why I can be a friend of Jesus.

You or Christians may call Jesus, "Lord, Lord", but I don't; we are friends. They call me a heretic because I say this kind of thing. But wait and see who is a heretic. You should make the preparation before you go, do you understand? I am doing this because I know very well that when I go to the spiritual world there will be a big commotion. If you cannot believe this, pray and find out yourself. This is why I am following this path although it is hard. How about you? Where will you go? Are you ready? If you say to me at the time of death, "Alas, I ask for your favor, for I am now going to the spiritual world", then it is too late. Preparation cannot be made then, but only while you are on earth. (61-327)

## ***2. We Entered A New Age Through The Declaration Of Day Of Heavenly Victory***

When you consider Jesus, Jesus is formation, twelve disciples is growth, and seventy-two elders is completion -- it is three stages. If you cannot do this, you cannot go to the kingdom of heaven. Originally, you can receive the Blessing only after doing this. Then Jesus can be married. When your entire family joins our church, with grandparents, parents, and grandchildren competing to come along, even running on top of one another, then the three stages will be completed; namely, eighty four people.

When this happens, through restoring your parents, you can restore your entire ancestors of tens of thousands of generations at once. The age is coming when spiritual world can return to the earth. The organization on the earth can structure the organization in the spiritual world; they become one. Such an amazing phenomenon happens. Imagine how overjoyed the spiritual world will be. Hence, now the age of victory of religion and of spiritual world has come. (96-251, Jan. 22, 78)

Now you please pray. Your command will be honored: "In accordance with Father's words, on this Day of Heavenly Victory, October 4th (1996), you good spirits please come and lead the evil spirits on earth to heaven through your virtuous embrace." Such an age is coming. Why? We live in the age of Adam, and spirits live in the realm of angels, and they have to move because by the Principle, angels are to assist Adam. (89-113)

True, the spiritual and mental world is very much a realm of unification. If you say, "I miss so and so", and wait for twenty-four hours, this person comes. This is realized. When you focus, he appears. This is like sending electric waves. Then, because he has the mind that works like a receiver, for no reason he becomes curious about you and feels the desire to come.

### ***3. Unification Ceremony And Spiritual Assistance***

What is the significance of True Parents' birthday? On February first in the lunar calendar, I did the so-called Unification Ceremony. You or ordinary believers may not know what this ceremony is. Look. In the course of restoration, you should perfect the individual, family, tribe, and country, and they must be connected vertically. Do you understand this? I made accomplishments on earth at individual, family, tribal, national, and country levels, but it is not yet connected to the spiritual world. Nor is it connected to the families of the Unification Church. Although the road is paved, this road must be connected with the spiritual world and then to the physical world. Only then, will the Unification Ceremony start.

When does the Unification Ceremony start? Since Christianity is global, and has been developing mainly through democratic countries, unification is possible only when there is worldwide foundation; without such a foundation, the unification at one level cannot be connected to other levels. At this time, we can only aim at the global level from the national level, but we cannot decide it and fix it. Do you understand what I say? But now, through the foundation I made in America, we can make the connection. Now is the time when country and world are connected. And the global level is linked to the level of spiritual world.

In the spiritual world, Korean and Japanese spirits are not connected, for instance. Spirits with different nationalities are connected only to their own countries, and thus we cannot mobilize the whole as a unified force. Do you understand this? Until this is resolved on the earth, spiritual world will be in disorder. Furthermore, in the spiritual world, enemies fight and create troubles, Koreans and Japanese, and Japanese and Chinese, for instance. So we are trying to reconcile them.

For this reason, we have done a Ceremony for Entire Liberation on last March first, 1975, a ceremony to forgive and liberate the whole. This even opens the way to forgive Satan. Do you understand this? Through this ceremony, enemies cannot treat each other as enemies but must forgive them. For me, Satan is my enemy, and after forgiving Satan, there is no more enemy. For God does not consider him the enemy, either. Now is the time when this is unified. What will happen if physical world and spiritual world became one?

What is fall? It is a separation between physical and spiritual worlds and between God, on the one hand, and Adam and Eve, on the other. It is a breach of heart between Adam and Eve. Hence, with the spiritual

and physical worlds unified, if the supranational structure of the Unification Church develops centering on family, tribe, nation, country, and world, this can form the worldwide realm of unification. Do you understand this? [Yes]

So it is not possible to do this in America because we have to solve those things. Korea is the central country; in Korea, through establishing foundations of individual, family, tribe, nation, and country, we advanced towards the world. This is why I came to Korea in such a hurry. So after the Unification Ceremony, I realize that my birthday this year is historic. Do you understand? [Yes] Why historic? Those spirits have never had a chance to attend True Parents' birthday, nor do they have a qualification to celebrate it. Also, all the people in the world are without the privilege to celebrate it. It is because spiritual and physical foundations are not joined.

Now, however, with such privilege being provided spiritually and physically, spiritual world moves to restore descendants. From the Principle standpoint, ancestors are in the archangel's position and descendants in Adam's position. As the archangel assisted in the creation of Adam, the spirits are united and assist in the creation of Adam on earth; the age of ancestral intervention is coming. You should understand the Principle. For those who hear this for the first time, it may sound like a dream.

For this reason, this day, when True Parents come to Korea to celebrate their birthday, is a day of opening another historic epoch. In other words, countless spirits in the other world come with the privilege to participate in the celebration. So we did the ceremony in headquarters, OK? [Yes] Through this, we move to the age in which ancestors as archangel can re-create their descendants who do not know Unification Church yet as Adam, just as God created Adam with archangel's assistance. With this logic, people all over the world can receive the privilege to celebrate True Parents' birthday. Do you understand? [Yes]

#### ***4. Ceremony Of One Heart And Assistance Of Ancestors***

I have become the head of the Moon clan, not through a coercion but through their own desire to serve me. I have met this organization -- Association for Finding the Family Root -- for the first time. Through this meeting, heads of clans got together and presented me as a parent of Korea. In order to do such a thing, this ceremony is inevitable.

The position of True Parents is not just for Koreans but for the whole of mankind and all the ancestors. They should have gone to the spiritual world as descendants of True Parents but could not because of the fall. The earth is in Abel's position, and so by following Abels, as they work to restore elder sonship, spiritual world can receive liberation. Since the physical world has restored elder sonship, spiritual world has to support us. So be strong and courageous because the way of heaven is before us. So through Ceremony of One Heart we determine this clearly and announce it. Do you understand?

You don't know spiritual things, right? This way, your good ancestors can help us through heads of the tribes. This is connected to the earth. Physical world and spiritual world have different points of view, and in the fallen world, they take opposite courses. But how can this be overcome? Through true love. (190-314)

## **Section 5. Returning Resurrection And Assistance Of Spirits**

### ***1. Position Of Past People In The Spiritual World***

The one who experiences in his life God's shimjung, who is leading the providence with historical sorrow, will be unable to look at God without tears wherever he goes. When he understands God's Will and struggles to become His child, and when he finds collaborators of the same heart, God will come and shed tears. Then where does God's sorrow lie? It lies in this country, world, and all things, as well as in each of us. We should eradicate this and restore God's joy. The center of our life is the self who can experience God's sorrow.

Then the question is if I am able to move spirits to testify. The spiritual world also requests this. Since spiritual world knows God's heart, if such a person makes such an appeal, spirits are mobilized to help in order to realize the ideal of the heavenly kingdom. Why can't spirits come down to the earth? It is because the earth has become the wall of lamentation. (4-60)

The place where you are standing is not where Adam fell. It is beyond that hill. In other words, now is the time when Adam can communicate directly and go straight towards one purpose. From this point of view, the histories before and after the third seven year course will be radically different. Through the third seven year course, evil force will go down and good force will go up; thus, this course is the time when spiritual world and physical world cross. You should know this.

In the spiritual world, there are good, neutral, and evil spirits. In the three-stage development, after the third seven year course, good spirits will become able to communicate to the earth. It is inevitable. The formation and growth stages are under Satanic dominion, and thus evil spirits led the way and evil people controlled the world. From now, however, spirits start being exchanged. When the exchange occurs, spirit world comes down, with evil spirits first. Then come neutral and then good spirits. When it is turned around, good spirits and good people go up and evil spirits and evil people come down. So far, good and evil kept going up and down, intermingling with each other, but now we enter the age in which good and evil are separated completely. (75-193)

When you go to the spiritual world, you will find that some great figure in the New Testament, who was martyred, respected, and supposed to be in a lofty place, is actually in the most miserable place. Those who die with a thought that their death will bring them to kingdom of heaven cannot go to the Kingdom of Heaven. The attitude of such people is like a mad man who killed himself for kingdom of heaven. But those who suffered and sacrificed, if not martyred, in order to send others to the Kingdom of Heaven, turn out to be the ones in the Kingdom of Heaven.

We should fix the fundamental root of faith. Christianity caused much disaster because of the wrong beliefs. Unification ideology is to remove this disaster. Although we do not destroy it, it is destined to perish. But why do we have to destroy it quickly? It is because we must destroy it and rescue it before it perishes on its own and becomes deserted by God. (64-110)

Among your ancestors, there are many who went to hell. We should liberate them all. Since this is the way of the parents, you must follow it; it is your destiny to follow it all the way to the end. Then spiritual world will help us, through individual, family, tribe, and national levels, thereby bringing unification. You should know this. If we unify the world, we can unify the spiritual world automatically. When spirits come down to the earth, evil spirits come down before good spirits. This is why there is a phenomenon of neurosis among people on earth. You don't know this, but now evil spirits are all down on earth, attacking the human world.

With the coming of the age of ideological confusion centering on democracy and communism, evil spirits come down and cause chaos of body and spirit. When good spirits come down to the earth, however, they expand and start occupying the evil spirits' areas on the earth. When good spirits occupy the earth, there is no place for evil spirits to go, and they will have to surrender. When Satan comes to the earth and surrenders, evil spirits also surrender. So in the Last Days, we should restore even Satan. (54-228)

## ***2. Mobilization Of Spiritual World And Spiritual Assistance***

In witnessing, you should witness even when it does not go well. Again and again. It is like throwing stones in the sea. You keep doing it until the stones fill the sea and form a mountain. What happens then? You grow in shimjung. Although the body does not change, shimjung grows. You get up early in the morning and pray in tears for the village for which you are responsible. This is the way of shimjung and of touching the spiritual world. You feel that when God looks upon this village, He cannot help shedding tears because they are all destined to hell, and you shed tears for God.

When you create a powerful resonance by shedding tears for God, the entire spiritual world will be mobilized. You should be able to inspire God with tears so that He thanks you and considers you better than Adam and Eve; otherwise you cannot touch the spiritual world. Only when God says in tears, "As betrayers' descendants, how can you be so good!", will the spiritual world come to your assistance. That is the point where spiritual world starts to open; anything below that standard absolutely will not work. This is the Principle. (96-262)

Ladies and gentlemen, do you like going to the spiritual world? Between your desire to go to the spiritual world and the desire of the spirits to return to the earth, which should be stronger? [spirits] From the standpoint of the Principle, which should be stronger? The spiritual world is the archangelic world, and this world is a world of Adam, Eve, and children. Should children be more eager or servants? Are you supposed to help the spiritual world or is the spiritual world supposed to help you? [Spiritual world should help] They are waiting to help, but why are they still waiting? Would they help you in building the heavenly kingdom on earth or in trying to live comfortably? [to build heavenly kingdom] (161-227)

As I say, spiritual world must be mobilized. Otherwise, how can we create the heavenly kingdom? [We cannot.] Heavenly kingdom is supposed to start from True Parents and not from fallen descendants. As the angelic world assisted at the time of Adam, spiritual world should return to earth and assist the

earth with re-creation. Isn't this -the Principle of Resurrection? It will be considered true when it is realized in reality. (162-115)

Am I driving you into suffering because I hate you or because I want to save you? You should know that it is for the sake of saving you. Understanding that your suffering is for your own salvation, you should be grateful. Then the new world of heavenly shimjung will unfold before you. This is the right order. So once you possess the shimjung ties, you can fly anywhere and day and night according to heavenly commands. If you are determined to take responsibility and lead the world like a locomotive, then the spiritual world will help you. If you think this way, the spiritual world will surely help. (96-279)

When you undertake the responsibility for the nation, you should be able to say things such as the following: "In carrying out the individual, family, national, and country mission in the Unification Church, I will faithfully stick with fortunes of this church. I am a branch of Unification Church that is growing with power of the church. Therefore, the word of the Unification Church is my word, the personality of the Unification Church is my personality, and shimjung of the Unification Church is my shimjung." Then, you will develop wherever you are as the Unification Church does. If you keep up the pace with the Unification Church through such a standard, good spirits and ancestors who used to move along with national fortune will work for you.

Your physical look may be ugly, but spiritual world sees you as princes. Especially, your ancestors within tenth generations from you are anxious, for history of restoration is realized centering on ten generations. But when evil descendants appear, ancestors within ten generations judge him lest he ruin them. For this reason, if someone here has good ancestors, he will be actively supported by them. When you fight and win every battle, spiritual world will rejoice. Then you will scare away evil spirits. Your ancestors will serve you as king. You should be able to feel such things. We should prepare our foundation with the heart that refuses to defile heavenly tradition and dignity. You should pray as to what kind of condition you will establish. Now is a blessed time. (34-20)

### ***3. Spiritual World And Ancestors***

When I see someone's face, I can usually tell if he has good or bad ancestors. Some people have good ancestors and receive blessing, whereas others have bad ancestors and suffer all the time. Such people will only suffer as well when they do witnessing in their mission places. (37-144)

When your personality has a certain shortcoming, then listen to the kind of testimony that can supplement your personality. Listen to many experiences. When you hear them, do not criticize, for criticizing means deciding between heavenly side and Satan's side. Do you understand? Criticizing is like a cancer in your development. Once you are on Satan's side, you cannot come to God's side, and once you are on God's side, you cannot go to Satan's side. In our life, we cannot go on a straight line but on zigzag path. I inherit elements from both good and evil ancestors, and these elements influence my actions. So criticism is dangerous. This is the reason why criticism is prohibited. (date unknown)

If you possess true love, you can join God's party any time. You can see thousands of ancestors and spirits because you can transcend time and space. Only those who have heart of true love can manage

and transcend all this. The only way to inherit everything from God as God's equal is through love. If a man of true love just passes by, slightly touching me, I would be very happy. Everyone would welcome him. The other world is like this, so you should be trained here, do you understand?

Why am I teaching this? In order to create a person who can breathe in the heavenly world and follow its beats. You should be able to dance to the beat. I am going to spiritual world, right? Satan cannot follow me in the spiritual world. (147- )

We should be one by receiving true spirit from God. In order to achieve a complete unity, we should start with the original subject and then through this become able to move the body; otherwise, unity is not complete. For Unification members, spiritual world is a living reality because when they go astray on their own, for instance, spiritual world stops them and helps them put things in order. This is an amazing thing. A Unification member is connected to his good ancestors through mind and body; they prevent the body from going in the evil direction and push it in the good direction. (162-104)

If there were True Parents, who can govern everything, true family, true society, true country, and true world, how wonderful this world would be. But this is not such a world. Why has this world become like this? Because of the fall, right? From the standpoint of the Principle, it started with a wrong motivation and has continued thus far. The simplest way, then, would be to say, "I can simply get by, and what is the need for a regret? Then I don't need to have any kind of high purpose. It has been like this so far, and I would accept the way things are and live on. How long can I live, anyway? I may live for 70 or 80 years, and that will be it for me. So what's the need for the painful worries and toils?" If your life stops in this world, how simple it must be. If this life is all there is, then I would have also packed my bag and left. But man lives eternally. You don't have so much spiritual experience, but you can meet all the ancestors, including Adam, in the spiritual world. Grandparents, do you want to live long? [Why so long?] Do you want to live long or die quickly? [I want to die soon] Do you want to die soon? [Yes] Then if I strike you with a sword, would you say, "Oh, thank you"? [laughter, How can we die like this?] But you need this if you want to die quickly, don't you? [But I should die according to my destiny] Grandmother, you would run away instantly when a car drives at you on the road, right? (laughter) We have a protective instinct, which makes us act even without a thought.

Does mind get old or not? [Mind does not get old] How about the body? [The body gets old] Why does the body age when the mind does not? When you are treated like an old man, you are not happy. You are not treated as the same generation. How disappointed you must be? (159-277)

When you go to the spiritual world, you will meet countless saints and ancestors and talk with them. They will ask you where you came from and how you lived there, just as friends share their life stories. When your great ancestors ask you, "Hey, you, where did you come from?", then would you protest them for using rough language? Or are they entitled to use such languages because they are your great grandfathers? Christians bow down and pray until they hurt their forehead just to meet Jesus. Even when Jesus appears, however, would they be happy if Jesus keeps using rough language to them? (148-32 1)

#### ***4. Hope Of The Spirit***

When our Unification Church members have a sincere, loving heart to make Parents happy at least once in their life, they can resonate with the other world. You all want to love me, right? How long have I been speaking? Almost for four hours. But has anyone at least prepared a bread for my lunch? Is there anyone who tries to offer at least spiritual bread, or one who prepared a bread with a thought that he will be grateful even if I throw it away to birds without eating it?

What would spirits think? Would they want to bring something to me everyday and see me eat something from it? Who would be more eager, you or spirits? Would spirits be more eager? [Yes] That is true. You do not know, but spirits know. They know what will happen in the future. You don't know anything, but the other world knows clearly. So they know how they can serve me. All the five senses feel the stimulating power from me. You have not been able to feel this so far, but now you will be able to feel this when you are connected with me. (207-98)

## **5. Returning Resurrection And Rebirth**

### 1) Returning Resurrection

Just as spirits of good ancestors at the time of Jesus could rise from the form-spirit to the life-spirit-level spiritual world, your ancestors have a special privilege to return through you. Do you understand this? When you understand this and become victorious branches, you are in a position to form a living being; then, your ancestors will help you. This way, you should be a foundation through which your ancestors of thousands of generations can return. In the time of Jesus, spiritual world helped conditionally for the sake of life-spirit level resurrection, but now they help unconditionally for the sake of divine-spirit, level resurrection. So now is a time of great blessing. Do you understand it? In other words, spiritual world is helping. (14-2)

Our present church is too large. At the time of the Chung Pa Dong old headquarters church, when I kicked out someone through one door, he would enter through another door, hiding behind a chair until I went upstairs, and when I disappeared, he would come out and pray through the whole night. We have this kind of history, right? After this, he would come here like this to see my face before he left. It is surely crazy, right? Both you and me. Isn't this why we are famous in the world? [We are crazy together] No, I am not crazy, you rascals. (laughter) If both of us are crazy, then who can take out the feces and urine? What if both of us urinate? (laughter) You are crazy, but I am not. If I were crazy like you, then Unification Church would not have survived.

In such a chaos, I have been able to steer the way. How much did the world try to kill me and uproot the Unification Church? It was because I was not crazy that we could steer our way through all this. I have tied a rope high up with God according to the way of the heaven. Petty folks, however, try to hook it within a narrow range only in vain. This created wars between churches and countries, bringing countries to ruin. The Unification Church victoriously overcame its war with Christian churches, political parties, democratic and communist worlds. How? From far away. When the rope is hanging from high up, they could not undo it with their own strength. Can they cut off Unification Church? Whether it is philosophy, religion, or spiritual world, no one can be our match.

In America, there is a spiritualist association, and its head is Arthur Ford. He heard about Rev. Moon from Asia. Our missionaries do not visit person by person. They bring Divine Principle books to people who have spiritual communication and tell them, "Please check what kind of book this is. I will come back in a week." When the missionaries go back in a week, they say, "Oh, master, please come." (208-195)

We should offer sacrifices to God with a theory and practical foundation that is enough to subjugate the spiritual world. This ceremony of sacrifice was today's pledge service (Nov. 17, 90), do you understand it? At Han Nam Dong house, I prayed that since the time has come, the current that has been flowing in reverse through heaven and earth now flow in the right way. Since heaven has restored the elder sonship, all the existing second sons and second sons to be born in the future are under God's rule. So after the restoration of elder sonship, the age of second son comes, and heavenly law cannot allow the devil's performing stage. This is a logical conclusion. Do you understand this?

All the spirits have abused Abel on earth, just as elder son murdered and sacrificed the second son; now that we have the elder sonship, however, we can control even the spiritual world. Now they must help us in order to receive the blessing; the more they oppose, the deeper they fall into a pit. The heavenly fortune is changing rapidly. Wait and see in the future. I do not like saying such things, but it is inevitable. For this reason, those who communicate with petty spirits spoke against going to Unification Church. But now Buddha, Jesus, Confucius, and Mohammed must teach people to go to the Unification Church; otherwise, they will be judged by the heavenly law. Why? It is because Rev. Moon's religion is the parents' religion. (208-154)

## **2) Questions and Answers about Principle of Rebirth**

(Father answers questions: Mar 26, 1972, Essen church, Germany)

*Question: Through what foundation did the Principle of Rebirth come into being in Asia?*

The theory that is prevalent in Asia is not Principle of Rebirth but theory of reincarnation. Reincarnation is a Buddhist doctrine. It sees the phenomenon of resurrection only for one time rather than from the context of the whole. Spirits desire that they receive privilege through people on earth. This is the request of the spirits. The value of human beings before the fall is such that they can dominate the angelic world and cosmos. They fell down a few stages because of the fall, and thus they must go back up to the original place. In going up, however, they cannot go all at once but through a few stages; through the stages, they should restore individual, family, tribe, nation, country, world, and cosmos.

Originally, human beings should go to this world (Father points to what he wrote on the board) But there is no one-step road to this world; you must pioneer each stage and proceed through the stages of individual, family, tribe, and nation. (Father writes on the board) From this point of view, in God's providence, those spirits who died before the Old Testament era, which is a providential age of saving individuals, desire to enter this age and receive the privilege. Going through each stage inevitably requires indemnity. Here, indemnity must be paid as in the case of Cain and Abel.

In other words, suppose a spirit A has been helping through different ages up to now. In order to go to the next stage, however, he still cannot pass over freely, but only by making a condition of indemnity. It cannot be done in a day or two, but through some Principle number, for instance, Twelve years, 40 years, 70 years, or a few centuries. Thus, since this spirit, who has been helping here, (Father points to what he wrote on the board) cannot continue to go up before the period of indemnity is over, he goes back to the spiritual world. This spirit hopes that the first man he is working with can complete the foundation, but if he fails to complete the indemnity condition within the period and dies, this spirit chooses another man and tries to return to him.

For instance, if this spirit is Paul, in an attempt to go up through each stage, if the first man he returns to fails to complete the indemnity condition within the given period and dies, he returns to another man and helps him. Indemnity is necessary. According to the Principle, indemnity is not completed in a short time. For this reason, if the second man does not fulfill the indemnity, a third man is chosen for a returning resurrection. So finally, Paul returns to the third man. The second man will say that he is working with Paul's assistance. Likewise, the third man in the next age will also say that he is working with Paul's assistance and even that he is himself Paul. This way, it looks as if Paul's spirit appeared in the second man and again in third man. Looking at such a phenomenon, they come up with the theory of reincarnation; it is because they do not see the whole. This is the same in this age until the age of world and universe. (Father writes on the board)

Original man lives under God's direct dominion apart from Satan's rule, and yet they live in the fallen realm due to the fall. In order to get away from it, he must pay individual indemnity, family indemnity. . . Without this he cannot come out. Spirits appear in each age through the rule of returning resurrection, and so each stage looks like a phenomenon of reincarnation.

The same applies to you. If you have faith but die before marriage, you have to go through the stages of family, tribe, nation, country, and world. For this reason, you cannot tell how many hundreds of millions of years it will take. This is almost infinity. Jesus could not go beyond of limits of country, and so he has to come back and go up to the stage of country; only through this can he go to the kingdom of heaven. He is now in paradise, and same applies to him.

When Jesus comes to someone and guides him, he claims that he is Jesus. From this, it seems that Jesus is born again, which gives rise to theory of reincarnation. Do you understand this? (Yes) You should understand spiritual world clearly. Human beings, who are supposed to live in God's dominion of goodness, are living in the fallen realm, and they must come away from it. This is why such things happen. Jesus did it spiritually. Christianity has been doing it spiritually also, do you understand? Is there a question about this?

From this point of view, the Unification Principle of Resurrection conforms exactly to the spiritual facts. In other words, the Principle of Resurrection teaches you spiritual formula. So far, countless religious people have experienced such things but have not understood it clearly. When you hear this Principle, however, do not just learn it as a theory, but you must practice it in your own life and achieve victory; otherwise, I will not teach you this.

In other words, instead of stopping at learning about Noah's family, Abraham's family, Jacob's family, Moses, John the Baptist, and Jesus, we should try to pay indemnity for all these figures and establish a victorious foundation. I will teach you when such a foundation is established. In other words, we cannot carry out God's Will unless we turn our defeat to Satan into victory. The providential figures such as Noah, Abraham, Jacob, and Moses did not know this.

The returning Jesus, however, must indemnify the failures at individual, family, tribe, nation, and country levels. He is the representative who knows it all and can put it into effect until the ideal world is found. You should know that without doing, we cannot realize it. What will happen if you meet the Messiah and follow him? When you meet him at the time he is perfected through the ages of individual, family, tribe, nation, and country, you will also receive the benefits of individual, family, tribe, and national ages and continue up to the country level. When someone at the individual age wants to go up to the family age through the Messiah, he has to pay indemnity on earth, just as spirits do. Also, in order to go from family age to tribe age, he has to pay indemnity. This means that the longer one has stayed in Unification Church, the more indemnity he has paid; the longer he has been here, the closer he is to me.

The way up to the age of country is a vertical path, and the national system should be determined here. If you do not continue to go up in this process, however, you can fall away. It is because spiritual phenomenon is such that no matter how high you go up, the same phenomenon occurs because of indemnity. Indemnity blocks your way. This is why it is easy to fall away. When you fail here, you will lose everything. Although the Nation of Israel and Jewish Church waited for Jesus for four thousand years, all the foundation collapsed as Jesus died without accomplishing his mission. (Father writes on the board) For this reason, you should know that many people have made sacrifices in the up and down fluctuation.

This happens to the mainstream of God's providence, and yet it also happens to many nations around the world as side-streams. Through this, indemnity is paid throughout the world. In other words, as it goes up as the mainstream like this, other people around the world take either conforming position or opposing positions and pay indemnity.

(Father writes on the board) Things are organized through such an indemnity. You should know that for this reason many religions have made sacrifices in following the providential course.

How do spirits and religious people go beyond this level, which is the highest goodness? In other words, the question is how the country level can be transcended. This is the Messiah; Messiah seeks after this. (Father writes) Since Messiah knows the method of indemnity, when the people unite with him, their indemnity period will be short. When the country is established and settled with the Messiah, all the individuals will belong there. If a country paid indemnity, family, tribe, nation, and country will go up to the world level. Considering this, you should think how fast the world restoration will be if one country is found.

We can go beyond paradise only when we establish a country. Paradise is like a waiting room before going to the heavenly kingdom. If errors still remain that were committed by Adam, Noah, Abraham, and Jacob as they followed this course of restoration, they must all be indemnified. Without indemnity,

horizontal development cannot happen. From this point of view, we can see how important a country is. If we have a country, we do not fall away. For instance, how much are foreigners cared for by German government? If they do something wrong, they are kicked out. When they have no nationality, however, where can they go? They have nowhere to go. When such people are killed, they still have no place to appeal.

It is the same in the Satanic world. In a Satanic country, we are people's enemies. Believers of God are their enemies, so how much do they hate and persecute us in their country? Furthermore, even if they kick us out or kill us, we have no place to appeal our case. Likewise, since country is important, God comes looking for a country.

For this reason, in finding a country, you should pay indemnity for individual, family, tribe, nation, and country. You should follow the individual, family, tribal, and national indemnity courses. Otherwise, there is no road to the world. Since the country is the center, each country must go through the central country. If you die without restoring a country, you can only return to the earth and support individual and family, unable to work with a proud authority. You are not qualified as a fighter for occupying Satanic world.

Thus, you can enter in only with a country. Have you entered in? Although you have entered into the Unification Church, you have not entered in God's unified country. Can you be a people without a country? No. Do you understand this? [Yes] Hence, all the spirits hope to assist people of this country. If only you are in this country, return resurrection will occur horizontally. Since it occurs horizontally, the foundation you work for will remain for you.

But before finding this country, however much indemnity you pay, you will lose it all if you make a mistake. You may build up from the bottom, and yet if you slip off on the way, everything will crumble down to nothing. When this is being done on a horizontal level, however, what you have worked for will remain eternally. In other words, during restoration, you will lose your investment through indemnity; when a country is found and we work horizontally, however, your efforts will remain as your accomplishment rather than disappearing as indemnity. (54-227)

End.
